The Farmers' Phone

Gives Unequaled Service
Stock at Regina

KELLOGG Code No. 2839 farm line telephone is especially built for the rural line. It will give the highest grade service whenever called upon—today, tomorrow, in fact, indefinitely. The cabinet is of sturdy, well seasoned and handsomely finished quartered oak; equipped with Kellogg standard apparatus; Kellogg standard long distance transmitter (over two million of one type in use); powerful five bar generator, reliable and durable receiver with Kellogg Bakelite shell. This telephone gives the most reliable service with the least amount of repairs. Its use throughout the world proves it the unequalled farm line telephone.

"Use Is The Test"

We have a stock of these profit making telephones at Regina, Saskatchewan, ready for immediate shipment and also a complete line of telephone supplies. Your orders and inquiries will receive our prompt, intelligent attention.

Do you need wire, pole or line hardware, tools, batteries, etc.? Our line supplies are of the very best quality, and selected by experienced, practical telephone men—prompt shipments assured.

A selected stock for renewals and extensions, with switchboards and telephones, ordered now will mean a saving and enable you to give better service. Order at once.

We issue a booklet entitled "How to Organize a Rural Telephone Company," which we will forward on request.

Manufacturers of Standard Telephone Equipment.

Buy Early This Year

THIS year, Canadian farmers have need of first-class equipment in harvesting machines, twine, and binder repairs. Buy none but well-known, long-tried machines and buy early.

Buy good twine, and buy it now. This is no time to be thinking about saving a cent or two on twine, but to think of the dollars that good twine will save in the field. Our advice to every farmer is to buy at once the full amount he is going to need, and not alone to buy it, but to go to the dealer, get it, and take it home.

McCormick binders now cost less in the amount of farm produce required to buy them than ever before. But prices of all manufactured goods are likely to go higher without much warning, while there is no chance at all for them to go lower this season. The safe thing to do, therefore, is to buy now, at present prices, for immediate delivery.

Your local dealer has done his share to insure the harvesting of your grain. See him as soon as you can and arrange for the repairs, twine, or new machines you are going to need this year.

Good Tubes Increase the Mileage of Tires

You have read of extra long mileages that other motorists have got from tires. You may be amongst the thousands of motorists who wonder why the same brand of tires goes farther for other men.

Allow us to give you a pointer—Look to your tubes.

Good tubes—Goodyear Tubes—will get many extra miles from tires.

Because a poor tube, through slow leaks, causes under-inflation, the commonest enemy of tires.

Goodyear Laminated Tubes overcome this. Their exclusive method of manufacture insures air-tightness to the greatest possible degree.

For we take the highest quality rubber and roll it thin to transparency—so we can detect all flaws, sand holes, air bubbles. The inspected, perfect sheets are then built up, layer on layer, into a perfect, inseparable whole. This is the only right way to make tubes.

And we even vulcanize the valve patch, instead of merely sticking it on.

It is very much worth while, for the sake of your casings, and for longer tube service, to say "Goodyears" when you buy tubes.

The Goodyear Tire & Rubber Co. of Canada, Limited

Goodyear Tubes, along with Goodyear Tires and Tire-Saver Accessories, are easy to get from Goodyear Service Station Dealers everywhere.
