

SAYS HIS FAITH CAN'T BE SHAKEN

Halifax Man Believes Tanlac Will Rout
Any Case of Rheumatism

"Only those who have been racked with pain by rheumatism as I was, can fully appreciate the way I feel about Tanlac, the medicine that relieved me of all my pain and suffering, and made me a well man," said John T. Davis, who lives at 1 1/2 North Clifton St., Halifax, Nova Scotia.

"I was in a mighty bad way before I started on Tanlac," said Mr. Davis. "For three years I had suffered with rheumatism, and it seemed to be all over my body. But it troubled me most in the shoulders, they would get so sore and stiff at times, that I could not raise my hands above my head, and when I moved my arms it was just as though someone was sticking a knife into them. I also had a dull throbbing pain just like toothache, in my arms and shoulders that would keep me awake for hours, and sudden sharp pains in my legs and knees which would get so stiff that I could barely walk. I had little or no appetite fell off in weight and got so weak and run down it was just about all I could do to stay on the job and I tell you that some days I felt like life was not worth living.

"But now after taking seven bottles of Tanlac I am a well man and happy at the wonderful relief it has given me. I've got a fine appetite and can eat any thing that is placed before me. I've already gained twelve pounds in weight and just feel full of energy and go all the time. But best of all, the rheumatism has left me entirely. My shoulders and legs are as supple as ever and I haven't had an ache or a pain of any sort in my body. Nothing will ever shake my faith in Tanlac after this for I've proved it myself, and have every confidence in recommending it to others."

Tanlac is sold in Hartland by Estey & Curtis Company, and E. L. Field, Bictonfield, and by the leading druggists in every town.

WE WANT TO KNOW

For the period of the war we were content to know only one thing. Are we winning the war, or in the vernacular, "How goes it?" We were told in the beginning by the politicians of both parties that when England is at war Canada is at war. We let it go at that. Today the war is nominally over. We have returned as far as possible to a pre-war basis. Some things are not as they were. The rights of free thought, speech and action are curtailed. The press is not yet free from the taint of Federal and Imperial propaganda. Every day we see obviously inspired articles and items issued in the public press.

The effects of wartime legislation is with us yet. We must shake off the fetters and be free. Today we want to know about many things. Progress can't be made without enquiry and observation. How about the present government? Are the people generally satisfied with the conditions of today? Are we actually governed from Ottawa or from London? Just what say has Canada in questions of peace or war?

Lloyd George, without any mandate from Parliament or people says "We are bound to support Poland to the end, as against Soviet Russia." Who asked Poland to fight Russia? British troops are sent Poland, to Greece, to Ireland, to Russia. Canada bound to assist England in the event of a new war starting up in Europe, Asia or in America?

Australia wished to bar immigrants from Japan. England vetoed it. If British Columbia wished to do the same the same rule applies. We don't know, but we want to know. How about nationalization of railways, etc.? What about the various trusts springing up every day? What about the questions of free trade, fair trade, protection. Who are the real rulers of Canada today?

What about the conditions in the Province of New Brunswick? Is the Government at Fredericton of the people, by the people or for the people? Is it run by millionaire lumbermen, stockbrokers and fanatics? What about that thirty per cent waste of lumber in the woods? Why are the stumpage rates so low when the lumber costs to the consumer are so high? These and many other questions should be fired at our prospective candidates, be they known as Liberals, Conservatives or Independents. If you don't know the answer ask them what they are going to do about it. If you do not get the proper reply, refuse to support them. We need men in these times.

W. H. BRAMLEY

East Centreville, N. B.
(If Mr. Bramley has an eye on the daily press he will have noticed this complaint insofar as it relates to the stumpage rates has been corrected by the government he criticizes.—Editor.)

VOCATIONAL SCHOOL

The Summer School at Woodstock is at present in session for the training of Vocational teachers for this province. The session opened on July 5 and will continue until August 5.

Through the kindness of the Vocational Committee of Carleton county the Fisher Vocational School has been placed at the disposal of the Vocational Board of New Brunswick for the use of the student. The purpose of the summer course is to train the teachers of the province and expert trades-people who are interested in the Vocational Educational movement to act as directors in this form of education in the night schools of New Brunswick; and also to provide expert teachers for the different vocational subjects to be taught.

The course provided at this session are those in home-making, including dress-making, millinery, and the various branches of domestic science for the women; and courses in motor mechanics and practical electricity for the men. Besides these courses lectures are given to the student on vocational methods. The Vocational Education Board have secured for this phase of the work Dr. J. C. Miller who has had a distinguished career as a leader in this work and is now employed by the Ontario Government as Director of Technical Education in that province.

