

## Facelift for an old friend

# Its not getting older, its getting better

The refurbishment of Pembina Hall is proceeding on schedule, and Blair Roma, Project Officer with the Campus Development Office feels confident the deadline of July 15 can be reached.

Costing upwards of about \$900,000, the "new" Pembina look will boast rich carpeting, electrical servicing, intercoms, telephones, new furniture, and kitchenettes, to house women next September. "We're trying to save the main spirit of the building contained in the

architecture," says Roma, adding that the internal structure of the building is excellent, being one of the first cement slab buildings made.

As well, Pembina's main foyer will be kept as it is with its oak panelling and chandelier lighting fixtures.

"We had to get real concessions from the government to do it, but it was worth saving," Roma said.

Pembina was closed as a residence when fire and electrical protection fell below the

provincial safety standards. The building was closed, amidst outcries from the residents, and others who wished to see Pembina and the other old residences (Athabasca and Assiniboia) survive as campus historical sites.

Since Pembina's internal structure lent itself well to refurbishment, it can be used again as a residence, and the other two, which are now only partially used for office space will have to wait for a final decision.

A new look for Pembina.

## Circle K, for the less than mediocre

For the better part of the 1974-75 academic year, a new co-ed service club, Circle K, has been enjoying considerable success at the U. of A. Circle K is rather unique on this campus, in that it is the only organization totally devoted to helping other

### Judge fines self for speeding

(ENS) - Judge E.W. Thompson of Sulphur, Louisiana stood before his own bench recently as a defendant. Thompson had been arrested for speeding and was assigned to appear in his own courtroom. When his case came up on the docket, the Judge stepped down, pleaded guilty, returned to the bench and fined himself \$17.50.

less fortunate than the "average university student."

Projects have included work with the elderly, mentally retarded, juvenile delinquents, fatherless boys, the poverty stricken and so forth. In short, the club's efforts are aimed at those groups in society who could use a little concern and help thrown their way.

There is also a social side to Circle K. Potentially, it can be a means to beat the impersonal atmosphere of a large university and actually get to know some of those blank faces about you.

The club is growing steadily. There are no dues and no commitments of time are required. You do what you can, when you can, because there's lots to be done.

Give a damn enough to stop

whistling platitudes and begin something constructive and very, very satisfying? Members of the club will be available on Friday, March 15th from 8 a.m. to 4 p.m. in a booth in the main floor lobby of SUB. They can give you a good picture of what's going on in the club. Then, you may want to get involved in some of the excellent projects that are being arranged in the latter part of March (don't worry, they won't conflict with exams.)

Hopefully you'll feel good enough about the club to get involved once again when the next term opens in September. For more information on or if you can't drop by on Friday call 432-2205 (Ken) or 435-1939 (Sibeal).

## Syncrude CANADA LTD.

### Summer Employment Opportunities

Syncrude Canada Ltd. has summer positions available in both Edmonton and Fort McMurray. Starting dates for these positions will be from April 15 to May 1, 1975.
