## NATIONALISTS TO RULE TURK

Their Party Seems to Be Gaining Power.

Sultan's Decree Points to Them.

Paris Cable -French official circles irect attention to the fact that Paris Cable —French official circles direct attention to the fact that Djemal Pasha, the new Turkish War Minister, is the political ally of Musiapha Kemal, and the French generally are of the opinion that the change in the Cabinet may result in stabilizing the Government and extendibilizing the ing its authority over greater terri-

ory.
The Sultan's decree, according to the version received by the French authorities, outlines a policy which appears to embody an endeavor to understanding with the

According to the Intransigeant, the resignation of the Cabinet of Damad Ferid Pasha was the result of the rerid Pasna was the result of the intimatum from General Mustapha Kemal, the Nationalist leader, who has set up a new Government at Erzerum, and has issued a call for ment to meet at that place, away from the influence of the Entente. from the influence of the Entente. Following the occupation of Konieh, in Southern Asia Minor, which is connected by railroads with Constantinople (Asiatic side), and Smyrna, Mustapha Kemal called upon Jerned Ferrid to region with his entire Damad Ferid to resign with his entire

The capture of Konieh and the The capture of Konieh and the retirement of Damad Ferid's Cabinet in response to the ultimatum, will, it is thought, give fresh impetus to the Nationalist movement and increase the dangers of the situation, even hough the country may not be able to support important military operations. Some napers believe that iions. Some papers believe that massacres are almost sure to follow the present anarchy, and that even the throne is threatened by latest developments in Turkey.

The noon papers regard the Cabinet The noon papers regard the Cabinet change as a last warning to the Supreme Council, and will ask whether it is time for a superficial investigation at to the will of the population of Asia Minor.

The new Grand Vizier is Ali Riza

Pasha.

The rescript of the Sultan defines the mission of the new Cabinet as being to arrange for the holding of elections and convene the Parliament.

Small but Potent.-Parmelee's Vegsmall but Potent.—Parimelee's veg-etable Pills are small but they are effective in action. Their fine quali-ties as a corrector of stomach trou-bles are known to thousands, and they are in constant demand everywhere by those who know what a safe and simple remedy they are. They need no introduction to those acquainted with them, but to thos who may not know them they are presented as the best preparation on the market for disorders of the stomach.

## TIRED MOTHER'S TERRIBLE DEED

Sends Her Two Children to a Slow Death

And Watches Effect Deadly Drug.

Pontiac, Despatch.-Giving as a rea-Pontiac, Despatch.—Giving as a reason for her act that her two goldenhaired little girls, Snirley, aged eight, and Edna, six, "worried" her, because she telt too thred to attend to their wants at bedtime, Mrs. Hazel Leukart, aged 29 who, with her husband, lives on a small place between the village of Royal Oak and Pontiac, poisoned them both. In capsules she forced each to swallow a slow, insidious poison that paralyzes its victims and steals with slow march upon the heart, which it finally stills. Those so doomed to die feel no pain, but a great lassitude. They retain consciousness to the end.

so doomed to die feel no pain, but a great the end.

Shirley, the elder, is expected to die within a few hours. Eda has but three or four days to live, declare the doctors.

Mrs. Leukart was arrested to-day and taken to Detroit after she had made a ful confession to the assistant prosecuting attorney of Oakland county. She told the prosecutor she had had the poison in her house for a long time, and was aware that it would bring slow, lingering death to those who took it.

"On the morning of September 28 it came to me like a flash from hell that the best way for the children was to put them where they could not bother me any smore," said the woman in her confession.

"Then I went to the medicine cabinet and took the poison and gave it to Shirley and Edna. They vomited it up—the first time, but I put four of the pellets in capsules so they could not taste them, and then gave them some milk to wash them down with. All that night I watched them and prayed that they would die. I felt happy. But in the morning I realized what I had done, but there was no help then. I told a neighbor what I had done, and then the doctor came."

From September 29 until yesterday, when the continued illness of the two ordinary course of treatment caused the attending physician to become suspicious, the little victims each day became weaker.

