PARLIAMENT OF IRELAND OPENED

Sir James Craig Announces His Cabinet.

Hugh O'Neill is Speaker—Sinn Fein Bulletin Replies to Sir Hamar Greenwood—Three Men Executed This Morning in Dublin.

Belfast, June 7.—The parliament of Northern Ireland, elected last month under the new home rule measure, was opened today amid impressive scenes in the council chamber of the city hall here.

The Belfast city hall although architecturally one of the finest buildings in Europe was hardly adequate for the installation of the parliament. The council chamber, although it contains ample accommodation for the fifty-two members elected to the House—six Sinn Feiners and six Nationalists who did not appear today, having been chosen to the body in addition to the forty Unionists—is hopelessly small when considered from the spectator's standpoint.

LEND AIRSHIPS TO LUMBER CONCERNS

Announcement of Policy by The Canadian Air Board.—Ottawa, June 7.—(Canadian Press)—The value of lighter than air aircraft for forestry patrol and similar work in Canada will, it is expected, be demonstrated during the present flying season by several Canadian lumber firms working in co-operation with the Canadian air board.

The air board will loan the necessary airship as equipment as is done by the civil aviation branch in Great Britain. In the gift of aircraft received by Canada from the mother country at the close of the war there were some lighter than air machines equipped with 100 horse power Rolls-Royce engines. None of these has yet been used here, and it is feared that if they are kept in storage they will deteriorate.

At the same time there are sections of the Dominion where heavier than air craft cannot well be used for patrol work because of suitable landing places are few and far between and it is said that the lighter than air machines will fill a great need under such conditions.
