

Extra Serviceable

These 8, 12 or 16 h.-p. engines are extra strong and rugged, because intended for use under the hard conditions often met with on the farm.

The engine illustrated is one of the famous

"Bull Dog" Gasoline Engines

which are constructed especially for outdoor work. Drop a postal to our Canadian agents for our catalogue. It shows the different styles of "BULL DOG" Gasoline Engines, and explains their construction in detail.

"Go North Young Man!"

WHY?

Because there are millions of acres of agricultural land in Northern Ontario in some cases free, and in others at 50 cents per acre, excelling in richness any other part of Canada, blessing and waiting to bless the strong, willing settler, especially the man of some capital.

A FARMER'S POWER HOUSE ON WHEELS

Complete with Line Shaft, Truck, Pump Jack and interchangeable Pulleys capable of 60 changes of speed.

An engine that carries its own line shaft, pulleys, belt tightener and hangers. The Gilson 60 Speed Engine is a complete power plant in itself. You can haul engine anywhere, attach it and get just the speed desired—the only engine of its kind made. Gives 100 per cent service. Runs the whole farm. Goes like sixty—sells like sixty—has sixty speeds. 11 H. P., also 3 H. P. and 6 H. P. Engines up to 27 H. P.

WRITE TODAY. Write at once for illustrated, descriptive literature with full information. Agents wanted.

GILSON MFG. CO., Ltd., 61 York Street
Windsor, Ontario

GILSON "60 SPEED" ENGINE

Flies! Flies! Flies!

Get rid of them and help make your home and premises sanitary by the liberal use of **Tanglefoot Fly Paper**. There is fully one-third more compound per sheet on **Tanglefoot** than on any other fly paper; hence it lasts longest, catches the most flies and is the best and cheapest fly paper. If you ask for "fly paper" or "sticky fly paper" you may get a cheap imitation that will soon dry up or glaze over. Ask for **Tanglefoot**.

Sold by Grocers and Druggists.

TREE TANGLEFOOT, put up in 1, 3, 10 and 20 lb. cans. Will protect your trees from all climbing insects.

"Baker" Wind Engines

Are built for hard, steady work, and keep at it year in and year out.

It is the reputation which "BAKER" Wind Engines have fairly won and steadily held ever since their first appearance on the market, 30 years ago, that should be considered. They are famous for their durability, simplicity of construction and easy running. "BAKER" Wind Engines are so designed that the gears cannot wear out of mesh. The wheel is built on a hub revolved on a long stationary steel spindle, requiring no babbitting. It has a large number of small sails which develop the full power of the wind and enable them to pump in the lightest breezes. Has ball-bearing turn-table and self-regulating device, and all the working parts are covered with a cast shield, protecting same from ice and sleet. The above is only a few of the many features that have placed "BAKER" Mills in the lead. Let the H.-A. Co. agent give you complete information, or write direct for booklet.

We make a full line of Steel Towers, Galvanized Steel Tanks, Pumps, Pneumatic Water Systems, Spray Pumps and Gas and Gasoline Engines.

THE HELLER-ALLER COMPANY
