SIDE LIGHTS ON A ORIME. Peculiar Social Conditions in Which Two Common Criminals Lived.

very sorry to hear that Mrs. Beck is in a very weak condition, and showing no signs of improvement. Mr. H. C. Tilley of St. John came to Fredericton to attend the meeticg of the local society of the Brotherhood of St. Andrew, on Friday. Mri. Alfred Rowley of Marysville returned home from Massachusetts on Saturday last, where she has been for the past two months. Mr. A. R. Slipp and Mr. High Doherty have some to Campbellion. 'Almost as interesting as the main facts of the crime,' said a New Yorker,' are some of the curious social relations and habits which the murder of William Gulldensuppe developed. The story Mit. A. M. Burden and his family have rented Mr.J. W. Spurden and his family have rented the rustic camp of Mr. A. R. Tibbits Bsechkapil on the river bank in Kingsclear, and will spend the threw into view some surprising situation which are so foreign to a person's ordinary experience in life that they seem scarcely credible. One of these features was the ar. Sted Smith is a guest of arr. Spiriter at the present time. Mrs. Smith and the children have gone to Moncton for a two months visit to her association of Martin Thorn with the men in the east side saloon in which he was in Mr. Havry White has returned home after an the habit of playing pinochie. The men knew him well, knew that he was a barber. extended trip through all the leading cities of the United States. Mr. Chas. V. Wetmore has gone to live in St. were intimate enough with him to chaff the man over his appearance and manner, but Mr. Chas. V. Weimore ass gone to inve in St. John to take up the life insurance business. Mrs. Greville, Miss Jennie Broderick and Miss Beile Broderick former residents of Fredericton but now of Butte Montana are visiting friends in had no idea where he lived or where he worked, nor did a single one of

but now of Butte Montana are visiting friends in this provices. Mr. and Mrs. Z. R. Everett, Miss Everett and Mr. and Mrs. Z. R. Everet, Miss Everet and Miss Helen have gone to St. Andrews for a month. Miss Burtt left on Wednesday to visit friends at so long without any one of those men having asked Thorn's name or learned it in Miss Burtt left on Wednesday to visit friends at Grand Lake. The marriage of Miss Louise Burchill to Mr. Rupert Rourks of St. Martins ; was solemnized at the cathedral at 7.16 this evening. The chancel was prettily decorated with white blossoms and palms. The bride entered the church ou the arm of her father, Mr. Alexander Burchill, and was met at the altar by the groom who was supported by his cousin Mr. Ernest Rourks. The bride looked very pretty in a neat travelling suit of green, with brown chip hat. She carried an immense bouques of white e neas. Miss Jul s Wisely, the bridesmaid wore a light blue costume, with white plcture hat, and carried pint roses. The cremony was performed by the Very Revrened Dean Partridge. The wed-ding guests were confined to the relatives of the some other manner. The men had been meeting at least several nights a week for a year or more. But not one of those men knew Thorn's name.

'Another curious feature of the case is the insolation of the woman arrested, Mrs. Nack. She appears to have been almost entirely without woman friends, and the two or three that have figured in the case have not been intimate with her to any particular extent. She seems to have lived entirely, without female society. by the Very Keverend Data Patrice's new work ding guests were conflued to the relatives of the brids and groom. Mr. and Mrs. Roarke drove im-medistely to the depot, followed by showers of rice and numerous good wishes. After returning from their wedding trip Mr. and Mrs. Rourke will settle and while she was not a woman of openly immoral life. she seems have seen nothing of women of her own class or of any class. Evidently Mr. Norman Mac Leod has retuined from a short visit to Lincoln. she has no relatives here, and her complete isolation is to me one of the striking features of her participation in the affair. Another extraordinary habit that the case [PROGRESS is for sale at Amherst h. H. V. Purdy.] revealed was the one of using an under-

