

## Honor Courses.

The following Courses, which are arranged for the advantage of students who may be able to do more than the assignments of their classes, will be open to the election of any undergraduate, provided he has first-class standing in the prescribed Course. The value of the work performed in these studies will be determined by examinations, and Honor Certificates, of the first or second class, will be given, according to the results of these examinations. Students will not be allowed to continue Honor studies, unless first-class standing is maintained in the prescribed Course. Any undergraduate, even though not having first-class standing, may, by vote of the Faculty, be permitted to give special attention to a particular study. Such student, and also one whose standing may have required his discontinuance of Honor studies, shall be entitled to a certificate of the work done, from the Professor of the department. See also "General Students."
