

List of Pupils at the Sault St. Marie and Elkhorn Homes during the year 1891.

LEFT DURING THE YEAR.

1. *Arthur Miskokoman*—age 20; had completed his course at the Shingwauk; returned to us after summer holidays, and began attending the Public School up town; made very satisfactory progress, but the plan did not answer very well; so he went back to his home by the last boat down.
2. *Joseph Soney*—age 18; was attending Trinity College School, Port Hope, but his elder brother having failed to pay the stipulated quota towards his support, there was a difficulty about his returning to the School last fall, and his place has been taken by another.
3. *Pascoe Hill*—age 14; went home sick (the result of pleurisy) last fall, and has since died.
4. *Ziba Peters*—age 15; had only come to us for two years, completed his time, and went home.
5. *Elijah Rickman*—age 12; was very ill in the early spring with pneumonia and pleurisy; was taken home by his father soon after opening of navigation, and has since died.
6. *William Esquimau*—age 11; died of consumption in our hospital, April 2nd, and was buried in our cemetery.
7. *Edward Rickman*—age 10; brother of No. 5; went home with his sick brother, and will remain at home for the winter.
8. *Wilson Knaggs*—age 16; came back to us in the spring (although time completed); left again at close of navigation.
9. *Nancy Henry*—age 18; went out to service in the spring; late in the fall went to her home; was doing very well.
10. *Mary J. Waukay*—age 13; was ill at the Wawanosh with scrofula, and symptoms of consumption, so sent to her home.
11. *Elizabeth Augustus*—age 16; completed her time at the Wawanosh, and sent home in charge of No. 10.
12. *Annie Jacobs*—age 16; had made excellent progress, and should have remained longer, but her mother was sick and wanted her home.
13. *Thomas Cromarty*—age 17; was three years at Shingwauk, and three years at Elkhorn; had become a most reliable, useful boy; but began to show symptoms of consumption, so was sent home last fall.
14. *Aleck Beesaw*—age 15; completed his time with us (partly at Shingwauk, partly at Elkhorn,) and went home in the fall.
15. *Joseph Charles*—age 13; very much troubled with Scrofula, so we thought it best for him to leave the Elkhorn Institution.
16. *Edward Eastman*—age 7; was very ill last spring with pneumonia and symptoms of consumption; taken home by his friends near Elkhorn, and soon after died.
17. *Jeremiah Slater*—age 10; was taken home by his mother when she left the Elkhorn Institution (having been cook there.)
18. *Ruth*—a heathen child, age 10; has left our Elkhorn Institution for the present, but we hope to get her back.
19. *Winona*—a heathen child, age 8; has left also, but will, we hope, return.
20. *Alice Slater*—left with her mother at the same time as No. 17.
21. *Elijah Crow*—age 14; we were disappointed with. He had been three years at the Shingwauk, could talk English well, but his removal to Elkhorn where he was near his friends seemed to have a bad effect with him. He ran away twice, and the second time we thought best not to take him back.
22. *Frank*—a heathen boy, age 15; was sent home sick from our Elkhorn School, and has since died.
23. *Rose*—a heathen child, age 10; went home sick and has not returned; but we hope ere long to have her back.
24. *Mary Wechahwejin*—age 13; was three years at our Elkhorn School. Her father, who lives at Moose Mountain, thought this long enough, and took her away.
25. *Albert Kennedy*—age 13; went home for holidays in the summer and has not returned.