taker's shop as a livery stable. July 14 .- The intense heat of the past week has Who would taker's shop as a livery stable. Who would ever have thought of going to an under-taker's to hire a surrey or anything else but a hearse, yet Mrs. Nack did it as it it were more or less usual among people of her class. The woman's story that her lover had

urged her repeatedly to commence an avowedly vicious life seemed to indicate in a way the manner in which women of her class become actual violaters of the law from having been merely more or less ir regular in their lives. Neither the woman regular in their lives. nor the murdered man was dissipated. They lived together and both worked hard. neighbors, they be ame outcasts who, even in the lax society around them, could scar-cely have expected the slightest recognition **HUMPHREYS**' WITCH HAZEL OIL

ed to Truro last week on a sad visit. Their father Mr. Daniel Smith who died on Friday. Mrs. W. H. Tenant has gone to spend a few weeks at Shediac. Mrs. B. C. CAR HORSES HARD TO GET. The Demand so Small That the Trade Neglects Them.

One of the most curious effects of the general replacing of horses by electricity and cable traction for drawing street car lines in this city which still uses horses. One would suppose that, since the only lines in the whole country which continue to use horses now form but a very small percentage of those which used them five ing in Robbinston. Mr. F. E. Amiden of Salem Mass is on a busi-years ago, these lines would have a much wider range of choice, and could get horses of a grade superior to the general run of those which used to be offered to them. Remarkable as it may seem, this is the exact opposite of the truth.

The New York city line referred to runs in direct competition with the cable lines of the upper west side, and its managers, who recently purchased it, determined as soon as they came into possession to place upon it a superior lot of horses, and in this way improve its running until mechanical propulsion could be introduced. Orders were sent out to buy the needed horses. Much to the surprise of the managers, it was discovered that there were almost no street car horses of any kind to be bought.

The explanation of this situation lies in the fact that since the demand for street car horses almost ceased, the trade machinery by which they were gathered has fallen into disuse. A few years ago the street car horses were one of the most important features of the horse market, They were animals of a standard grade They were animals of a standard grade and of almost stable price, and every part of the country contributed its quots. The street car horse had to be big and able, and sound of limb and wind, but might be of any age: Few lasted long enough in the service to make the question of a few years more or less of any consequence. The demand was constant, and the price never varied in New York more than from about \$125 to \$150 each. Dealers could always count upon getting this price and getting it promptly, and as a consequence every horse which would answer the pur-pose was a safe investment at a little small-er price, and a clean profit of \$10 a horse was regarded as a fair margin in handling them.

was regarded as a finite angle is a them. Horses of all sorts, which lacked the qualities of speed, beauty, or youth, dut possessed the other requiremants, were quickly sorted out from the markets of the whole country, and every big dealer was quickly sorted out from the markets of the whole country, and every big dealer was always able to gather droves of car horses as fast as the companies needed them The trolley has superseded the car horses, and car horses are no longer quoted as staples in the market. The companies which still nse them are obliged to go out and search the marks and buy them one by one, instead of simply sending out an ord-er to 100 or 200 or 500, and getting them er for 100 or 200 or 500, and getting them as readily as they would so many loads of hay or grain.-N. Y. Sun.

OUPID IN THE FORECASTLE. A Woman Disguised as a Savior That She Might Wed Her Lover.

Leaving a comfortable situation in a home in an English provincial town, a woman puts on man's clothes and ships as an able seaman with her betrothed hasband for an Australian colony, says the Portland Telegraph; willingly undertaking the hard-ships of a six months voyage in order to pass the remainder of her life in banish-ment with the man she loved, because of inexorable English law. The is the strange pass the remainder of her life in banish-ment with the man she loved, because of inexorable English law. This is the strange story of Nancy Chiford, now Nancy An-derson—it all be well with ber. And the confirmation of this romance of the sea comes in the shape of a personal letter from Honolulu, received in Portland by the last steamer. The letter brings the news in a roundabout way from Mate Cam of the British ship Hawkesdale, which saile ed from Portland Dec. 29 for Queenstown, arriving out May 15. When the Hawkesdale was in Portlaud last fall there was current among the crew a story of a woman who had shipped be-fore the mast on the Hawkesdale on a voyage a few months before from an Eng-lish port for Australia. According to what is known of the movements of the vessel in Portland, it must have been about a year ago that the ship visited an Aus-tralian port. Upon arrival the Captain was rsurprised to receive an application for the discharge of two of his crew. While the discharge of two of his crew. While the discharge was effected all right at that

