

A Small Leak Will Sink a Ship

To save the ship, stop the leak.

The same applies to your dairy, don't think because you are employing the pan setting methods or gravity systems, that you are getting all the cream; because you are not—in reality, you are losing from 9 to 40 pounds of butter per cow in one year.

Stop the leak by using a separator, but stop it well and for all time by using a

Tubular Separator

because it gets all the cream and delivers it in a smooth and gentle manner, as well as saving labor, time, attention and paying for itself within a year.

A trial convinces—Catalog 186 tells why. Write for it.

ROOFERS TO THE FARMERS OF CANADA

A \$5.00 Bill Will Bring YOU THIS COLLAR

Mr. T. H. Atkinson says:—"I take great pleasure in recommending this Rope Rimmed Collar to others as I have five in use now, and the last one I purchased has given me an extra horse to use as he was useless until I got the collar owing to a sweeney. Knowing that this testimony is going to be made use of, I take pleasure in stating that I have dealt with Mr. Stewart for the last three years and have found him reliable in every respect."

NO MORE SORE SHOULDERS. If you have a horse unable to work from a sore shoulder you need this collar. It will give you the use of another horse. This collar is made throughout by hand, is of superior workmanship, and is very flexible, readily adapting itself to the peculiarities of the shoulder. Hundreds of these collars are in use in the Regina district alone and are giving entire satisfaction. You can't afford to be without this collar during this busy season. Send me \$5.00 for a trial collar and you will never regret it.
