OUR FARMERS' CLUB

Correspondence Invited

PRINCE EDWARD ISLAND

PRINCE OF P. E. I.

RICHMOND, Jan. 7.—Now that the night is so long, our Farmers' Institutes are meeting regularly, discussing farm topics. An interchange of ideas is always beneficial to all. This year we are having a short course at Charlottetown from January 27th to February 7th; the first we have had. A large number are expected to attend. The markets are quiet, as the roads are bad for hauling. Hay has dropped and is now quoted at 180 for best timothy; oats, 12c to 42c for white and black respectively. —J. D. McE.

QUÉBEC

MISSISSAUGA CO., QUE.

TRÉLISSEVILLE, Jan. 3.—The weather has given us all kinds of weather since the New Year, and sometimes all within 24 hours, but today we are enjoying real winter. The mercury was enow below zero, with barely enough snow on the roads for sleighing. Farmers are busy cutting wood and hauling it home. Milk is not averaging very high, considering the cost of grain. Creameries paid 23.00 and 23.00 cwt., while at 23.00 and 23.00 cwt. Corn, 83c. Hogs are not offered so freely as they were a few weeks ago. —C. A. W.

RICHMOND CO., QUE.

DANVILLE, Jan. 13.—We had quite a fall of snow yesterday, but still for this time of the year the snowfall is light. There is considerable teaming of all kinds of wood logs, pulp wood, bark, cord wood and stave wood. They are all bringing high prices. Pork, 110.00 per ewt.; beef, 10 to 11 c. lb. dressed; eggs, 40c; butter, 35c; turkeys, 25c a lb.—D. B. B.

ONTARIO

LEEDS CO., ONT.

LANANOCHE, Jan. 10.—We are having an easy winter so far on the farm, consequently prices are not as high as they might be. Hay sells at \$12 loose. The presses have not started yet. Oats sell for 37c to 40c; butter, 35c; eggs, 35c. Cattle and hogs are at very high; suckling colts go as high as 600.—C. H. G.

GLENGARY CO., ONT.

ED. EIMO, Jan. 9.—Good sleighing is now more enjoyed. For the past two months it has been a few days' sleighing and then a few days' wheeling. A large quantity of hay is being shipped from Masville Station, averaging about \$19 a ton. Also large shipments of poultry, both dressed and live. Turkeys are 20c and corresponding prices for other poultry. The milk shippers have this fall ordered three cars (50 tons) cotton seed meal at \$35.50 and \$34.50 a ton.—W. E. McK.

WELLINGTON CO., ONT.

PERGUS, Jan. 11.—May the editor and readers of Farm and Dairy have a prosperous and happy New Year. Owing to the very wet weather and late harvest the threshing in some places was very late in getting finished, every one wanting to get it done at once. However, both roads and weather have been all right, and most all are now threshed out. Sleighing is in very best at present for any size of sleigh, and turkeys, hogs, cattle and pigs are being marketed. Prices are: 07.5c, 50c; pork, 50c; barley, 50c; buckwheat, 50c; turkeys, 16c; butter, 35c; eggs, 35c; 77.75c; potatoes, \$1.25 a bag; hay, \$15 a ton.—W. B.

OXFORD CO., ONT.

NORWICH, Jan. 10.—We are having this week the best sleighing of the season. Farmers are looking forward to the building of a great Boston condenser at Norwich this spring. This will be hard on our cheese factories in the district. Wood is plenty of water struck. Wheat, 85c; oats, 40c; buckwheat, 50c; bran, 82c; shorts, quality, 82c; 82.50; cotton seed, best, 30c to 30c.—J. McK.

WATERLOO CO., ONT.

