MINERAL WATERS

POINT DE JOUR, PARISH OF L'ASSOMPTION.

THESE truly valuable WATERS are distinguished for the large quantity of Bromine and lodine they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest segree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them; upon the contrary, they are found to improve and attemption. The large number of cares effected by the use of the above Waters, mable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application;—

RILLER DES PRAIRIES, March 1, 1850.

RILLER SINCE YOU are depicted to ascertain, the effect which the Waters of the Point do Jour Springs have produced on myself, I smat inform you, that I have need them medicinally at their Source, and have found them injuly mlubrious. I was at the time so affected by the consequence of a several disease of the Digestive Organs that my Physician indged it right to suspend for a time all active remedican even for the repression of Dyspecion and an absolute Ratination of the Bowels, under both of which I was suffering severely. He prescribed for my relief the Mineral Waters, and I made use of those of the Point da Jour, as being the nearest. I was at the time so weak, that is was with difficulty I kept my feet. However, at the experiation of three weeks, I was reasoned by using the Waters. These Waters are of a glacous nature, containing a large quantity of stillus particles, and agree-lake in the inste-taken is a large does they are strongly asked by the their purgative properties are unattended with grinings,—those even who have been using them have not been weakened or enervated in their constitution in consequence y upon the contrary, by using them have find their appatite increased, and their digestion resident mor regular. After a dose of 3 or 4 four glasses, I foundmain they had the effect of increasing the urinary secretions at first, and that these decreased in their constitution of the nervous and shadunary systems were thereby indensity agreement, and that the decreased programs and galety. Many who, in the same circumstances, made use of the Waters by the recommendation of Dr. Cazeneuve, expersenced the same effects. To conclude, I am of opi

In cases of baldness, it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this taim. Age, state, or condition, appears to be no obstagle whatever; it also causes the fluid to flow with which the delicate hair tubes is filled, by which means thousands (whose heir was gray as the Asiatic cagle) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used.—A few applications only are necessary to keep the hair from failing out. It strengthens the roots, it never fails to impart a rick glessy appearance, and as a perfume for the tolet it is unequalled. It holds three times as much as other miscalled hair res oratives, and is more effectual.

MOFFATS Life Piffs and Phonix Bitters. These Medicines have now been before the pub-lie for a period of FIFTEN YEARS, as

during that time have intaintained a high character in almost every part of the globe for their extreor-dinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the huma- frame is liable. IN MANY TROUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had ut-terly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy inva-riably and infallibly proved, that it has appeared rably and maintey proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their namifest and console action in purifying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.