Sharp cross-questioning established the

weaker.

Sharp cross-questioning established the fact that the mother was aware of the nature of the trouble. She had, at first, declared both girls had caten green pears and it was for this they had been treated by the nhywdoinu.

declared both first they had been treated by the physician.

The neighbor to hom Mrs. Leukart told her story corroborates it in every detail to-day.

Roy E. Leukart, the husband and father, is a factory employee. He told the Sheriff the his wife had never exhibited any indication of insanity; that she had always been a good, affectionate mother to the little ones, and that the day before she administered the death doses there had been a little argument because he opposed her going back to the stage. She had been at one time a vaudeville actress. So far not the slightest motive, other than the weak reason given by Mrs. Leukart, has been found for the unusual crime.

Thousands of mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

LOST INDIAN TRIBE.

Spain.

When in 1494, on his second voyage. Columbus discovered the island of Jamaica, it was populated by the Arawak Indians, who, although at first hostile to him, became friendly on his giving them clothing and other articles hitherto unknown to them.

When later the Spaniards settled the island they forced the Indians not only to do agricultural work in their

only to do agricultural work in their own island, but to labor in the gold mines of Hayti. So hard were the Spanish taskmasters that by 1558 the whole Arawak nation was extermin-

heaps, of the Arawaks, in which there have been found, besides shells and pottery and fish, turtle and cony bones, many celts, or rude chisels, grinding stones, stone pendants and axes—1,500 objects in all, which have been given to the American Museum of Natural History in New York city.

To the anthropologist the most in-teresting objects are the cylindrical stone pendants, which are fashioned stone pendants, which are instituted with sand and stone and endless rubbing. Pendants of exactly the same sort are worn to-day as insignia of office by-chiefs or headmen or tribes in northern South America.

Women and Asthma. Women are Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to make such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among verywhere.

Impossible to Name Him, Says Churchill.

Eighteen Models Appeared Feasible.

London Cable—"It is impossible? to say that this or that man invented the tank," Winston Spencer Churchill, Secretary for War, testified in this wise to-day before the Royal Commission on Awards to Inventors, which is leading with the claims of eleven men who are seeking the honor and bounties attached to the invention of this formidable instrument of war.

formidable instrument of war.

The testimony and the statements of the attorneys indicated that the tank was a sort of middle ground between armored motor cars, which wide trenches rendered ineffective, and the hymesterm relief planted to hatthe huge steam rollers planned to bat-ter down barbed wire and other ob-

Mr. Churchill testified that from the beginning of the war numerous plans of various types of land ships had been submitted. Eighteen of these appeared so feasible that models were constructed and trials were made, and it might be said that the original tank, first used in the Somme offensive in ti might be said that the original tank, first used in the Somme offensive in 1916, was the result of the experience gained at the trials of each of these 18. Armored cars had failed, said the secertary, because they could not get over or around the trenches, whereupon he had called into conference Vide-Admiral' Sir Reginald Bacon, the ordnance expert. Admiral Bacon built a motor with bridge to be laid across a trench on the approach and picked up on the return; but this failed to get over a double line trench.

Then came tests of machines with huge wheels able to span a wide space, but these are discarded. Finally, the caterpillar tractor scheme was adopted, bringing on an extended discussion as to whether they should be constructed to transport troops

constructed to transport troops through fire-swept areas. Out of these discussions came the trials of the Mark tank, with which the inquiry

the Mark tank, with which the inquiry is dealing.
But the caterpillar plan was once abandoned by the War Office, Major-General Ernest D. Swinton, one of the claimants, testified. It was kept alive in the Admiralty because, according to a statement by one of the attorneys, of Mr. Churchill's belief in the necessity of producing some machines to override the trenches, Gen. Swinton claims that he is the father of the caterpillar idea, dating back to October, 1914.

Among the other claimants are

Among the other claimants are Commodore Murray Fraser Sueter, Sir Eustace Tennyson-D'Evencourt, Director of Naval Construction of the Adiralty, and Sir W. A. Triton, of the Ministry of Munitions. General Swinton was the only one
