

The Union Advocate.

Established 1867.

NEWCASTLE, ALBERTA, N. B.

WEDNESDAY, JULY 14, 1880.

THE PUBLIC HEALTH.

There is an old maxim that "an ounce of prevention is better than a pound of cure," and we therefore suppose that the principle involved in this well worn saying has something to do with the recent action of the County Council, in appointing Health Officers for this town, the gentlemen being Doctors A. C. Smith and John McDonald. As guardians of the public health we believe these gentlemen will be found prompt in the performance of their duties, which are, by no means unimportant, dealing as they do with a matter in which all are interested. We do not wish to interfere in any way with the prerogative of the new appointees but we would be recreant to our duty as journalists if we failed to direct their attention to that piece of swampy land lying in rear of the Masonic Hall and residences along Pleasant Street. It is a well established fact that drainage is a feeder to diphtheria and typhoid fever, and although we have some years been mercifully preserved from these scourges, there having only been a limited number of cases for some time past, and only a few attended with fatal results, yet the immunity we have enjoyed has not been the result of the adoption of precautionary measures to prevent their introduction and spread. As we stated some weeks ago, the cellars of the houses along Pleasant Street are seldom dry, are indeed frequently flooded with water from the land to which reference has been made, to the great discomfort and injury of the residents in the district, and we are very decided in the opinion that steps should at once be taken to have the land properly drained. Not being versed in the legal aspect of the matter, we cannot say whether the town will be compelled to bear the whole expense of the cost of draining, but it is not unreasonable to expect that the owner or owners of the field will at least bear a fair proportion of the expense incurred in adding to its value and making it more saleable. This is one of the matters which we hope will receive the early attention of the newly-appointed Board of Health.

Northumberland Municipal Council.

The Council met on Tuesday last week at noon, there being present—The Warden, in the chair. LUTWILL—J. S. Pond, Kenneth Cameron, BLUMFIELD—S. Freeze, Enock Bamford, BLACKWELL—Wm. T. Underhill, E. Hays, NORTHES—A. Adams, Jasper Maddox, SOUTHES—W. S. Brown, Jared Tozer, DUBBY—John Betts, Jas. Robinson, NELSON—John O'Brien, John P. Burchill, NEWCASTLE—Patrick Hays, Jas. Brown, CHATHAM—A. H. Johnson, Wm. Lawlor, GLENES—Jas. Fitzpatrick, Wm. McLaughlin.

On motion, Messrs. Wm. Cottier and Angus Campbell were appointed the constables to attend Council at \$1.00 per day. The Sec.-Treasurer read the Report prepared by him in reference to the lot belonging to the County and now occupied by Mrs. Shaw.

July Sittings, 1880. To the Municipal Council of the County of Northumberland. In compliance with the instructions received from the County Council at last January sittings, directing me to communicate with the Dominion Government with the view of getting them to deed back to the County the land conveyed to them for the purpose of erecting a drill shed thereon, on the 21st of April I addressed the following letter to the Minister of Militia and Defence:

Newcastle, Miramichi, N. B., 21st April, 1880. Sir—I have the honor to enclose a copy of the correspondence already had with the Department of Militia and Defence, in reference to a lot of land conveyed by the Government of Northumberland to the Dominion Government in 1869, for the purpose of erecting a drill shed, and would respectfully refer you to the letter of the Deputy Minister of Militia under date of 18th June, 1877, in which he states that the Dominion Government is to be the owner of the land in question be conveyed to the County.

In view of the fact that, in consequence of the nonfulfillment of the conditions of the Deed, the lot will revert to the County, if the Government does not take immediate action in the matter, the Municipal Council will consider the deed null and void, and retain possession of the lot.

I have the honor to be, Your obedient servant, SAMUEL THOMSON, Sec.-Treas. Co. Northumberland.

To the Honorable the Minister of Militia and Defence, Ottawa.

To this communication I have not received any reply.

I therefore recommend that the Council give the present occupant of the lot notice to vacate the same, and that the Council make such disposition of the lot as will best serve the interests of the County.

Respectfully submitted, SAMUEL THOMSON, Sec.-Treasurer.

It was moved that the Sec.-Treasurer be directed to take action to secure this land to the County, and that he have power to rent or lease the same.

It was moved in amendment that the Sec.-Treasurer take the necessary steps to obtain possession of the lot belonging to the County from the present occupant, Mrs. Shaw, and that he be authorized to advertise the same at public auction, at the upset price of \$2000, and if it cannot be sold at that price or more, to lease the same to the best advantage from year to year until a sale can be effected.

