

Some Canadian Political Topics

Montreal Star Again Says Sir Douglas Haze Will Join Union Gov't—French Press on Naval Affairs and Farmers.

Three Big Grits.
(Ottawa Telegram.)
Evidence that the organization committee of the Great Liberal Party is meeting in the Capital today is strangely scarce. A careful search of the Chateau this morning revealed only three Grits of stellar brilliancy. Reading from left to right they line up as follows: A. B. Cope, of Westmorland, N. B., whose eloquence Hon. W. L. Mackenzie King sometimes tries to imitate; W. O. Kennedy, of North Essex, who sprang into the spot light with his delightful imitation of Eliza crossing the ice, and Hon. W. R. Motherwell, of Chatham, whose mountain face tells of the suffering caused by a lost deposit in Asinibolia, and a resigned seat in the Legislature that is now in session at St. John's.

Rumor Revived.
(Montreal Star.)
That Sir Douglas Haze, now Chief Justice of New Brunswick will re-enter public life in the very near future and take a Cabinet position is the dominant expectation in political circles at Ottawa.
Sir Douglas would succeed Hon. J. B. Carvell, in the New Brunswick representation in the Cabinet, but the particular portfolio to which he would be assigned is not yet certain. He is said to prefer a different department from the one he previously headed and which now has as its Minister, Hon. C. C. Balfour. Mr. Carvell was a Unionist-Liberal but Cabinet member of that stripe in New Brunswick is scarce.
It is said to be all arranged, Sir Douglas re-enters the Cabinet, two seats are available, St. John City and York. St. W. Wignam, M. P. for St. John may resign and head the harbor board, or Harry Wood, M. P. for York may be made a county judge.

Toronto Securities Now Sell Better Than N. B. Bonds.
(Fredericton Gleaner.)
City of Toronto serial bonds, averaging 14 years, \$2,633,000, 5 1/2 per cent., were disposed of yesterday by Harris, Forbes and Co., at \$96.30 an interest yielding figure of 5.91 per cent. This is better than the sale of the New Brunswick bonds, which this week brought \$96.11, making the interest rate 6.01 1/2. This province is clearly not maintaining its credit standing of a few years ago, when its securities measured up with the best of the provinces; and provincial securities are invariably more desirable than municipal securities.

Drury Better Than Dewart.
(Toronto Telegram.)
Careful perusal of the latest manifesto, signed Harley B. Dewart, Kt., M.P., should fill Ontario with joy and gratitude to the Premier of this province is occupied by an H. C. Drury Laurierite rather than an H. B. Dewart Laurierite.
An E. C. Drury Premiership will have to be pretty bed before an H. C. Drury ascendancy at St. John will not be recognized as an improvement on an H. B. Dewart ascendancy at its best. The Drury that Ontario does not know is better than the Dewart that Ontario does know.

Ontario's "Awful Example"
(L'Evenement.)
"We have too much confidence in the natural good sense of our French-Canadian farmers to believe that they will allow themselves to be carried away by the bad example of the farmers of Ontario and attempt a class war in this province. It is however, they are expressing the idea that it will be profitable if they will follow the laborious course of the Drury Government at Toronto in order to realize the dangers which menace, from the point of view of agriculture, such a political adventure. At first sight, whoever has not had experience of men, will find the alliance of the United Farmers with organized labor in the formation of the new Government of Ontario quite natural. Here were two groups or classes who considered they had been wronged by the old parties. What could be more simple than that they should make an offensive and defensive pact? What an awakening, however, there will be when the partisans of the one or the other class see that they have been shamefully deceived by their partners."

MRS. LEWIS OF BROOKLYN
Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

Brooklyn, N. Y.,—"For one year I was miserable from a displacement, which caused a general run-down condition with headaches and pains in my side. My sister induced me to try Lydia E. Pinkham's Vegetable Compound. I found it helped me very much and such a splendid tonic that I am recommending it to any woman who has similar troubles."—Mrs. Elsie G. Lewis, 50 Vernon Ave., Brooklyn, N. Y.
Such conditions as Mrs. Lewis suffered from may be caused by a fall or a general weakened run-down condition of the system, and the most successful remedy to restore strength to muscles and tissue and bring about a normal healthy condition—has proved to be this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.
If you have disturbing symptoms you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

Will not the slightest day, the principle of which has been accepted by a majority of Canadian workmen, and which the British Government proposed to recognize by law, he contrary to the interests of the farmer? If Mr. Drury makes this concession to his colleagues the representatives of organized labor, what will the Ontario farmers say when their farm hands demand to benefit by this false principle? Then, when they have obtained the eight-hour day, they will claim a forty-five hours week! This question interests not only the rural, but also the urban population. If these ideas spread in the Province of Quebec the consequences will be serious for those who already find the cost of living excessively dear.

