List of Property Transfers and Building Permits Issued-Sales of Property Have Been Effected at Satisfactory Figures-Better Results Awaited-Alterations at the Temple. obtained by The World from the architects, Messrs. Gouinlock & Baker. The building will measure 100 x 110 feet, and will contain 48 apartments, each of which will be fitted up in the most up-to-date manner possible. Every convenience will be provided—even a telephone service. The structure, which, by the way, will have four electric elevators, and be heated thruout by steam, will be named "The Alexandra Apartment Buldding." It is anticipated that the building will be finished by next May. The work when completed is sure to reflect the highest credit on the architects and all concerned. The cost of the building will, it is stated exceed \$150,000. Aitho the plans will not be finished probably for another week, work for the foundations has been going on briskly during the past few days, about a dozen of men, several plows, scrapers, wagons and teams of horses being busily engaged excavating the cellar.

Healthful signs and still better prospects are the pleasant characteristics associated with our real estate market since last Sales have been effected at fairly satisfactory figures, while, on the other hand, better results are awaited. T. W. Murray,

Bay-street, and several of the other real estate agents report having recorded a number of good sales during the week, while Mr. Harris, the popular manager of the sales department in the Canada Per-manent & Western Canada Mortgage Company, gives the number of sales made by them within the past few days as amounting to about \$17,000.

A good demand for houses and lots in good residential portions of the city is reported.

SIDELIGHTS.

Another storey is being added to the Temple Building, and, as a result, 11 new suites of offices will be built. They will be fitted up on an elaborate scale, and wil be connected with the main building by marble stairways. In addition to this important undertaking, the I.O.F. have decided to construct another elevator—a third—in consequence of the increasing traffic. The new elevator will be of the most modern description, and will be run from the main entrance on the basement to the top storey. The work is being looked after by a number of prominent contractors, including: Messrs. Oakley & Holmes, Winelow (Chicago), Robert Johnston, Rice Lewis, the Metallic Roofing Company and Bennett & Wright. Messrs. Goulnlock & Baker, and the work is given at \$50,000.
