

IS YOUR STOMACH ON A STRIKE.

There is Nothing to Prevent You Employing a Substitute to do its work.

There is such a thing as forbearance ceasing to be a virtue even in the case of one's stomach. There is no question but that some stomachs will stand a great deal more wear and tear and abuse than others, but they all have their limit and when that limit is reached, the stomach must be reckoned with as sure as fate. The best way and really the only effective way to treat your stomach when it rebels is to employ a substitute to do its work. This will give the weakened and worn-out organ an opportunity to rest and regain its strength and health.

Stuart's Dyspepsia Tablets relieve the stomach of its work by taking up the work and doing it just as one set or shift of workmen relieves another. They actually digest the food in just the same manner and just the same time as the digestive fluids of a sound stomach do. In fact, when dissolved in the stomach, they are digestive fluids for they contain exactly the same constituents and elements as the gastric juice and other digestive fluids of the stomach. No matter what the condition of the stomach is, their work is just the same. They work in their own natural way without regard to surrounding conditions.

The stomach being thus relieved by Stuart's Dyspepsia Tablets, is restored and renewed by Nature and the rest of the human body does not suffer in the least by reason of its failure to perform its work.

A Wisconsin man says: "I suffered the pangs of dyspepsia for ten years. I tried every known remedy with indifferent results until I was told of the remarkable cures of Stuart's Dyspepsia Tablets. I bought a box, began taking them, and forgot I had a stomach. Three boxes cured me completely. I have had no trouble whatever, and have an appetite like a harvest hand, and can eat anything that is set before me without fear of bad results."

Stuart's Dyspepsia Tablets are for sale by all druggists at 50c. a box. The druggist never fails to have them in stock because the demand for them is so great and so pronounced that he cannot afford to be without them. People who could not get them of one druggist would go to another and would get in the habit of buying their other drugs there as well as then Stuart's Dyspepsia Tablets.

While returning to Eastport from a visit to their home at Deer Island Monday Mr. and Mrs. Eugene Johnson were drowned, their boat capsizing.

THE VALUE OF CHARCOAL.

The People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better, it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of atarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and most for the money is in Stuart's Absorbent Lozenges; they are composed of the finest powdered Willow charcoal and other harmless antiseptic in tablet form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from its continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal says: "I advise Stuart's Absorbent Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in one sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Absorbent Lozenges than in any of the ordinary charcoal tablets."

News Summary.

Sackville on Monday decided to take over the works, rights and franchises of the Sackville Water and Sewerage Co. The vote stood 115 for to 11 against.

Of interest to ladies—F. W. Daniel & Co's announcement on page 13. It might not be out of place to say here that the above firm do a very large mail order business.

Harvey Mitchell, of Sussex, brought down the largest moose ever shot in Canada. The head measures sixty-two inches in spread of antlers, with twenty-eight distinct points, fourteen on each side.

The Furness Line steamer Gulf of Venice sailed Sunday from Halifax, and took 24,000 barrels of apples. The shipment included a lot of ten barrels and fourteen cases for the exhibition at the Crystal Palace, London.

Fire started on Wednesday in the snow sheds along the Intercolonial Railway at Harlaka, Que., several hundred feet of sheds being destroyed, telegraph poles destroyed and wires broken, causing much inconvenience to the railway.

An heir was born on Wednesday to the Marquis of Donegal, who is eighty years of age, and who married Miss Twining, of Fredericton, N. B., who is 22 years old, at the beginning of the year. The Marquis had twice previously been married without having issue.

The miners' federation of Great Britain at a meeting in Glasgow, after a heated discussion passed a resolution by 89 to 5 votes protesting against "any alternation of the free trade policy which has existed for the past sixty years." It was announced that the majority represented 347,000 miners.

The immigration figures for the past three months show total arrivals in Canada to be 26,987, as against 23,381 for the same period last year. Of this number 12,478 were British, 7,128 continental and 7,381 from the United States. For the nine months the arrivals were 108,014 as against 68,832 last year.

Dr. George R. Parkin has been conferring with the educational authorities of New Zealand and has decided that candidates of the Rhodes' scholarships must not be under nineteen or over twenty-two years, must be graduates of the university of New Zealand and domiciled in the country ten years preceding the selection.

Three illicit copper stills of large proportions, in full operation, were seized on Thursday in St. Saviour, Quebec, by officers of the excise department, together with a large amount of other valuable material, including 2400 gallons of worts for making whiskey, three barrels of whiskey, four of wine, 2,100 pounds of sugar, 800 pounds of raisins and currants, etc.

The Rev. Samuel Tucker, of Gumpoint, Ohio, has filed a marriage certificate in which it is stated that the bridegroom is 101 years and one month old and the bride ninety-nine years old. For the bridegroom, Jerre Bosarth, of Kenner's Brook, W. Va., it was the sixth matrimonial venture, and the fourth for the bride, Mrs. Julia Ann Jenkins. The ceremony was performed Friday in Parkersburg, W. Va.

Charles Devlin, M. P., for Galway, had an interview with Sir Wilfrid Laurier, Sir Richard Cartwright and Hon. Mr. Fitzpatrick, and asked that when the fast line is established Galway should be made the terminal point in Britain. It would only take three and a half days between Halifax and Galway, and four and three-quarter days from Montreal to Galway. The premier said that the matter would be kept in view.

J. S. HARDING, - St. John, N. B.

While crossing Norwood bridge at Winnipeg on Wednesday evening, Mrs. Card remonstrated with some lads who were smoking cigarettes beneath the bridge. One of the boys, when the lady's back was turned, picked up a small rifle and pulled the trigger. The bullet entered Mrs. Card's thigh and she is now in a somewhat serious condition. The bullet has not yet been located. The boy has not yet been arrested.