It is proposed to continue this school each summer and provide advanced courses in the above subjects and others for those who wish them.

The Canadian Fairbanks-Morse Company have placed at the disposal of the school a full line of equipment for the electrical and motor mechanics course. The school has been greatly assisted by the generosity of the local firm of Stewart & Armour who have provided equipment in some of home-making courses. Through the courtesy of the Dominion Government tents have been provided for the accommodation of the men who are in attendance.

The Vocational Board has provided for the board of the students by establishing a cafeteria in the building. This has served a useful purpose in giving the household science department an opportunity to give the practical work in cooking to those taking that course. In every way this innovation has been an unqualified success.

The students have already had sev-

Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.
'Fruit-a-lives' is also put up in a trial size which sells for 20c.

eral social functions which have added much to the spirit of the school. A dance was held on Friday evening of the first week, and a bridge party on the following Thursday evening. The lady instructors of the school entertained the ladies of the town at afternoon tea on Friday, July 15. On Thursday, July 22, the churches of Woodstock united and gave a picnic to the student body at Island Park.

A moving picture machine has been provided by the Vocational Board. It is used in illustrating the work and supplementing the lectures. It also also furnishes entertainment for the students in connection with the regular social functions. It is planned to have several prominent speakers address the students on different phases of the work during the season.

The school is very fortunate in having a faculty every member of which is a specialist in his or her subject. Its members are:

Fletcher-Peacock, B.A., Director of Voc. Ed. for N. B. and lecturer in History and Organization of Voc. Ed.

Miss Mallory, Supervisor of Home-making and teacher of Sewing.

Miss Haberman, B.S., instructor in organization and Teaching Methods of Vocational School Economics.

Miss Stewart, Instructor in Rural Home Economics Methods.

Miss Barnett, Supervisor of cafeteria and instructor in Cookery.

Miss Currie, instructor in Elementary Cooking.

A. H. Whitman, B.Sc., instructor in Motor Mechanics and Electricity.

J. C. Miller, Ph.D., instructor in Vocational Training Courses and Methods.

We hope to publish a list of the names of the students at a later date.

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Owen Sound, Ont.—"I suffered for ten years with female organic trouble, neuralgia and indigestion, and was weak and had such bad pains I could hardly walk or stand up at times. When I would sweep I would have to go and lie down. I could not sleep at night, and would wander around the house half the time. I tried everything but nothing did me any good, and the last doctor I had told me he never expected me to be on my feet again or able to do a day's work. One day one of your little books was left at my door and my husband said I should try a bottle of Lydia E. Pinkham's Vegetable Compound. I thank God I did, for it cured me, and I am now well and strong. I think there is no remedy like the Vegetable Compound for anyone who has my troubles, and have recommended it to my neighbors. You can publish my letter for the benefit of those I can't reach."

Why Canadians Should Insure in a Canadian Company

BECAUSE—Experience covering a period of forty-six years has proven that the death rate of insured lives is about 15 per cent greater in the United States than in Canada.

BECAUSE—A Canadian does not need to assist in paying for this extra heavy death rate in a foreign country.

BECAUSE—A Canadian insuring in a foreign Company is sending his money out of Canada. It retained in Canada he and Canadians generally will benefit by its circulation and investment.

BECAUSE—In The Policy-Holders' Mutual Life (of Canada) he can secure his insurance at lower rates and on easier terms than in any other Company.

BECAUSE—The Policy-Holders' Mutual Life (of Canada) was organized for the express purpose of eliminating all objectionable features in Life Insurance.

BECAUSE—In The Policy-Holders' Mutual Life (of Canada) the Policyholder votes and participates in the management on equal terms with the Stockholders.

BECAUSE—By its Act of Incorporation provision is made for the Policyholder voting at his own home if convenient to attend the general meetings.

BECAUSE—By its Act of Incorporation the dividend to its Stockholders is limited and all profits above this limited dividend belong to the Policyholder.

BECAUSE—By its Act of Incorporation no "Gold Bond" policy or anything of a like nature can be issued.

BECAUSE—If Policyholders participate in the annual distribution of profits after the kind of the life of each policy.

BECAUSE—The low rates and annual distribution of profits leave the money in the Policyholder's pockets or return it to him each year instead of its being retained for speculative purposes as has been charged against some Companies.

BECAUSE—Premiums may be paid monthly, quarterly, semi-annually or annually as best suits the convenience of the insured.

BECAUSE—In the Policy-Holders' Mutual Life (of Canada) he will be insured in a Canadian Company incorporated by special Act, especially safe-guarding his interests, thoroughly democratic in its principles and management, with every safe-guard and security to which the strongest Stock Company can lay claim or which government deposit reserve and inspection can secure.