Lord Jellicoe's Visit.
La Presse, commenting on the visit of Lord Jellicoe, says: "The question which comes before our minds today is to know if our country shall under take its own sea defence, or if it shall, for its future security, enter into a defensive union with all the countries forming the British Empire. Generally, it belongs to the countries which have colonial possessions to guard their own property. If Great Britain would do otherwise by leaving us without protection, we must look after our own defence by constructing a navy capable of protecting our own coasts and all that belongs to us. To create a fleet destined to protect not only Britain in certain emergencies, but also all the other colonies whenever they may be menaced, is a matter which demands serious consideration; it is one which is hardly assuring for the country's future peace. The enemies of Britain and her dependencies, having too great a chance to become numerous in the future, it necessarily follows that Canada might have considerable trouble and be liable to great expenditure. To add the mother country with our navy is a thing which Canada could not do in urgent cases, but to stand as a guarantee for the peace of the other colonies and contribute to their defence is a thing which Canada could do with little attraction and should cause statements to reflect well. What good would it be to speak of the autonomy of Canadians if, in associating with the other countries of the Empire for the purposes of general defence, Canada lost her individuality and authority? If we are to change the situation of the Dominion, let us try to at least change it for the better and not for the worse. Of course Canada's independence should be attained without any regrettable friction and with the unanimous consent of all the parties interested. At the same time, it is the duty of all people who pride themselves on having an idea and having at heart the high destiny of their country to be able to say one day, 'We are free and capable of guarding our own destiny.' It will be in vain to present imperialism under new forms and under a cloak of a benevolent and protecting fraternity if we have our eyes well open and ask ourselves the only question which fits the circumstances, 'Where are we going?'"

Gagetown.
Gagetown, Dec. 2.—On Thursday evening, the members of the Women's Institute met at the home of Mrs. Geo. McDermott for the regular monthly meeting. After the business of the evening, which included plans for an entertainment during the week after Christmas, and been disposed of, the rest of the time was spent in various kinds of handwork. An entertaining little word contest was enjoyed, in which Miss Molly Ostry proved the most successful, and delicious ice cream and cake were served by Mrs. McDermott, assisted by Miss Florence Smead and Miss Thomas McGready. The next meeting will have Christmas as its theme.
The Women's Aid of St. John's Church met on Wednesday afternoon at the home of the Misses Dingee. After the afternoon's work, tea was served by the Misses Dingee.
Mrs. R. Harvey Weston left on Saturday for a visit with friends in St. John.
Mrs. Judith P. Balyas has returned from St. John where she has been spending some weeks with her daughter, Mrs. Harry Warwick.
Mr. and Mrs. R. R. Held returned on Wednesday with little Miss Mary Held, who has undergone several weeks' treatment in St. John, and is now steadily though slowly improving.
H. W. S. Allingham left last week.

POSLAM FORCES AILING SKIN TO IMPROVE

To be rid of an unsightly skin trouble is real physical and mental relief. If you suffer from eczema or dermatitis has been intense, you are entitled to the great comfort that Poslam can bring you quickly. It makes the work of healing short and pleasant. A little goes a long way and does a great deal, the skin responds so eagerly. Itchings, irritation stops. Pimples and rashes go, and best of all, Poslam will not, can not, harm.
Sold everywhere. For free sample write to Emergency Laboratories, 243 West 47th St., New York City.
Poslam Soap is the tonic soap for the skin and will freshen and beautify your complexion.

GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parina (double strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.
This will often bring quick relief from the distressing head noises. Closed nostrils should open, breathing become easy and the mucus, stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

NEW YORK REPORTER HAD A PIPE DREAM

Says That While on a Train Preceding That of the Prince He Was Mistaken for His Royal Highness—Prince Was Not on a Train While Here.