HEMIRA, Jan. 11.—The year 1913 has been a great many ways; its winter was severe, but not late and cold and wet, the summer was cool and somewhat with late harvest; its fall was disappointing. Yet with all these disadvantages we have had a hard for quite a number of years. There is plump and yield heavy, with no shortage of the wet weather visible. Roots are abundant, and very cheap. Hogs are (60c). With lots of fodder and roots and

prices of cattle good and hogs fair we are looking ahead for a good year. Dairy product is in great demand; butter at 30c and cream and milk shipping to the larger centres makes dairy products more scarce and prices better in the smaller towns and villages. Horses are looked for again, and good prices are paid, while milk cows are from \$50 up. One alarming feature in the winter, which makes it hard to raise cattle, Turkeys are 10c a bus; potatoes, \$1.25 a bus. Our annual Farmers' Club plowing match is over and had 25 teams in the field, and was witnessed by about 200 people. One peculiar feature was that a boy plowing in the green class for the first time also took 2nd place over the provincial class plowers. He was certainly a good one. The match was on your scriber's farm, and was a success. Prizes ranging in value from \$15 to \$3 were given, in all about \$125. Our annual Farmers' Club contest supper at West Montrose was held on the last Friday in the old year, and was patronized by 200 people, including children. Supper was served from 5 to 7 p. m., one hour's receipts after, concert starting at 8 o'clock. The season as the festival, season is over and Santa Claus has again been to his hidden haunts and the municipal election just 60 and big Fred in a new count. The business and are making use of the good sleighing we have having frozen, etc.—A. B. S.

ESSEX CO., ONT.

HARROW, Jan. 13.—The wheeling is good. There has been very little sleighing, a comparatively open winter so far. A canning factory is to be started next summer, including a fruiting section for such crops as tomatoes and vegetables for canning. The farmers are busy getting their tobacco ready for market. Already the tobacco has handled over a million pounds. Hogs are in good demand. Corn and small grains are low.—W. A. B.

BRUCE CO., ONT.

HEPWORTH, Jan. 7.—The winter so far has been remarkably fine; no very cold weather, but enough snow for good sleighing. Milk cows are scarce and high in price. A few farmers are shipping cream to Toronto and are well satisfied with results. They are receiving 51c to 52c a pound for butter fat. There are not many cattle being fattened this winter. Turkeys are scarce and high in price. There are quite a number of cows being fed. Hay is \$12; potatoes, \$1 a bag; oats, 50c.—K. L.

NIPISSING CO., ONT.

COOBERAN, Jan. 8.—December 31st saw the first tramping of wheat from the West, through Cochrane, on its way south. The first train had a regular service and it is hoped to have a regular service in operation before the end of 1913. As the Trans-Continental lumbering operations are in full swing, several saw mills having been put in. One lumber company is putting into stock 1,000,000 (one million) feet of rough lumber for the spring pulp wood to be erected in the same planing mill. Also being cut to some extent. Prices are offered: \$175 per cord, f.o.b. cars. Price for 100 lbs. of oats, \$1.50; beans, \$1.40; fresh eggs, 35c; butter, creamery, 35c; potatoes, \$1.50 a bag. Depth of snow, two feet on the level.—R. S.

DATES FOR ANNUAL MEETINGS

Annual meeting of the Dominion Cattle Breeders' Association will be held at the Walker House, Toronto, Monday, February 3rd, at 3 p. m.
 Annual meeting of the Ontario Berkshire Breeders' Society will be held at the Walker House, Toronto, Tuesday, February 4th, at 9 a. m.

 Annual meeting of the Ontario Horse Breeders' Association will be held at the Walker House, Toronto, on Thursday, February 6th, at 10 a. m.
 Annual meeting of the Ontario Sheep Breeders' Association will be held at the Walker House, Toronto, on Thursday, February 6th, at 8 p. m.
 Annual meeting of the Dominion Sheep Breeders' Association will be held in the Temple Building, Toronto (cor. Bay and Richmond streets), Room 2, 4th Floor, on Friday, February 7th, at 9 a. m.

Reap The Benefits of Available Plant Food

In a favorable season crops will make enormous gains if they are given the available plant food necessary to support them. No soil contains enough available plant food for a bumper crop, or enough to prevent an unprofitable crop in a bad season. A good fertilizer increases the yield and the profit, but the plant food should be in forms available to the growing needs of the crop.

The A. A. C. Co.'s Fertilizers are manufactured from the best materials, and special factory treatment makes them highly available.

Wherever you live, we can reach you with the right fertilizer, the right service and the right price. Write today for a copy of "Plant Food," a practical hand book on fertility. No advertising in it; sent without cost, while this edition lasts.

Agents wanted in unoccupied territory. Liberal terms and goods that sell. It pays to sell our fertilizers as well as use them. Ask for agency proposition.
