THE WEATHER
Maritime forecast—Light rain or snow may be expected during the next twenty-four hours, with no very high wind.

LOCAL NEWS.

The treasury board meets at City Hall at 8 o'clock this evening.

A string of beads found on German street may be obtained by the owner on applying to the Star office.

The steamer Champlain makes her last trip on the river today. The Elaine will probably lay off tomorrow.

The fall of snow up till noon today amounted to about two inches. Light rain or snow for tomorrow may be expected.

The Galveston will not arrive here until late tomorrow. The delay was caused by the dredge not leaving Halifax until 3 o'clock yesterday afternoon.

A meeting of the Carleton W. C. T. U. will be held at Mrs. J. Rowland's home, Charlotte street, on Wednesday, 28th inst., at eight o'clock p. m.

A large number of Armenians arrived in the city today from the west. They are to sail on the Empress of Ireland on Friday for the old country.

Policemen Temple and Birchill report having been called into Stephen R. Goldworthy's house on Rockland road, last night to quell a disturbance which he was creating.

Richard Sullivan has been reported by Sgt. Ross for removing sand and gravel from the Sand Point beach without permission from the Common Council.

It has been decided that the case of Frank Hanley, who escaped from a quarantined house here a few weeks ago, will be dealt with by the Provincial Board of Health. The board will meet in the early part of December.

The anniversary exercises of the Women's Missionary Society of Carmarthen street church will be held this evening at eight o'clock. The meeting will be addressed by Miss Crombie, returned missionary. Reports of the society will be read and there will be other interesting features.

THIS EVENING.

Entertainment in St. James' church Sunday evening.
101st anniversary of Carleton Royal Arch Chapter of Masons.
Concert St. James' church school room, Broad street.

HE WANTED A DRINK
New Yorker Who Evidently Had Not Heard
Tennyson Smith Failed to
Quench His Thirst.

A young man who has only been in the city a couple of days from New York gave some of the natives a shock last night which was followed by a long laugh. The stranger's actions caused considerable comment.

It was about 11:15 o'clock when the New Yorker was seen coming along Charlotte street near the management was well dressed, muffled up and wore an anxious look. In his right hand he carried a large water pitcher. There were quite a few citizens on the street, including policemen, and as the man with the pitcher headed towards the King square fountain it was decided by some that there was trouble once more in the water main and that he was in search of water. But they were surprised to see the man turn away from the fountain and make his way into a prominent hotel. The hotel office was full of guests, and all arguments, business and social talk was suspended.

"It's Rebecca," said one fellow.
"No," said a New York drummer, "the youth thinks he is on the Bowers, so lively is this street," but despite the snickers and remarks the young man walked up to the hotel and placed the big pitcher on the counter enquired if the hotel had anything on the premises like a bar. He was told it had, but like all bars closed at ten o'clock, and if he had been in before closing hours the management would not have sold him a drink.

The New Yorker was surprised and said it was the first place he had visited that he could not rush the growler and get a supply of froth for the night.

TESTING OF WATER MAINS TO BE RESUMED
Residents on the Higher Levels are Advised to Prepare for Trouble.

The water department advise that testing on No. 3 main will be resumed tomorrow morning. It is suggested that all persons living on the higher levels should lay in a supply of water in order that no inconvenience may result if breaks in the pipes occur.

Engineer Hunter states that the repair work on the new line from Lake Lattimer has been completed and that everything is now ready for further testing. The pressure on No. 3 main, it will be remembered, was turned on about a month ago and eleven breaks in all occurred, most of them being in the vicinity of Silver Falls. Something over one hundred pounds pressure had been put on.

At present the city distribution system is checked down to eight pounds by the regulating valves at the Marsh Bridge, but between that point and the Little River reservoir the full pressure of 140 pounds will be put on during the coming tests.

LEADING CITIZEN UPHOLDS DR. CHRISTIE

Says Best Interests Demand Better Men.

Strikingly forcible letter from a man who knows what St. John needs, because he has to know.

The Star is in receipt of a letter from a man whose word is weighty in matters of civic advancement; a captain of industry, a brainy, active, unselfish citizen.

The worst mismanagement of local affairs is fast approaching the last straw stage in the estimation of the business community.

It is high time that some deliberate and organized effort be made to oust the present unbusinesslike aldermen who are doing more to hamper the city and reduce its facilities than so-called "hard times" or a smallpox epidemic.

Here we are in a city teeming with vigorous manhood, a city situated most advantageously for great possibilities and one which, through all its maladministration, is gradually succeeding.