The following article appears in the "Fourth Estate":

Note and Comment
The unique distinction of being mistaken for the Prince of Wales before Quinn L. Martin, a reporter for the New York Herald, who was assigned to attend welcome to the Prince at St. John, N. B.
While standing on the rear platform of a train, preceding that of the Prince, Mr. Martin suddenly realized it had stopped. In a few moments a crowd gathered below him and showered him with words of love and admiration, according to the young man's own story in the Herald. Although the reporter protested he was not the Prince, a little girl, he says, leaped to the railing and hung a wreath of roses around his collar.
If it is evident that Mr. Martin has had a pipe dream as the Prince did not happen to be on a train at any time during his stay in St. John. He proceeded to Halifax from St. John on board a warship while the newspaper men with others proceeded on a night express.

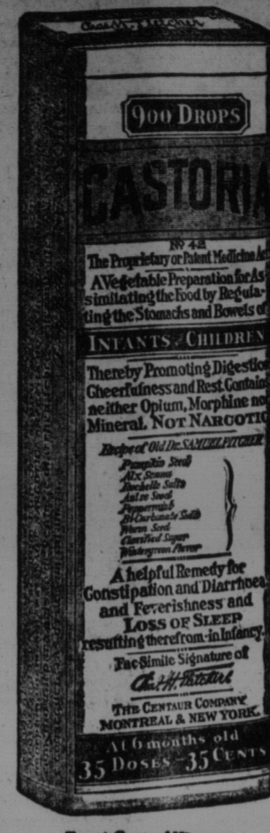

for a fortnight's visit to New York. A. M. C. Lawson of Fredericton, was here for a short visit last week. Mrs. Hugh O'Neill of Fredericton, is the guest of Mr. and Mrs. F. M. O'Neill this week.
Mr. and Mrs. Gabriel DeVos and Miss Grace Gilbert returned on Thursday from spending a few days in St. John.

Smith Dingee has returned from a visit of some months in Boston, Mass., and will spend the winter here. Dugald Burpee of Penticton, B. C., who is East for a while at his old home in Sheffield, was here this week for a short visit with Mr. and Mrs. H. H. Bridges.

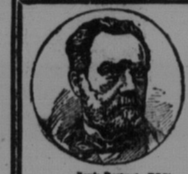

BEWARE OF TENDER, INFLAMED GUMS

Pyorrhea, with a premature loss of teeth, is almost inevitable if you do not properly care for your gums. Here is the explanation:
As you age, the body tissues naturally relax. You see this tissue loosening in the neck. It goes on in your gums, too. As you grow older, your gums shrink below the normal gum line. Through lack of care they become spongy and inflamed. Then you have Pyorrhea (Riggs' Disease). Four out of five people over forty have Pyorrhea. And many under forty, also.
Don't let a tender gum spot develop. These tender spots breed disease germs which enter the system through tiny openings—infected joints or tonsils—or causing other ailments. Immediately get Forhan's, which positively prevents Pyorrhea if used in time and used consistently. Forhan's tones the gums and hardens them. They in turn keep the teeth healthy. Brush your teeth with Forhan's. It cleans them scientifically—keeps them white and clean.
If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment, 35 and 60c tubes. All druggists. FORHAN'S LTD., Montreal.

Sickness Cure or Sickness Prevention

When Pasteur proved the relation of germs to infectious disease, he marked a big advance in that development of medical science which reigns today—the Idea of Sickness Prevention.
As a result, many plagues and epidemics that were the bane of former ages no longer terrify the world, and science has now developed an effective agent against the condition which is the first cause of over 90% of all human disease—constipation.
That effective agent is Nujol.
Nujol by relieving constipation prevents the absorption of poisons which otherwise would be taken into the blood and so under-mine the whole system.
Leading medical authorities agree that pills, salts, castor oil, etc., simply force and weaken the system.
But Nujol is entirely different.
Nujol prevents constipation by softening the food waste and encouraging the intestinal muscles to act naturally.
Nujol helps nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.
For valuable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, N.Y.
Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark as shown here. Beware of products represented to be "the same as Nujol". For more facts from us at once.
