

YORK COUNTY ENTHUSIASTIC

Lib. Candidates Agreeably Surprised

Feeling in Favor of Administration Even Stronger Than They Had Expected

(Special to the Sun.)

FREDERICTON, N. B., Feb. 6.—The political campaign in this county is now in full swing and prospects for a sweeping government victory are exceedingly bright. Friends of the local government are thoroughly united and are going into the fight backed by many prominent Conservatives and are determined to roll up a decisive majority on March the third. The government ticket is an exceptionally strong one and all but the most bitter of the opposition party admit that it stands to win hands down. All the members of the ticket are forcible speakers and will keep their opponents hustling from now until polling day. The entire campaign was opened at Upper Kingsclear this evening, where Hon. Mr. Allen and his three colleagues addressed a roving meeting.

Friends of the government have secured the committee rooms in the Fisher building, Queen street, and will meet Saturday evening for organization. Despite the opposition view, the government is stronger in this city than ever before and will roll up a majority well up in the hundreds. The opposition has been boasting of great things they are going to do for the farmers if returned to power. It is a notable fact that in the entire list of the most intelligent and progressive young farmers in the entire province a Queens county man was here yesterday. The government ticket is a notable fact in the entire list of the most intelligent and progressive young farmers in the entire province.

A Queens county man who was here yesterday predicted the election of the government ticket in that county by a majority of four hundred. Friends of the government in Sunbury met in convention at Burton on Saturday evening for the purpose of electing a candidate for the county seat. It seems to be the general opinion that Dr. Zeake of Oromocto and Mr. M. Thibault, a leading farmer of that county, are the best candidates. The county is well organized and has been working hard for the last few weeks with channels strongly in favor of the government.

WILL HAVE SEVERAL

WHARVES BUILT

IN SUNBURY COUNTY

FREDERICTON, Feb. 11.—Dr. Pugsley has taken steps toward Col. McLean to have surveys made on the St. John River for several wharves in Sunbury County.

A daily mail will also be in operation between Moncton and Gagetown in the near future, running both summer and winter, and seven post offices have been established through Col. McLean's efforts in Sunbury County.

One of these located at North Settlement, West, is claimed by Mr. Hazen to have been established by himself, but this is not so. Mr. Hazen has had four years to secure the office, but failed.

It is reported Mr. Hazen is making an effort to obtain the nomination for the federal house at Ottawa and assistant Mr. Wilmut.

Harvey man badly injured while chopping in woods

McADAM, N. B., Feb. 10.—Harry Little, 23 years old, of Harvey Station, N. B., met with a very painful accident while working in the woods at Cottrell siding, five miles from here, today.

It appears that Little was chopping wood, when the log upon which he was standing, broke. Little's axe was thrown in the air and fell, the point of the axe striking him on the side of his head, inflicting a deep and serious wound. His companions immediately put him on horse-back and started for McAdam, finding it necessary to lash him to the horse before reaching here as he had lost consciousness from loss of blood.

Little is resting well tonight and the attending physician is hopeful of his recovery.

ANOTHER TUNNEL UNDER SNOWCLAD PEAKS OF THE MIGHTY ALPS

BRYAN MAKES ABLE SPEECH BEFORE MONTREAL AUDIENCE

He and His School Rejoice Over Prosperity of Canada

MONTREAL, Feb. 10.—William Jennings Bryan addressed a huge gathering of the Canadian Club at their weekly luncheon this afternoon. The hall of the old Corn Exchange in St. Jean St. was thronged, about five hundred guests sitting down to luncheon while many had to be denied admission for lack of room.

Mr. Bryan was welcomed with a round of tumultuous cheering. He was glad he belonged to a political system by which he could wish Canadians well, without being accused of being unfriendly to his own country. He belonged to a political school that believed that every person had a right to do what he wanted to do, so long as it did not interfere with the liberty of other persons. Carrying the argument a little further, each state had an undoubted right to do what it wanted to do, so long as it did not interfere with the liberty of other states or nations, wanting to do what it wanted to do.

He and those who were of his school could watch Canadians growing and prospering, therefore, and instead of alienable right to do what it wanted to do, so long as it did not interfere with the liberty of other persons. Carrying the argument a little further, each state had an undoubted right to do what it wanted to do, so long as it did not interfere with the liberty of other states or nations, wanting to do what it wanted to do.

He considered himself an optimist, and though he had his eyes and ears open to the sorrows of the world, that would not discourage him from working towards the triumph of righteousness. Everywhere he travelled he saw signs of regeneration and progress. There could go nowhere but he found that education was making progress. In his country the schools and the number of pupils had doubled during the last few years. Speaking of the so-called "yellow peril" he thought it would be impeaching the Almighty to fear the elevation of any one race. The advancement of China would not take place without raising at the same time the Chinaman's education.

Mr. Bryan also referred to the movement in Britain to take away the veto from the house of lords. He did not know what they were going to do there this year, but the time was drawing near when no hereditary body should be allowed to stand up against an elective body.

He thought there was one thing we could learn from Britain and that is the public spirit which animates men. Unlike the Americans, who continue running after the dollar until they drop dead, men in the United Kingdom usually put a stop to their accumulations when they found they had enough and they devoted themselves to the public service.

