Through a long series of years, and among most of the races of men it has risen higher and higher in their estima-tion, as it has become better known. Its uniform character and power to cure the various affections of the fungs and throat, have made it known as a re-liable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous affections of the throat and lungs. As a pro-vision against sudden attacks of *Crowp*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled *Consumption* is thought in-curable, still great numbers of cases where the dis-ease seemed settled, have been completely cured, and the patient restored to sound health by the *Obserry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them, yield to it. When noth-ing else could reach them, under the *Cherry Pec-toral* they subside and disappear. *Mathematical purcelly subside and often wholly* eured by it. *Bronchitis* is generally cured by taking the *Cherry Pectoral* in small and frequent doses. No family should be without the *Cherry Pecto-rel* on hand to protect them, in case of attack, from the above complaints. Its timely use often spares the patient a great amount of suffering and risk, which he would incur by waiting until he could get other aid.