The amendment was carried.

Councillors Bamford, Pond and Underhill were appointed a Committee to visit the County Almshouse and report at the present sittings.

EMPLOYMENT FOR PRISONERS.

The following resolution dealing with this important matter, was passed: Council Room, July Session, 1880.

Whereas the great expense incurred upon the County by the prisoners in jail, it is the opinion of this Council, that if it could be procured for the prisoners and lessened the expense.

And whereas such employment cannot be provided unless a suitable yard is prepared, get plans and specifications for a fence, and make estimate of the public cost and report to this Council in January 1881.

A Committee was appointed, consisting of Councillors Adams, W. S. Brown, James Brown, Johnson and Betts.

The Committee proceeded to procure earth water closets for the gaol reported that they could not procure them for the price to which they had been limited.

Doctors John S. Benson and John McCurdy were appointed Health Officers for the town of Chatham.

Council adjourned.

WEDNESDAY, JULY 7.

Council met at 10, the Warden in the chair.

A letter from Councillor Savoy, asking to be excused for absence on account of sickness, was read, and request granted.

Councillors Johnson, W. S. Brown, Cameron, Adams, and James Brown were appointed Committee on Public Accounts.

On motion James Hay was appointed Inspector of Fish, and John Hays Pound Keeper for lower district, Newcastle, during the present year.

On motion Doctors A. C. Smith and John McDonald were appointed Health Officers for the town of Newcastle.

On motion it was resolved that until a new valuation for the County be made, the Sec.-Treasurer, in apportioning the school and contingent assessment for Northesk and Southesk to do so in the same manner and on the same basis as the Alms House assessment for the said Parishes.

Councillor W. S. Brown, made application, under oath, praying for an abatement of the amount assessed upon him to the Parish of Newcastle, he having no such income as \$800. On motion it was resolved that the Collector of Rates be directed to abate the tax on income.

On motion the Council proceeded to pass the County Accounts.

COMMITTEE'S REPORT.

July Session, 1880. To the Northumberland Co. Council.

Your committee appointed on the County Accounts beg leave to submit the following Report:

1. That with few exceptions your committee found the accounts satisfactory.

2. Your committee would recommend the examination of the Alms House of the County to the Sheriff and Gaoler for which the County pays the Sheriff the sum of \$288 per year, and as there are no other duties of the Sheriff and Gaoler performed by the gaoler, and which may be the Sheriff's duty to have performed.

That a committee of three be appointed to define the duties of the gaoler and report at the next January session.

A. H. JOHNSON, W. S. BROWN, A. ADAMS, KENNETH CAMERON, JAMES BROWN.

On motion Councillors Johnson, Jas. Brown and Lawlor were appointed a Committee to define duties of gaoler.

The Petition of Arch. Wright, Newcastle, was read. The petitioner while working in one of the mills some years ago lost all the fingers of his right hand, which has rendered him unfit for many kinds of labour by which he could support himself, and prayed to be relieved from payment of his school and parish rates, amounting to \$3.90.

On motion the prayer of the petition was granted.

The Councillors' accounts for mileage were passed, amounting to \$93.40.

THE ALMS HOUSE.

The Committee appointed to examine the Alms House reported as follows:—

July Session, 1880.

Your committee to whom was referred the examination of the Alms House of this County, beg to submit their report.

We visited all the rooms of the institution, as well as the cellar, barn and store room, and found every part of the premises in a satisfactory condition, and reflecting a very great amount of credit on the keeper as well as others who have charge of the same.

We also found the inmates clean and tidy, and well satisfied with the usage they received.

Respectfully submitted this 7th day of July, 1880.

ENOCK BAMFORD, WM. T. UNDERHILL, JOHN S. POND.

On motion resolved, that the lot of land belonging to the County, and now in possession of Mr. A. Davidson, be held as the property of the County.

On motion resolved, that five be appointed to report at next January session on all County lands now illegally occupied. Councillors O'Brien, Robinson, Adams, Tozer and Loggie were appointed.

On motion resolved that a vote of thanks be tendered to the Warden for the able and impartial manner in which he had discharged the duties of Warden. Council adjourned sine die.

Entertainment.

The entertainment given by the pupils of St. Mary's Academy, on Thursday evening last, was a well conducted and successful affair, reflecting credit upon the youthful performers as well as the ladies under whose tuition the pupils had made diligent preparation. There was a large audience, all of whom seemed to enjoy the various performances of the young people.

