

Loading carriers with asphalt at Trinidad Lake

Genasco

the Trinidad-Lake-Asphalt Roofing

Consider Genasco from the three vital standpoints:

1. What it does
2. What it costs
3. What it saves

1. Genasco waterproofs your roof to last. Trinidad Lake Asphalt, used in making Genasco, is Nature's everlasting waterproofer that has resisted the influences of weather-changes for centuries. It carries into Genasco these same weather-resisting qualities, and makes it defy rain, snow, wind, sun, cold, and heat; and it makes it *permanently* waterproof.

2. Genasco costs about the same in the beginning as the so-called "asphalt composition" or the "special process" roofings which would be wonderfully good imitations of Genasco if they didn't crack, break, and go to pieces. But they can't stand the real test—the weather. They haven't the lasting life which *natural* asphalt gives.

Genasco is economical because it resists and lasts.

3. The saving in Genasco Roofing is plain. You do away with leaky roofs and the expense of repairing them; you prevent costly damage to rooms and furniture, and you save the cost of re-roofing. Genasco first-cost is last-cost.

Get Genasco Roofing—either mineral or smooth surface. Guaranteed, of course.

The Kant-leak Kleet for roofing-seams prevents nail-leaks, does away with dauby cement, and gives a fine finish to the roof.

Ask your dealer for Genasco with Kant-leak Kleets packed in the roll. Write us for samples and the Good Roof Guide Book.

What the "Crown" Gang Plow does

One man instead of two

Make this test: The first day give your hired man a single-furrow plow and two horses. Take another single-furrow plow and two horses yourself. Then, do one day's plowing. Together, you will plow three acres, under favorable conditions.

Next day, use the "Crown" Gang plow and three horses. You'll find that you can still plow three acres.

Three horses instead of four

The second day the same work has been done with one man instead of two, three horses instead of four, one "Crown" Gang instead of two single-furrow plows. What this saving means to you in dollars and cents you can figure out for yourself. But it is enough to pay for the "Crown" Gang in a few weeks.

One "Crown" Gang Plow

instead of two single furrow Plows

The "Crown" Gang stays right down to its work. It turns the furrows more evenly than a single-furrow plow. The easy-working levers are conveniently located. The wheels have dust-proof boxes with roller-bearings. You should learn more about the "Crown" Gang right away, and about our special orchard gang plows, too. So write for CATALOGUE F40

FROST & WOOD CO., LIMITED,
SMITH'S FALLS, CANADA.

Frost & Wood

The Galt Shingle

The purpose of a roof on your barn is to protect it and its contents from rain, snow, storms, lightning and fire, isn't it? **Wood shingles can't do this.** They warp, crack, curl and rot, leak, and blow off. "Galt" Galvanized Steel Shingles on the other hand **give you the protection you want**—protection from rain, snow and storm as well as from fire and lightning. The patented locks fit so perfectly that not even a ray of light can penetrate the joints. Wind can't loosen them because they're locked all round and nailed on two sides as well—they stand rough weather like a stone wall.

Don't spend a cent on roofing—for new or old barns—until you have investigated "Galt" Steel Shingles. Do it now. The whole story is told in our book "Roofing Economy" which we will send you free if you write us today.

"Fire Blight" the germ that kills the Trees

Cures Scale and Fungus Diseases

In the circle on the left, we show "Fire Blight" a germ that is destroying so many Apple Trees. The germs are magnified 100,000 times.

It is impossible to magnify the importance of using "VANCO"—the most effective spray for Fire Blight, San Jose Scale and all scale and fungus diseases. Better than Home Boiled—because always uniform in strength and quality. "Strongest when you get it, goes farthest when using."

Made in Canada—no duty to pay.—Freight less. 23
FERTILIZERS—We also sell Nitrate of Soda, Muriate of Potash, Sulphate of Potash and Acid Phosphate.

CHEMICAL LABORATORIES LIMITED, 126-136 Van Horne Street, TORONTO.

Be the First In Your Community

THE BUCKEYE TRACTION DITCHER offers you an opportunity to make a net profit of \$15.00 to \$18.00 a day in your neighborhood, digging ditches. Every farmer realizes the value of drainage, and wants it more now than ever before, because he can buy it from 25% to 50% cheaper than the old method of hand labor. The BUCKEYE digs from 100 to 150 rods a day. There is no difficulty keeping the machine busy, and it pays for itself in a very short time. It is operated by two men; simple in construction, and does not require an expert mechanic to manage. For further information write for our catalogue T.

This Free Book Will Save You \$20.00 a Year

I want to tell you all about my **Celebrated Steel Shoes**—why one pair will outwear six pairs of leather shoes—how a pair will give you more foot-comfort than you ever had in your life. How they will keep your feet powder-dry all the time. How light and comfortable they are the year around.

I have told half a million others these facts. They have bought steel shoes of me and saved millions of dollars among them. More than that—they can be on their feet all day—at any work, without foot fatigue. And they have gained health protection.

W. M. RUTHSTEIN
The Steel Shoe Man.

Steel Shoes

prevent rheumatism, sciatica, lumbago, lame back and other troubles caused by wet feet. I want to show you the way to avoid these dangers and all such troubles as tender feet, corns, bunions, chilblains, and at the same time show you a saving of \$20 a year in actual money on account of the extra wear you get from my shoes. Will you write me a postal to-day and get full particulars? Let me send you this free book of mine by return mail.
