A Scotchman complained to another that he had got a ringing in his head. "Do you ken the reason of that?" asked the cirony. "No," "I'll tell ye, 's it because it's empty." "And ha'e ye never a ringing in your head?" quoth the other. "No, never." "And do you ken the reason? Because it's cracked."

THOMAS' ELECTRIC OIL! WORTH TEN TIMES ITS WEIGHT IN GOLD. DO YOU KNOW ANYTHING OF IT? IF NOT, IT IS TIME YOU DID.

There are but few preparations of medicine which have withstood the impartial judgment of the people for any great length of time. One of these is THOMAS' ELECTRIC OIL, purely a preparation of six of the best Oils that are known, each one possessing virtues of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power, and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. It contains no alcohol or any other volatile liquids, consequently loses nothing by evaporation. Wherever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small quantity of Oils which they may contain.

S. N. THOMAS, Phelps, N. Y. And NORTHRUP & LYMAN, Sole Agents for the Dominion. NOTE.—Electric—Selected and Electrized. 2m. Nov. 4.

We were exposed last week to a pitiless storm that wet our feet and stockings, and indeed our person all over. In fact, we took a cracking cold which brought sore throat and severe symptoms of fever. The good wife asserted her authority, plunged our feet in hot water, wrapped us in hot blankets, and sent our faithful son for a bottle of AYER'S CHESTNUT PECTORAL. It is a splendid medicine, pleasant to take, and did the job. We slept soundly through the night and awoke well the next morning. We know we owe our quick recovery to the Pectoral, and shall not hesitate to recommend it to all who need such a medicine.—Tehuacana (Texas) Presbyterian.

WHAT PAYS? It pays every Manufacturer, Merchant, Mechanic, Inventor, Farmer, or Professional man, to keep informed on all the improvements and discoveries of the age. It pays the head of every family to introduce into his household a newspaper that is instructive, one that fosters a taste for investigation, and removes thought and encourages discussion among the members.

THE SCIENTIFIC AMERICAN which has been published weekly for the last thirty-one years, does this to an extent beyond that of any other publication in fact it is the only weekly paper published in the United States devoted to the progress of the age. It contains the latest and most interesting information pertaining to the Industrial, Mechanical, and Scientific Progress of the day. It is illustrated with beautiful Engravings of New Inventions, New Implements, New Processes, and Improved Industries of all kinds; Useful Notes, Recipes, Suggestions and Advice by Practical Writers, for Workmen and Employers, in all the various arts, forming a complete repository of New Inventions and Discoveries, containing a weekly record, not only of the progress of Industrial Arts in our own country, but also of all the New Discoveries and Inventions in every branch of Engineering, Mechanics, and Science abroad.

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publications for the past thirty-one years. It is the oldest, largest, cheapest, and the best "weekly" illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the world. The practical Recipes are well worth ten times the subscription price, and for the shop and house will save many times the cost of subscription. Merchants, Farmers, Mechanics, Engineers, Inventors, Manufacturers, Chemists, Lovers of Science, and People of all Professions, will find the SCIENTIFIC AMERICAN useful to them. It should have a place in every Family, Library, Study, Office and Counting Room; in every Reading Room, College and School. A new volume commences January 1st, 1877. A year's numbers contain 52 pages and SEVERAL HUNDRED ENGRAVINGS. Thousands of volumes are preserved for binding and reference. Terms, \$3.20 a year by mail, including postage. Discount to Clubs. Table with columns for Academic Progress Readers (Academic First Book to Sixth Book) and Illustrated English Readers (First English Reader to Sixth English Reader). Includes page counts and prices.

NOTICES OF THE PRESS. "If we consider the matter of which the various chapters treat, the style in which they are compiled, the binding, and the very moderate price at which they can be supplied to school sections, we cannot fail to be assured that the series now introduced will be accepted as a most valuable addition to our school literature, affording alike to teachers and pupils a most pleasing and profitable variety in their reading exercises. These books are printed by one of the largest of the Scottish publishing firms, at the head of which stands a name that will be accepted as a guarantee for any such publication his house may issue, assuredly the Collins' would not publish and send out to the world a school reader of inferior merit."—N. S. Journal of Education.

"The publications, as already stated in our columns, have been adopted by the Council of Public Instruction for use in our schools. The government of the various Australian colonies have also adopted them, and they are, we believe, to be used exclusively in their schools. Both in England and Scotland their use is widespread, and they have proved themselves favorites with both teachers and pupils."—The Morning Chronicle.

"These books are admirably adapted to the purpose of teaching, illustrated as they are on almost every page, and printed in clear, bold type. Moreover, they are wonderfully cheap, and most of them are new publications. They have been adopted in Australia, while in England and Scotland they are widely used. The matter is modern, very instructive, and so beautifully embellished that scholars will turn to them with avidity."—Halifax Wesleyan.
