

*C. As to Additional Courses to be Instituted.*—Courses for the Ordinary and Specialist certificates in Household Science have already been instituted. It is not improbable that these courses will be paralleled later by courses for the Ordinary and Specialist certificates in Manual Training.

Temporary and very inadequate provision for the Household Science course have been made this year. Two small, badly-lighted, ill-ventilated rooms have been set apart for a service for which at least five approved rooms are needed—and one additional instructor. When, or if, courses for teachers of Manual Training are instituted, one additional instructor and five or six approved rooms with equipment (forge and stock room, machine shop, drafting room, woodwork room, locker room, etc.) will be needed.

*D. As to General Conditions.*—(1) The University Schools are the experimental, demonstration, and practice schools of the Ontario College of Education. They must be adequate for this function. They cannot be adequate without Kindergarten, Grade I, and Grade II classes. This will require at once three additional classes and three additional teachers and ultimately five of each. And the Schools must also be model schools. They cannot be model or modern schools, they cannot even comply with the minimum requirements of the Province until they are equipped with a gymnasium and an assembly hall.

(2) The attendance in the course for High School Assistants this Session is 69. When the Universities have begun to function regularly in the post-war period, this number will probably increase to the pre-war total of 125. Having regard to optional courses, 125 students will mean four classes and four classes will need four lecture-rooms. At present the Ontario College of Education has one approved lecture-room.

(3) All countries are suffering from a scarcity of teachers. Students do not throng the training schools. In the effort, a desperate effort in some countries, to provide an adequate supply of trained teachers, it is very probable that Departments of Education will take vigorous measures to reduce the cost of training. This would probably mean the cancellation of fees for tuition, provision for a supply of text-books and other material, and the establishment of residences or dormitories.
