Flu and Pneumonia Serum Found by Pasteur Institute

BY C. F. BERTILLI.

Paris, Feb. 2.-The only sure cure of the flu exists at the famous Pasteur Institute, where doctors are now perfecting a vaccine called "type B." which is expected definitely to rid the world of the influenza epidemics.

The vaccine, which contains four-teen billion dead baccilli per cubic centimetre, can be used both for cure

Mr. Ferguson mendations of the ad interim com- used the occasion to open a campaign mittee are but steps in a movement for creating "a real ecclesiastical entive party and also to initiate a movement against free trade. He warned his hearers that the farmers were for free trade, and must be fought, as Canada would go under unless her protection policy was maintained. Mr. Ferguson promised to give the Drury following a fair chance to show what they could do in the way of legislation, and stated that the Conservative party would not be found in the same boat as Mr. Dewart in pulling an oar with Mr. Drury —they would stand alone as a party. Mr. Ferguson announced that a Conservative convention would be held in the early summer to select a leader of the party and to further a general organization of the party.

Ministers Lack Experience. In commencing his speech Mr. Fer-guson said as a result of the happenproposed to address his audience with accordance with British traditions, and, therefore, would not be approved by the people at large.
