

THE ORCHARD ORIOLE.

A nest of the orchard oriole (improperly called the "English robin") was discovered by the owner of the lot, whose child wanted the young birds, and the child was duly gratified. The nest was taken home, to the delight of the child and the grief of the parent birds, and the fledglings were placed in a cage outside the house. To the surprise of the person who had put them there, he found, one day, that the mother-bird had discovered her lost children, and was feeding them through the wires of the cage. This proof of parental affection in a bird was continued, till at length the person who had removed the nest from its place and put it in the cage was moved to restore it to its place on the tree, with the young birds in it. The unbounded delight of the old birds proved a full compensation for the sense of his—or, rather his child's—loss by the restoration of the young birds to their mother.

LAGOS.

Lagos is a town on a little island off the coast of West Africa. It is the place from which the missionaries start inland to their work in the Yoruba country. In former days they used to travel by canoe, but now a railway has been made, which makes the journey much quicker and easier. But still people who want to go to places to which the railway does not run must go in canoes, or if the way is by land they walk, or are carried in a hammock, while their luggage goes on the heads of porters. The Yoruba people worship many gods. They pray to Shango, the god of thunder, and when there is a thunderstorm, they think Shango is angry, and must have offerings given to him. Then near the sea-coast they worship the sea-water, and in other places we hear of big rivers, or high rocks, or tall trees as their gods. The devil is worshipped, too, and a house in his honour is put up in many streets, and at the entrance of every town. Shells and oil are presented to him, and fowls are killed as an offering. Pray that soon these poor people may learn to know Him who is the God of Love.

—In life the truest winning often comes first under the guise of failure. If we choose, a failure can always be used as a means to an end rather than as a result.

Our daily work, the constant occupation of our life, needs to be done in God's presence, and to be shone through by Him. Often it is the hardest part of our religion.

IF YOU HAVE RHEUMATISM

Gout, Lumbago, Sciatica, when drugs and doctors fail to cure you, write to me, and I will send you free a trial package of a simple remedy which cured me and thousands of others, among them cases of over 30 years standing. This is no humbug or deception, but an honest remedy which you can test without spending a cent. Address: John A. Smith, Dept. 25, 306-308 Broadway, Milwaukee, Wis.

DON'T THROW MONEY AWAY

THE SETTING HEN—Her failures have discouraged many a poultry raiser.

You can make money raising chicks in the right way—lots of it.

No one doubts that there is money in raising chickens with a good incubator and brooder.

Users of the Chatham Incubator and Brooder have all won money. If you still cling to the old idea that you can successfully run a poultry business using the hen as a hatcher, we would like to reason with you.

In the first place, we can prove to you that your actual cash loss in eggs, which the 20 hens would lay during the time you keep them hatching and brooding, will be enough to pay for a Chatham Incubator and Brooder in five or six hatches, to say nothing whatever of the larger and better results attained by the use of the Chatham Incubator and Brooder.

If you allow a hen to set, you lose at least six weeks of laying (three weeks hatching and five weeks taking care of the chickens), or in the eight weeks she would lay at least three dozen eggs. Let the Chatham Incubator do the hatching, while the hen goes on laying eggs.

Our No. 3 Incubator will hatch as many eggs as twenty setting hens, and do it better. Now, here is a question in arithmetic:—

If you keep 20 hens from laying for 8 weeks, how much cash do you lose if each hen would have laid 3 dozen eggs, and eggs are worth 15 cents per dozen? Ans.—\$9.00.

Therefore, when the Chatham Incubator is hatching the number of eggs that twenty hens would hatch, it is really earning in cash for you \$9.00, besides producing for you profit chicks by the wholesale, and being ready to do the same thing over again the moment each hatch is off.

Don't you think, therefore, that it pays to keep the hens laying and let the Chatham incubator do the hatching?

There are many other reasons why the Chatham Incubator and Brooder outclasses the setting hen.

The hen sets when she is ready. The Chatham Incubator is always ready. By planning to take off a hatch at the right time, you may have plenty of broilers to sell when broilers are scarce and prices at the low notch. If you depend on the hen, your chicks will grow to broilers just when every other hen's chicks are being marketed, and when the price is not so stiff.

The hen is a careless mother, often leading her chicks amongst wet grass, bushes, and in places where rats can confiscate her young.

The Chatham Brooder behaves itself, is a perfect mother and very rarely loses a chick, and is not interested with lice.

Altogether, there is absolutely no reasonable reason for continuing the use of a hen as a hatcher and every reason why you should have a Chatham Incubator and Brooder.

We are making a very special offer, which it will pay you to investigate.

Small Premises Sufficient For Poultry Raising.