time, the Captain was not aware that one of the seamen was a woman

Anderson, so the story runs, married Nancy Clifford's sister. They lived rather unhappily at their English home. At last she died and was laid to rest beside a she died and was had to feet bester a little mound in the burying ground of an English coast village, where Sailor Ander-son had buried a little blue-eyed girl a few months before. He did not then fall in love with his sister-in-law. He had been in love with her ever since he had saved her from drowning.

in love with her ever since he had saved her from drowning. On the torward deck fo the ship Hawk-esdale the crew used to talk about the st-tachment of two very ordinary looking sail-ors for one another. To satisfy them, Anderson told them that when his mate was younger he had saved his life. He-told nothing more. He did not, of course, say that it was for her that he was glad be-cause his wife had died of a broken heart, and tollowed the blue-eyed baby girl to a quiet grave in the home they had deserted lorever.

torever. The English law is that a man cannot marry his deceased wile's sister. What ironclad English law forbids cranot be de-tore the maelysis ironclad English law forbids crnnot be de-fied. They could not disguise themselves and seek a new home there. How Ander-son managed to ship an untrained, boyish-looking fellow as a seaman on the Hawkes-dale is that which can be explained only by him. It is sufficiently true to say that it was done, and after the hardships of the long voyage they landed in Australia and secured their discharge from the reluctant Cantain.

long voyage they landed in Thus has a secred their discharge from the reluctant Captain. Sailor Nancy Clifford's conduct on the ship was of such a character that it could not but arouse the curiosity of the crew. Life in the fo'c'stle forces intimacies, but these two sailors, who had shiped under fictitious names, of course, held about them a certain air of reserve which it was very difficult to break through. The sailor langhed at them, and when their was a storm that tried their hearts, they jeered the sanctimonious Nancy, and ask-ed him to pray and the squall would pass. But Sailor Anderson and his mate held their peace and their hearts were brave. They held long conversations by them-selves, which none overheard, and none guessed that they were planning their future lite away from the ocean.

HUNTING IN BECHUANALAND.

The Bold Afrikander Irishman Who Was Guide to the Huutsman,

The tollowing is an extract from a letter dated at Johannesburg, South Africa :

On the day that my last letter left o then nail train, I started out with the American friends on a hunting trip in Bechuanaland. We took the train at 8:25 in the morning for Mafeking and arrived there the next day. Basuto ponies, guns, ammunition, a Scotch cart, guide and nigger were hired there, and the next day we started on our trip, and let me tell you it was a 'cleaner.' I was too weak to ride my horse all day and had to get off and stay in the cart the first two days; then I got a little stronger and struck it out with the rest. Boys, it was a treat sleeping out in the open air 5,000 feet above the ocean eating bread and game twice a day, riding aboat ten miles each day, outside of the chase. I tell you, it put new life into me. and it is there yet. Well the second day we struck the first antelope and spring buck. That meant fresh meat; no more canned goods after that. In all, we shot two leopards, one ant bear, four porcupines, three buffaloes, any number of wild pigs, and springbuck and antelope. We had more than we needed. I found that I could shoot better than I expected. Just let me tell you something about our

gnide! He was an Irish Atrikander, reckless and without fear, and one of the bravest men I have ever seen. His name was k, and when we came there was a pard up three yards on a big gum tree,
