The Bronze | complaint mounted the seat of his wagon Lge furnishes specimens which place and drove off. the art above most others in degree of perfection, even fabrics of wool being ly, as he walked away, "there's no found in the remains of Denmark, Scandinavia and England—the remains of France and Switzerland yielding linen fabrics. The oldest historical reference to the art of weaving, is furnished by the Bible. Job lamented

inhabitants. For the decade 1801-10 the yearly small-pox mortality was Sheriff's Office, Newcastle, 1 toth January, A.D., 1882. 2,040 per million inhabitants. In 1831-Notice of Dissolution of THE GENUINE SINGER SEWING MACHINE for vaccination were provided by the Governmnt, and the annual rate fell to 400 per million. Then came compulsory vaccination in 1853, and in the decade, 1851-60 there were each year but 278 deaths from small-pox in each million inhabitants. In 1861-70 the number was 276. In 1871-80 the rate number was 276. In 1871-80 the rate with the grant of the rate with the grant of the rate was 1871-80 the rate with the grant of the was greatly increased, but the circumstances were so decidedly exceptional that these years can afford no basis for an argument against vaccination.

A Tree Mausoleum.

The following extraordinary story is told from New Zealand with a substantiality that gives it an air of truth. But why people should climb 45 ft. high to bury their dead, when it would be so much easier to dig a hole in the ground to hide them, must remain a mystery. From ceivable that to conceal the criminal ex-termination of a tribe or camp, perhaps by some treachery, this mode of sepulture might have been resorted to, as the instincts of the aborigines are said to enable them to detect infallibly any disturbance of the ground months afterwards, however artfully concealed.

It is stated that an enormous pukete tree, supposed to be many hundred years old, was lately blown down by the force of the wind on a portion of the estate of Mr. Thomas Black, some distance up Otago Gorge, near Opotiki. An examination of the trunk of the tree disclosed the fact that the whole of the hollow interior, extending from the roots to the first fork, about 45 ft., had been filled with dead bodies. When the tree fell the bodies burst out at the butt in the form of a confused heap of skeletons. A more extra. ABOUT 16,000 CHEESE, ordinary sight, says one of the colonial papers, than this monarch of the forest lying prone, and discharging skeletons, 29 TONS FOR SALE. can scarcely be imagined. Some of the skeletons, it is stated, are nearly perfect, while others are mixed up in a mass of while others are mixed up in a mass of heads, hands, feet, arms, and legs, indiscriminately. All the Maoris in the dis-

"Advance" Scientific Miscellany. | trict seem to have been unaware of the existence of this natural-charnel-house Prof. C. Bing has announced the and declare that the bodies must have discovery of sleep-producing qualities in been deposited in the tree long before their or their fathers' time.

Cases of poisoning by carbolic acid are not infrequent. Two drachms is hollow trees before, but in modern times according to Dr. Reichert, the minimum at least no instance of this wholesale en

The Tax Juggle.

nished by the Bible. Job lamented that his days were passing with the fleetness of a weaver's shuttle; and Joseph was attired in "vestures of fine linen."

In a recent address in justification of compulsory vaccination, Dr. W. S. Carpenter, the eminent British physiologist, presented some interesting statistics showing the decrease of small-pox in Great Britain with the adoption of modern protective measures. From 1660 to the commencement of the present century the average annual number of deaths from small-pox was upwards of 4000 for each million of inhabitants. For the decade 1801-10 the yearly small-pox mortality was lightly and the sale and source will against the said Wm. Woodbury Williston by Jahez B. Snowball against the said Wm. Woodbury Williston

Sewing Machines.

Branch Office of The Singer Manufacturin Company, Corner St. John & Duke Sts. Attorney-at-Law, Solicitor, CHATHAM, N. B.

OF NEW YORK.

Over Four Millions in Use OVER HALF A MILLION SOLD IN 1880.

The GENUINE SINGER SEWING MACHINE

The GENUINE SINGER SEWING MACHINE has been awarded the first premium over all others more than two hundred times at Great Wor'd's Faits, at State Fairs and at County Fairs, in every part of the United States.

Three quarters of all the Sewing Machines sold throughout the world in 1850 were "Singers," and there must be a reason for that. When any of our style of machine used in millions of homes, leads all the other kinds to such an extent as that there must be some way of accounting for it all. Other Sewing Machine Manufacturers refuse to state their sales! Why? Companies have sprung up in every part of the Union and Dominion of Canada for making an imitation "Singer Machine." Why are not similar companies formed for making imitation of other Sewing Machines? The public will draw lits own inference. Gold is continually counterfeited; brass and tin never! Beware of superficited; brass and tin never! Beware of superficited; brass and tin never! Seware of superficited; brass and tin never! Beware of superficited; brass and tin every Beware of superficited