Of course, if you have lots of room, so much the better, but many a man and woman are carrying on a successful and profitable poultry business in a small city or town lot. Anyone with a fair sized stable or shed and a small yard can raise poultry profitably.

But to make money quickly, you must get away from the old idea of trying to do business with setting hens as hatchers. You must get a Chatham Incubator and Brooder.

To enable everybody to get a fair start in the right way in the poultry business, we make a very special offer which it is worth your while to investigate.

We can supply you quickly from our distributing warehouses at Calgary, Brandon, Regina, Halifax, Chatham. Factories at CHATHAM, ONT., and DETROIT, MICH.

The MANSON CAMPBELL CO., Limited, Dept. No. 291, CHATHAM, CANADA

Let us quote you prices on a good Fanning Mill or good Farm Scale.

The Chatham Incubator and Brooder has created a New Era in Poultry Raising.

The setting Hen as a Hatcher has been proven a Commercial Failure.

The Chatham Incubator and Brooder has always proved a Money Maker.

A Light, Pleasant and Profitable Business for Women

Many women are to-day making an independent living and putting by money every month raising poultry with a Chatham Incubator.

Any woman with a little leisure time at her disposal can, without any previous experience or without a cent of cash, begin the poultry business and make money right from the start.

Perhaps you have a friend who is doing so. If not, we can give you the names of many who started with much misgiving only to be surprised by the ease and rapidity with which the profits came to them.

Of course, success depends on getting a right start. You must begin right. You can never make any considerable money as a poultry raiser with hens as hatchers. You must have a good incubator and brooder, but this means in the ordinary way an investment which, perhaps you are not prepared to make just now, and this is just where our special offer comes in.

If you are in earnest, we will set you up in the poultry business without a cent of cash down. If we were not sure that the Chatham Incubator and Brooder is the best and that with it and a reasonable amount of effort on your part you are sure to make money, we would not make the special offer below.

WE WILL SHIP NOW TO YOUR STATION FREIGHT PREPAID

A CHATHAM INCUBATOR and BROODER

You Pay us no Cash Till After 1906 Harvest

No. 1—60 Eggs No. 2—120 Eggs No. 3—240 Eggs

THE CHATHAM INCUBATOR—Its success has encouraged many to make more money than they ever thought possible out of chicks.

Every Farmer Should Raise Poultry

Almost every farmer "keeps hens," but while he knows that there is a certain amount of profit in the business, even when letting it take care of itself, few farmers are aware of how much they are losing every year by not getting into the poultry business in such a way as to make real money out of it.

The setting hen as a hatcher will never be a commercial success. Her business is to lay eggs and she should be kept at it. The only way to raise chicks for profit is to begin right, by installing a Chatham Incubator and Brooder. With such a machine you can begin hatching on a large scale at any time.

You can only get one crop off your fields in a year, but with a Chatham Incubator and Brooder and ordinary attention, you can raise chickens from early Spring until Winter and have a crop every month. Think of it!

Quite a few farmers have discovered that there is money in the poultry business and have found this branch of farming so profitable that they have installed several Chatham Incubators and Brooders after trying the first.

Perhaps you think that it requires a great deal of time or a great deal of technical knowledge to raise chickens with a Chatham Incubator and Brooder. If so, you are greatly mistaken. Your wife or daughter can attend to the machine and look after the chickens without interfering with their regular household duties.

The market is always good and prices are never low. The demand is always in excess of the supply and at certain times of the year you can practically get any price you care to ask for good broilers. With a Chatham Incubator and Brooder you can start hatching at the right time to bring the chickens to marketable broilers when the supply is very low and the prices accordingly high. This you could never do with hens as hatchers.

We know that there is money in the poultry business for every farmer who will go about it right. All you have to do is to get a Chatham Incubator and Brooder and start it. But perhaps you are not prepared just now to spend the money. This is why we make the special offer.

IS THIS FAIR?

We know there is money in raising chickens. We know the Chatham Incubator and Brooder has no equal.

We know that with any reasonable effort on your part, you cannot but make money out of the Chatham Incubator and Brooder.

We know that we made a similar offer last year and that in every case the payments were met cheerfully and promptly, and that in many cases money was accompanied by letters expressing satisfaction.

Therefore, we have no hesitation in making this proposition to every honest, earnest man or woman who may wish to add to their yearly profits with a small expenditure of time and money.

This really means that we will set you up in the poultry business so that you can make money right from the start, without asking for a single cent from you until after 1906 harvest.

If we know of a fairer offer, we would make it. Write us a post-card with your name and address, and we will send you full particulars, as well as our beautifully illustrated book, "How to make money out of chicks." Write to-day to Chatham.