It seems truly a crime that its intelligent citizens will stand back and grumble, and yet not lift a voice or hand towards placing its affairs in the grasp of men of soundness and ideas; men of common every day business ability.

Last night's squabble emphasizes the situation. Dr. Christie is proving a worthy successor to his late and lamented old uncle, whose sense, sound judgment and bull-dog tenacity hundreds of times saved our city from the bungles of the inexperienced group.

May he keep his promise true that he "is not done yet." May he keep probing and exposing the inefficiency of our various departmental heads until the question reaches a stage when it will be forced home to every voter to mark his ballot indubitably for a clean sweep of all the cobwebs.

Ald. Bullock, too, will be supported in some of his ideas if he carries them out to the letter. Half measures are no measures; what St. John needs is a thorough purging.

Let the associates of the Council Board be lost sight of; put an end to ring rule and cliques, and heaven grant that deaf ears may be turned to the petty tale of this official against that official. Then aldermen who stand out clear of the maelstrom of the petty grope who more than vote yes or nay, will be supported to the last trench by the army of taxpayers.

Let the energetic aldermen address themselves to the following questions: The street railway go-as-you-please. The telephone upheaval for our best streets.

The impending water works litigation. The "Ladlow" gold brick. The dredging delay. The West Side wharves. The Pedersen fire mistake. The increase of crime in children. The bedlam in the police building. The street paving question.

These are only a few of the principal matters, each one has numerous offshoots, and there are still questions of real importance, which I, as well as most citizens, are fully cognizant of. People generally are prone to complain against established things, but I venture to assure every man of thought in town can point out at least one item of bungle, neglect or ignorance in his particular locality, of which our brilliant legislators take absolutely no heed.

We have heard the word "graft" whispered time and again of late in a very important department of our civic affairs. Some things almost suggest this condition. But that's for our few intelligent aldermen to locate and expose. Business men are certainly growing exasperated. The time is slowly approaching when a landslide will take place in City Hall, not in Carleton, and its muck and wreckage will be found the political corpse of those aldermen, directors, chiefs, etc., who now block the very highway of our beloved city's advancement.

Thanking you for this space, Mr. Editor, I am yours truly,
ANOTHER CITIZEN.

POLICE COURT.

There were no less than nine arrests by the police last night, and all but one drunk, who got out on a deposit of ten dollars, were on the bench this morning. Seven of the arrests were drunks, one of the number a woman.

Patrick Kelley and Edward Holt were a pair who proved the most important on the list. They were arrested about 1:30 o'clock this morning on Union street, Carleton, by Policemen Gosline and Leo for not giving a satisfactory account of themselves. In answer to Magistrate Ritchie the pair had a hard time thinking up a story which might clear them.

Kelley said he was in Carleton trying to obtain work on a winter port steamer, Carleton. After midnight Dowd went to the police and informed them that there were three bums invading the cabin of the wreck and asked that they be ejected. Kelley and Holt were ejected, the third man having escaped.

The two said they had no place to go and were locked up.

The two prisoners were remanded to jail for the present.

ANOTHER POSITION.

Harold Rising of this city has been selected by the employment bureau of the Currier Business University, Ltd., to fill a responsible position on the office staff of McAvity & Sons brass foundry. This school is well represented in the three main offices of this immense concern.

BUYS BIG TIMBER LIMITS IN NEWFOUNDLAND

Albert Reid, a Wealthy Englishman, Will Erect Pulp and Paper Mills There.

Albert Reid of London, England, a wealthy lumber contractor and operator, was in the city this morning. Mr. Reid has been in Newfoundland, where he has invested in extensive timber limits in the Exploits river district. It is his intention to establish there large pulp and paper mills, which will rival those planned by the Harmsworths.

Mr. Reid's plans, if carried to present intentions, will be of much importance to the ancient colony. With him in the undertaking is associated Sir Arthur Pearson of Pearson's Magazine. Mr. Reid, who has seen the eastern corner of Canada from Halifax to Montreal, is most favorably impressed with the country. He is broad minded and energetic, a fluent and interesting conversationalist, and seems determined to carry his projects to a successful conclusion. In his opinion Canada is only beginning to realize her position as a possible factor of importance in the world's commerce. We are waking up, he thinks, and will in a few years come to our own as a world power.

A pocket book found on Union street yesterday was left at Central police station by Policeman McColem.

The funeral of the late Mrs. Lyle Bell took place this afternoon from her late residence, Westmorland road. Rev. S. Howard officiated, and interment was in the Church of England burying ground.

Teeth Extracted Without Pain, 15c.
We make the best \$5.00 set of teeth in this city.
We make the best \$5.00 gold crown in this city.
