Make this Windmill Pump for You

Our Airmotor solves the farm pumping problem. It costs nothing for power, and only needs oiling once a month. Use it to pump water into one of our high tanks or steel pressure tanks. From the tank, run a set of water pipes to your house, carriage shed, stable and garden. In your stable, fit each stall with our Toronto Water Basin, so every cow, steer or horse will have lots of water. This means more milk, quicker fattening, or better condition of your team, and no work or loss of time for watering. Have handy hose attachments to wash carriages, stable floors, hog pens, etc., at the barn, also pipes to water lawn and garden. You produce more truck, yet save labor.

Our wood tanks are made of No. 1 white pine, 2 in. thick. The staves are bevel sawed so as to make a tight joint. We can supply tanks with either drive or lug hoops. Both kinds are guaranteed water tight if set up as we direct. We also manufacture a full line of STEEL Tanks, of all sizes and styles. Glad to quote prices.

Write us for our Airmotor Catalogue—We sell everything you need. Get Airmotor, pumps, pipe fittings, water basins and stalls. You save wages, and do more and better work with these city conveniences at hand.

More Profit

THROUGH better, more intelligent, more economical use of good tools will come the profit that is so hard to find each year on many crops. Plant right so you will get full benefit. Work faster with better tools so you can cultivate and spray often. Study whether there isn't some tool that will do your work better.

IRON AGE

Potato machinery, spraying machinery, garden tools, etc., are built to give you just what you need to do things right. Almost any combination you can think of in each line. Eighty years of factory and farm experience behind their manufacture.

Ask your dealer to show them, but write us for separate booklets fully describing lines in which you are interested. Let us make good our claims.