SPLENDID ORGANIZATION

MEETING IN ST. MARTINS

ST. MARTIN, N. B., Feb. 10.—A splendid Liberal organization meeting was held here Saturday night. P. M. Cochrane was chairman, Robert W. Skelton, secretary, and William J. Welch, treasurer.

The parish was divided into districts and chairmen were chosen as follows: District No. 1, John A. Howard.

No. 2, Thomas McGowan.

No. 3, Samuel J. Franklin.

No. 4, Richard Hafford.

No. 5, P. H. Nugent.

No. 6, Robert Hovey.

No. 7, Robert Connolly.

A large number of electors were present and the meeting was a success in every way, the greatest enthusiasm prevailing.

LONDON, Feb. 10.—A special dispatch to the Daily News from Queenstown says that the British post office has made a new contract with the Cunard Steamship Company to carry letters from Liverpool and New York until 1928.

Provincial News

FREDERICTON, N. B., Feb. 7.—The Supreme Court this afternoon delivered judgment in the case of *McDonald v. The King*, a case involving the right of a subject to be tried by a jury.

The court decided that it was the duty of the government to provide a jury for the trial of a subject, and that the government was liable for the costs of the trial.

The court also decided that the government was liable for the costs of the trial, and that the government was liable for the costs of the trial.

spending a short term at the McDonald School at Kingston. He won a scholarship and availed himself of the opportunity of going to St. Anne's.

He was one of the brightest students at the college and his parents had the melancholy satisfaction of being assured by the principal, Prof. Robertson, that the work of the college was of the highest order in which he was held by the staff and the students.

There was a service in the college chapel before the remains were taken to the train at which some hundreds of students and friends were present. The floral tributes were very beautiful, those from the staff and students from the college greenhouses, being especially so.

Mr. and Mrs. King expressed their appreciation of the kindness shown to their son by physicians and nurses during his illness and the sympathy shown to them while in St. Anne's.

The deceased was a nephew of Inspector W. S. Carter of St. John.

FREDERICTON, Feb. 8.—The old homestead of ex-Warden John Anderson, situated at the Barony, was destroyed by fire last night. Mr. Anderson, son of the late warden, was in the city last night, had resided in the house for 48 years.

MONTON, N. B., Feb. 8.—The death occurred last night at Petford of E. P. Eastman, former high treasurer of the Supreme Court. He was 70 years of age.

He had been in the city for ten days with heart trouble. He was born in Brunswick, 1837, at Trentham, New Brunswick, and came to St. John in 1867 for two years, afterwards coming to New Brunswick. He was identified with a number of important enterprises after coming here and was on the Canadian staff at St. Louis Exposition, representing lumber interests in New Brunswick. He was making his home at Garland, Me.

The death occurred last night of Stephen Weldon, a well known Albert County resident, who was away at his home in Upper Canada.

SCHOONER GEORGIA

CAUGHT IN ICE

The three-masted schooner Georgia, of which J. Willard Smith of St. John is the local agent, was caught in the ice near Stepping Stone light on Saturday afternoon, and was taken in tow by the tug James A. Lawrence to be towed to Sandy Hook. The contact with the ice started the vessel leaking and off Governor's Island she began to fill and was towed to Staten Island by the tug.

The Georgia was bound from St. John for Philadelphia.

J. Willard Smith left for New York last night to have the necessary repairs made. He was unable to say how badly she is damaged. The Georgia is not insured.

DR. PATTON APPOINTED.

MONTREAL, Que., Feb. 11.—At a meeting of the governors of the Wesleyan College last night, Rev. Dr. Patton was appointed professor of Oriental literature and Old Testament exegesis. He is a native of Montreal, a graduate of McGill, post graduate of Leipzig, and former professor at Yale and Kansas Universities.

DON'T SUFFER ALL WINTER.

Read This Evidence and Begin Today to Cure Yourself With Dr. Williams' Pink Pills

Scleritis is neuralgia of the sciatic nerve. Its origin is generally rheumatism and is the direct result of taking cold. For this reason the disease is commonly known as "sciatic rheumatism."

There is only one thing more painful than sciatica and that is the treatment of it as practiced. The sickening burning of the flesh is only one of the forms of cruelty employed by the old school doctors, and all too often this is entirely vain for the relief gained is but temporary.

It is a scientific fact that the majority of sciatic cases result from exposure to cold when the patient is in an anemic or bloodless condition, in which the nerve is literally starved. It needs no argument to show any reasonable person that a starved nerve cannot be fed by the application of a hot iron to the outer flesh. It may deaden the sciatic pain for a time, but it will not cure sciatica.

Absolute rest is the best aid to proper medical treatment. Rest and Dr. Williams' Pink Pills, which actually make new blood and thus feed the starved nerve, will cure most cases.

