Poetry, &c.

[From the St. Louis Reveille.] SEPTEMBER.

September's come! ober Autumn, with a face serieue, s bfand adieu to Summer, like a quee Dismissing a gay favorite; the ham um of bird and bee is still upon the bi-mough no leaves have fallen from the September's come!

Now hours and days
Go rolling by, and weeks away recede
So noiseleesly, that we may scarcely rea!
The calm, slow change of miure as we gaze
Liati the speeding season yellows o're.
And we laok round for what was green before,
With fond amoze.

Good Humour.—Let us cherish good humour and christian cheerfulness. Let us endeavour to shake off that sullenness which makes us so uneasy to ourselves, and to all who are near to use Pythagoras quelled the perturbations of his mind by the use of his harp; and David's music calmed the distraction of Saul, and banished the evil spirit from him. Anger, fretfulness, and pecvishness prey upon the tender fibres of our frame, and injure our health.—Fuecet.

Rocking Babies by Steam!—Matthew Trvine, of Hebburn, an ingenicus mechanic, has made a small steam-engine to rock his child's cradle! The length of the engine and boiler is IG3 inches. It is confidently expected that the child will turn out a second James Watt or George Stephenson.—Gateshead Observer.

New York, Sept. 8.—The Sardinian Sloop-of-War Aurora, which arrived at this port yesterday from Genon, is a naval school-ship of 500 tons, commanded by the Marquis Spinols. She carries 8 guns, with 118 men, 25 naval scholars, who rank as midshipmen, and 7 officers. The object of the visit to America is the improvement of the pupils—who are sons of distinguished families. The Naval School at Genoa is said to be the best in the world. The pupils are taught by eminent professors foreign languages, as well as mathematics, navigation, &c. Among the apparatus of instruction within the enclosures of the school is a full rigged man of war. Five months in each year are spent at sea, visiting foreign countries, &c.

As second James Watt of George Stephenson.—

Gateshead Observer.

Hymen on the Rail.—At Norwich, lately, a train having run off the reils and occasioned a stoppage, two of the passengers took advantage of the opportunity to go before the nearest justice of the peace and get married. This is probably the most striking instance of economy of time upon record.

Hard Times!—And we must make the most of what little we have—as the grocer said when he watered his vinegar.

New Years Survey Surv
