## TWENTY-SIX MILLS THE RATE

PROBABLY IS WHAT COUNCIL WILL DECIDE

Finance Committee Trying to Further Prune the Estimates This Afternoon.

(From Friday's Daily.) The tax rate for the current year will be struck at a special meeting of the city council, to be held to-night. This afternoon a meeting of the finance committee is being held to decide what rate shall be recommended to council

There is every probability that a rate

of twenty-six mills will be what they

report. That there should not be any greater increase than is absolutely necessary is the feeling of practically every member of council, though one or in the service solemnizing such mar- that the Imperial as well as the Cantwo believe that as a certain amount riages was reprobated in strong terms. adian authorities are desirous of having on record all the information posof money must be spent the more business-like policy would be to put on a rate which would meet this rather than which would leave a deficit.

Last year's rate on the assessme

of 1909 produces a sum close on \$59, 000 short of the estimated expenditure for the year. The finance committee this afternoon with the comptrolle with the object of discovering if there are any of them that can be cut down One thing seems to be certain, from conversation with members of the ommittee and that is that the extra \$10,000 which was voted to the streets mittee will be withdrawn, leaving the appropriation for maintenance thoroughfares at the \$64,000 originally voted. This will be vigorously opposed by the chairman of that com who points out that the full \$74,000 is not a penny too much for the work that has to be done. In fact, a large proportion of the appropriation was expended before ever it was voted at

spent early in the year. With this sum struck out of the estimates and some \$24,000 or \$25,000 made up by an extra mill on the rate the deficit in prospect would be reduced to about \$24,000. This sum, it is hoped, would be still further reduced befor the end of the year by the unexpende surpluses on some of the civic services. At the same time it is recog nized that this is rather an uncertain osition; and that over-expenditure might off-set any saving in other di
