

A PAID-UP MINING

In the capital stock of a GOLD MINE yielding large and satisfactory dividends is generally considered an advantageous and lucrative investment, but experience has demonstrated the fact, that there is a limit to the resources of the best paying mines—i.e., after all the available gold has been mined.

Such is not the case, however, in respect to an Investment Policy of Life Insurance in a thoroughly reliable and responsible company, as experience has shown that the longer an investment policy has been kept in force in such a company the more valuable it becomes.

THE COMPOUND INVESTMENT POLICY OF THE NORTH AMERICAN LIFE ASSURANCE COMPANY, TORONTO,

contains the maximum of legitimate advantages, and in addition, is a safe and remunerative investment.
