Sporting News.

Clippers, 10; Franklins, 3.

The tail-enders got away with the champions last evening in good style. The game was played on the Victoria grounds, and there was a fair sized crowd present. Both teams played fairly good ball and there were times when matters were very exciting. This was particularly true of the first inning, when the Franklins scored two runs after two men were out, and in the second, when the Clippers worked men across the plate after all considered that the jig was up. Dureen was on the slab for the Franklins and was found for seven safe ones, three was on the slab for the Franklins and was found for seven safe ones, three of which were made in the sixth, one, a three-bagger by Woods. This inning netted the Clippers four runs. Mc-Eachran was between the points for the Clippers and with the exception of the first inning, was a puzzle. In the initial inning he was found for three safe ones, which, with a base on balls one and an error, netted the south end

The number of applicants in the city is so large this year that the examinations will have to be held in the various school rooms, the High School assembly hall being too small to accommodate the number. Dr. H. S. Bridges is in charge of the examinations. The teacher next in rank to the principal in each school will receive the papers from Dr. Bridges and superintend the distribution. They will receive the papers when written and pass them on Dr. Bridges.

Monday to give private M. P.'s a chance to square up business, doing this in response to protests from both sides of the house. Ralph Smith, labor member from Vancouver, headed the list with suggesting that the government might ask the house to sit on Saturday and let Mondays alone, Monday being now the only day in the week in which private business can be transacted. Smith made the point that members had duties to discharge for the common people, just as the government had for the country as a whole. In presenting his motion Laurier briefly outlined the legislation the government will introduce this session. As to the measure to substitute the dominion prepared list of voters in Manitoba for the provincial lists, the premier promised further information next week, when the minister of justice, who had charge of the brief and was now absent, returned to the capital. Hon. Mr. Sifton, who is bossing the measure, was also conveniently absent.
