### BASKETBALL

#### BUGLE BOYS WON.

The Bugle Band ball team took another step towards the money last night when they defeated the Campbell Company team 5 to 3. This makes two wins for the Bugle Band and one for the fanning mill boys. Neither side played first class ball, but Burney Weldon for the buglers was well high in the air with speed to burn and plenty of bends and alants. On the other hand Cameron was held up for two two-baggers and four singles in four innings. Cameron struck out four men and gave three passes, and Weldon struck out five men and issued no complimentary. The game was not very exciting at any stage. The next game will be played on Tuesday afternoon of next week. Last night's score:

### THE GUN

#### SPLENDID SHOOTING.

Jack J. Moore, at Brantford, is doing some excellent shooting. He won out in the Martin rifle event after a hard fight. He, with two others, were tied for first place with 20 each. In the shoot-off he secured 18 along with Hacker, of Brantford. They then shot off and Jack won by a score of 19-17. He broke 57 out of 60 birds in nice clean style. Jack has secured four straight altogether and is shooting 90 per cent. Buckshot W. E. Hall, Blenheim, won in a shoot-off, having broken 20 straight and won an elegant silver tea service. D. McCracken won Eley's \$25 in gold in a straight.

### GLENWOOD.

Mrs. Mark Randall and son, of Detroit, are the guests of the former's brother, Geo. Harde. Miss Hattie Estabrook is spending the week with friends in Higgate. School will not re-open on the 15th, the trustees having given Miss Palmer an extra week's holidays. Miss Ruth May, of Chatham, spent Sunday and Monday at her home in the village. Miss Liza Duck, of St. Thomas, is the guest of her aunt, Mrs. A. Newham, this week. Mr. and Mrs. Ed. Shepley, of Leamington, spent Sunday in the village. Miss Clara Estabrook spent Sunday and Monday with friends near Wheatley. Miss Hewitson, of Detroit, is spending her holidays with her aunt, Mrs. D. Brown.

A sudden fit of anger may have an influence in many directions.

### SACHEL OF THE SATELLITE

The man who figures in current events is pretty sure to be in the swim.

The rain this morning looked good to the farmers who are growing beans.

Now Chicago is to have a chance to see how a good team plays lacrosse.

Here's hoping that the Chatham lacrosse club in Chicago won't have St. Thomas luck.

It isn't often that it costs as much to get out as it does to get in, but the Japanese fleet found it that way.

Bugle Major Plummeridge—O yes, we made money on our excursion. The Bugle Band will have a nice little surplus.

I don't pose as a prophet, but I have already sighted the storm belt over in the vicinity of the Ursuline avenue sewer.

It was easier for the aldermen to raise the rate than it will be for some citizens to raise the amount of their taxes.

I wonder if Joe Side has caught that broncho yet? Joe used to play baseball and he wasn't bad at catching flies.

Joe Tilt says that he would like to hire a dressmaker for a few days to let out the reefs in some dresses on a few pictures he has.

When the Bugle Band travels shouldn't the drummers be able to beat their way and shouldn't the rest of the band be able to blow about it.

I guess Ald. McCole feels like a boy who has been given a 20 cent piece to go to a 25 cent Fair and no pocket money. Yoy know how the boy would settle it.

I scarcely think that there is any truth in the rumor that President Roosevelt has gone out to California to shake hands with our distinguished townsmen J. M. Pike and G. W. Sulman.

I wonder if the lacrosse boys will feel lonesome in that village Chicago. Perhaps Joe Leiter will ask them up to tea and then take them to church in the evening. Of course church is just perhaps, if you'll notice.

The Driftwood Club is going to have a delightful hop on the bar to-night. Of course many a frog has had a hop on that self-same bar, but they ought to be able to, as they have green backs.

N. H. Stevens—By wireless—I know you're getting lonesome, but I will soon be sailing home now. Please don't let R. G. Fleming and W. G. Gundy take any more rinks to Thamesville. I am seriously thinking of bringing an electric road home with me.

J. M. Pike and G. W. Sulman—California—We just dropped a line to a sea bass. Don't think he got it because he didn't respond. Weather warm and having a glorious time. Expect us home shortly. Saving up a few fish stories for Vital Goudreau, A. C. McKay and G. S. Heyward so that they can spring them on the public.

P. S.—Think they are new ones.

Fly from pleasure that bites tomorrow.

## LETTER BOX

### Editor of Planet:

Dear Sir,—About a year ago I published a series of letters in your valuable paper, setting forth the advantages offered to bright, energetic young men and women, along the line of Shorthand and Business training. These letters had the effect of sending us a few more young men for our Shorthand Department last season than we usually have, but still the number that acted on our suggestion was so far short of the number required, that with your kind permission, I shall again bring the matter before your readers by giving a few facts regarding last year's students. When we tell you that in the line of male stenographers, we could have filled ten times as many positions as we did, and we had the young men with us, and qualified when these openings occurred, it will show you how great a demand there is for this class of help. The demand last year was stronger than ever, and so urgent were many of these calls, that many young men were sent out to fill vacancies, who were still far short of the graduating point. When I say, that, for the reason just mentioned, we were not able to hold a single male student for graduation during the whole year, it will give you a further idea of how strong the demand is. The last four positions we have just filled were worth \$700, and the position filled previous to these four was worth \$600 per annum, and not one of these filled by a city young man. The outsiders are securing the plums. The city young men seem to prefer some course of training that they can get for nothing, or nearly so, and spend three or four years in the getting of it, and then perhaps not be able to command more than \$5 or \$6 per week when they get through. Why they follow such a course, is more than I can tell; yet they do. It is certainly a "penny wise and a pound foolish" policy, but they must be the judges. Thanking you for your valuable space, I am, Yours sincerely, D. McLACHLAN, Canada Business College, Aug. 13, 1904.