Mr. H. W. Aitken is one of the leading merchants of Hamilton, N. B. A few years ago he was a great sufferer from this excruciating trouble. He says: "The attack was so severe that I had been of work for some time. The cords of my legs were all drawn up and I could only limp along with the aid of a stick. The pain I suffered was terrible. I was in misery both day and night. Every moment caused me such pain as only those who have been tortured with sciatic know. I was treated by several doctors, but they did not help me a bit. In fact I almost began to think my condition was hopeless, when Dr. Williams' Pink Pills were brought to my notice. I got a half dozen boxes. I had used the entire quantity before I found any benefit. But I was encouraged and got a second half dozen boxes, and before these were all gone every vestige of the trouble had disappeared. Not only this, but I was improved in health in every way, as it will be readily understood that the long series of pain I had suffered had left me badly run down. I can speak too highly of Dr. Williams' Pink Pills. I can't recommend them too strongly to other sufferers."

Sciatica is a symptom in resisting treatment and the patient often suffers for years. Dr. Williams' Pink Pills do not simply relieve the pain. They cure the disease caused by poor, watery blood. They actually make new blood and have therefore a direct and powerful curative effect on such diseases as rheumatism, anemia, general debility and after effects of the use of narcotics. They are sold by all druggists and by mail at \$10 a box or six boxes for \$25.00 from The Dr. Williams' Medicine Co., Brockville, Ont.

LEFT BABY TO DIE FROM EXPOSURE IN THE WOODS

Richard Gray Tells Officers

Where Body Can be Found

Found

HOULTON, Feb. 8.—Richard Gray, of Hartland, who, to conceal a most horrible crime, left an infant a few hours old to perish in the cold, thus adding to his other transgression the crime of murder, was captured last night at midnight by Sheriff Foster, of Woodstock, at Titcomb's lumber camp, near the Maine boundary and about five miles from Houlton.

Gray was located by Capt. Whitney of the Houlton police force, who had been advised by Sheriff Foster to be on the lookout for the fugitive.

Gray was working in the woods. Some days ago he wrote a letter to his home asking that some clothes be sent to the camp. It was by means of this letter that he was traced by Sheriff Foster who communicated with Capt. Whitney, of Houlton, last night at 8 o'clock. As it was not known definitely which side of the border Gray was on, both officers went to the camp, reaching there at about twelve o'clock.

Gray was in one of the bunk's asleep when the officers reached the camp, and was aroused and told of his arrest. He was dumfounded when told that he must dress and go with the officers.

When asked about the child he said that he had left it in the woods about one quarter of a mile from the house. He said he had left Hartland on January 24th.

When questioned further he asserted that at first that the child was dead when he took it from the house. He said he carried the child into the woods and laid it down.

When cornered more closely he admitted that he had carried the child under his arm and that he could feel its body moving all the way as he went into the woods.

These disclosures were made as he drove through the woods with the officers.

WOODSTOCK, Feb. 8.—Richard Gray, of Knoxford, who is accused of murdering his child, of whom the mother was his own daughter, was brought to this town by Sheriff Foster at two o'clock this morning and lodged in jail.

Gray has been charged with incest committed with his daughter, Estella, knowing her to be his daughter, and with the murder of his own child.

He was brought before Magistrate Wm. Dibble this morning and was remanded until Thursday at 10 a.m. when witnesses can be brought to court. These witnesses will be his wife and several neighbors.

When the prisoner was arrested he submitted quietly; he had no weapons and made no resistance. He proved very docile and said he would come without resisting. He begged the officers not to put the handcuffs on him and said that he would make no attempt to run away.

He said that the baby had a small blanket wrapped about it when he took it from the house.

Gray is aged about forty-two years and is of good appearance. He seems to realize the abhorrence of his terrible crime and feels his position keenly.

Sheriff Foster left this morning to endeavor to find the infant's body and to get the necessary witnesses.

Estella Gray, the mother of the child, has completely recovered and is about the house.

The people of Knoxford, in the parish of Hartland, where the Gray's are said to be much wrought up about the crime. The indignation among the people is very pronounced. In Woodstock also the people express the greatest horror and Gray is looked upon as a monster.

WOODSTOCK, N. B., Feb. 8.—Richard Gray of Knoxford, charged by his sixteen year old daughter with the crimes of incest and murder, was captured last night by Deputy Sheriff Foster in a lumber camp, near the Maine boundary, on this side of the New Brunswick line. The deputy had gone to see that his man was in the camp. Arriving there late at night he secured entrance and with the aid of a lantern picked out his man from among the trees, twenty or more who were soundly sleeping.

Gray offered no resistance, but begged the officer to shoot him, evidently feeling his position most deplorable. On arriving here Gray was lodged in jail and at ten o'clock this morning appeared before Magistrate Dibble.

The prisoner presented a very dejected appearance. As the crown was not ready to proceed and the prisoner had no counsel, he was remanded until Thursday, 13th inst., when the preliminary examination will be begun.

ANOTHER PLOT

ST. PETERSBURG, Feb. 10.—The arrest of a sergeant at the Pankratyev railway depot in St. Petersburg on Friday last, has led to the disclosure of a plot of Social-Revolutionists living at Vi-sborg to attack the branch of the state bank in this city. When the gangster was taken into custody it was found that he had a bomb in his pocket. He has confessed.
