VARICOSE VEINS AND ITCHING PILES

Usually Arise From Same Cause—Relief and Cure Effected By Dr. Chase's Ointment.

Nearly everybody knows of Dr. Chase's Ointment as the most effective treatment for piles or hemorrhoids that medical science has been able to compound. So much suffering and misery arises from this ailment that one is not long in telling his friends when he has found an actual cure. This accounts for the enormous sales of Dr. Chase's Ointment.

This letter tells of relief from the suffering of varicose veins by the use of Dr. Chase's Ointment. Many suffer from this trouble not knowing the comfort to be obtained by the use of this great soothing ointment.

Mrs. E. J. Evans, 187 Munro street, Toronto, writes: "We have used Dr. Chase's Ointment for years. I have been troubled with varicose veins, and find it the only thing that gives relief. For every purpose when a soothing, healing ointment is needed there is nothing so good as Dr. Chase's Ointment." 60 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

RIVAL TEAMS AS SEEN BY JOE PAGE

(Continued from page 1.)

The Outfield

Taking up the outfielders the Mackmen certainly have a strong, fast and clever trio in Murphy, Oldring and Strunk, who may be depended on to break up a game as quickly as their more famous team mate Baker.

On the other hand McGraw has greatly improved his outfield by the replacing of Devore for Burns who is counted by the critics as one of the best and brainiest outfielders in the game today. The majority look to see him also make history in the coming conflict and from what little I have seen of Burns, I am more than inclined to agree with them.

Snodgrass and Murray, the other two outer gardeners, are slated to hold down their positions, again but, should anything happen the outfielders a cracking good understudy. The Athletics looking at the dope sheet, the Athletics have a slight shade on the Giants in the outer work. That can hardly be noticeable in a clash of seven games.

The Batteries

Which now brings the reader and myself to the question of batteries and the strength they may have in the landing of the world's championship for their club.

The Giants have, without any question, the strongest and best pitching staff they have had for years in Matthews, Marquard, Tressau and Demaree, and who show when opposed to the Athletics' staff of Bender, Plank, Shawkey, Brown and Houck, a decided difference in figures on the season's tally just closed and consequently it must be quite apparent to the reader that while differences would not be noticeable as between two good in or outfields of two contesting teams in a short series, the opposite would be the case in the twirling part of the game.

The Athletics may have the edge in the batting to offset the better pitching department of the Giants, but again critics say the Athletics have been notoriously good against poor pitching throughout the last season and helpless against good twirling. WHICH TO MY MIND IS THE RULE RATHER THAN THE EXCEPTION.

If the latter sentence is true then with the New York pitching staff in form and the Athletic twirlers likewise on their present year's work the New York ball club will have more than offset the difference of superiority shown by the Athletics in other departments of the game, and while not going into the merits of the work of each of the pitchers of the respective teams at this time, it has been shown conclusively that man for man, Big Stick Matty, South Paw Marquard, Spit Ball Tressau and Shut Out King Demaree, is a decided edge on Messrs. Bender, Plank, Shawkey, Brown and Houck.

Together with a good and true saying "Show me a championship ball team and I will show you one or more sterling catchers on the team.

How do Schang, Thomas and Lapp of the Athletics compare with Messrs. McLean and Wilson of the Giants?

The latter is one or a whole outclass the former in practically all departments of the game.

Demaree if sent to the box in the series should prove a winner.

MORNING NEWS OVER THE WIRES

After three ballots Yuan Shi Ki was elected yesterday by the Chinese legislature president of the Chinese republic. Rev. John Linton Dwyer of St. Luke's church, Pawtucket, born in River John, Pictou, N. S., and educated in Westville, N. S., was ordained priest of the Episcopal church by Rt. Rev. Dr. James De Wolf Barry of Rhode Island yesterday.

STARTLING BUT VAGUE REPORTS FROM NOME

Nome, Alaska, most northerly incorporated city in the world, has been reported devastated by a storm. The south side of Front street is said to have been demolished. Front street is the main business street and on the south side are two theatres, several large mercantile-houses and some business blocks. The court house is the end of Front street and there seems a possibility that this also has been destroyed.

The dispatches are so vague that there seems a serious doubt as to whether the affair has not been exaggerated. It is not stated just what kind of a storm it was that hit Nome, but as this is the period of the year when the Bay is just about frozen tight enough for a steam engine to cross it an electrical storm seems unlikely. A tornado has so far been unknown in Alaska. One of the Behring Sea typhoons might by some chance have wandered into the interior, but this again is considered unlikely. In the case of a typhoon strong enough to destroy an entire business street of a city of from 40,000 in summer to 8,000 in winter would beyond doubt have also destroyed the telegraph wires.

The wire also says that no lives were lost. This would seem to reduce the seriousness of the calamity considerably.

STAR'S INDIAN FEATURE TONIGHT ONLY

There is a peculiar fascination about the adventures of our pioneering forefathers in the early days of hostile Indians and when such scenes are re-enacted upon the motion picture curtain they convey vividly some idea of these troublous times. The Star Theatre in North End is showing again tonight—and for the last time—a splendid Indian-white man story in "The Attack on Rocky Pass" an incident in the early history of Montana. Hundreds of people are employed in the out-of-doors production and there is untold excitement, dash, daring and astounding horsemanship. The Star, in addition to this fine bill, has the following excellent features: "The Midgit's Revenge" and "Looking for Dad," both Vitagraph comedies and a tale of Chicago police circles entitled "The Seal of Justice." New show again tomorrow.

Have You Seen The Very Latest in Mattresses?

THE "DIXIE NO TUFT" stands pre-eminent as the acme of comfort and cleanliness. It has all the good points of the ordinary felt mattress, but has distinctive qualities which place it head and shoulders above anything else on the market.

The above cut illustrates its construction, and a glance at it will convince you of the truth of our statement. It is made up of ten compartments and each compartment is practically a distinct and perfect miniature mattress. The absence of tufts does away with the hard spots which tufting inevitably produces, and with the depressions at every tuft which are gathering places for dust, dirt and germs. Our space is too limited to describe in detail why the Dixie has twenty-five per cent. more elasticity than the tufted type, why it presents a better appearance at first, and why it keeps its shape after other mattresses have spread and sagged out of shape.

But if you will write or 'phone us for a circular which fully describes all these points, or, better still, call and let us show you samples, we feel sure that your next mattress-purchase, and all future ones, will bear the "Dixie" trade mark.
