What is "Khaki"?

In connection with accounts of the fitting out of our Canadian volunteers for South Africa the word "khaki" is seen. Many will wonder what that means.

It is getting to be the correct thing in London just at present to go to the Waterloo station every Saturday morning to witness the departure of the S. African train. The whole army seems to be in good spirits and officers and men are well contented at the prospect of active service, but alas! alas for the appearance. Our friend Tommy Atkins has shed his beautiful red coat for his going to Africa, and assumed instead a gear of colored drill called "khaki" which gives him an appearance in full force which has led to the nickname of "Dustman."

The gorpgeous cloth uniforms are too hot and otherwise impracticable for wear in the South African jungle, while the matter of their being readily soiled by an African downpour is yet another reason for their condemnation. But this drab-colored material, which was first worn by some East Indian regiments and was utilized to good purpose throughout the Egyptian campaign, is said to be proof against rain and sun, and even a good deal resistant to the brambles and other things whatever they are called in the heart of the Dark Continent, so that for use and abuse the khaki suit is considered superior to the average uniform as regards to the front coat and sword trousers of the civilian.