The programme opened with instrumental music—"Luzerza Borgia"—by four performers; first piano, Mary Ann Hall and Mary Ann Quigley; 2nd do, Mary Wheeler and Cecilia Keating.

Who? Let Music and Song be our pastime to-night. Solos by Mary Buckley and Ellen Wheeler, chorus by full choir.

This was followed by a charming Operetta called "Lalla," or the Reward of Charity," the impersonations being all that could be desired. To describe it at length would take considerable space. To do so briefly we may state that the piece opens with a scene showing a num-

ber of convent children enjoying a happy festival day; while doing so a beggar woman with two children approach asking charity—the children, not caring to have their sports marred or interrupted beckon them away—but one of their number, Lalla, pleads their cause, and the wanderers are received and kindly cared for. Another scene, and Lalla, who has wandered away from her companions is lost in the woods; bewildered, she prays for deliverance, and shortly after twelve fairies, accompanied by the Queen; all most exquisitely dressed, and having golden wands in their hands, appear to the lost one, by whom she is restored to her grief-stricken and loving school friends. The Queen of the Fairies proposes that Lalla shall be crowned Queen of the festival day, and on being interrogated for the reasons, the Queen refers them back to the interview with the beggar woman, who has no less a personage before them in disguise to see who among them all should be deemed worthy to receive the honor. The last scene was illuminated and was much and deservedly admired—in the centre the Queen of the Fairies was in the act of crowning the kneeling Lalla, while around were the Fairies and the Convent children. Mary Ann Hall acted well the part of Queen of the Fairies; Mary White made an excellent Lalla, their efforts being ably seconded by the creditable performance of the little Fairies and Convent children.

The next was a duet—"Come, Birdie Come," pianos and organ. List, Birdie, May Adams and Maggie Carter; 2nd piano, Mary Holohan and Minnie McDougall, (daughter of A. K. McDougall, Esq., Oak Point); organ, Mary Wheeler, Katie Fay.

Vocal quartette—"The Last Rose of Summer," by Ellen Wheeler, Maggie Cullen, Mary Buckley, Minnie Holt, Ellen Wheeler taking the solos.

The dialogue, "Justice and Mercy," with Minnie Holt as Justice and Mary White as Mercy was well rendered, the enunciation being distinct, and the acting good.

The comic duet "A. B. C." between M. A. Quigley and Mary Buckley created some amusement.

Song "Sweet Echo," in which the solos were taken by Maggie Cullen, the echo parts by Ellen Wheeler. Chorus by full choir.

A "Slight Mistake" proved to be a comic drama indeed, the characters being well acted by M. A. Quigley, Ellen Holt, Mary White, M. Holt, the former sustaining her part reputation for comic impersonation.

The duet "Gazza Lada" was performed on the three instruments. Miss Della Dixon and Ellen Hall presided at the first piano, Mary White and Minnie Holt at the second piano, and M. A. Hall and G. Overton at the organ.

Address by Mary White, who always acquires herself creditably on such occasions.

"Good Night! Sweet Good Night!" by full choir.

The accompaniments to songs were played by Ellen Hall, M. A. Hall, and Sister St. Antoine.

His Lordship Bishop Rogers made a few remarks, expressing his thanks to the many persons who had patronized the entertainment, and complimenting the children upon the excellent way in which they had performed the various parts allotted to them. His Lordship also addressed a few words of praise to the ladies of the County for services performed by the gaoler, and which may be the Sheriff's duty to have performed.

That a committee of three be appointed to define the duties of the gaoler and report at the next January session.

A. H. JOHNSON, W. S. BROWN, A. ADAMS, KENNETH CAMERON, JAMES BROWN.

On motion Councillors Johnson, Jas. Brown and Lawlor were appointed a Committee to define duties of gaoler.

The Petition of Arch. Wright, Newcastle, was read. The petitioner while working in one of the mills some years ago lost all the fingers of his right hand, which has rendered him unfit for many kinds of labour by which he could support himself, and prayed to be relieved from payment of his school and parish rates, amounting to \$3.90.

On motion the prayer of the petition was granted.

The Councillors' accounts for mileage were passed, amounting to \$93.40.

physiology &c., &c. Some of the best physicians of a town were secured to give talks upon the use and abuse of the eyes, the teeth, the skin &c., &c., thus developing among the young people a taste for healthful and proper methods of using the winter evenings.

It has been found that in every town there were many who even were not Christians yet were dissatisfied with the useless and nonsensical ways which were wont to tempt largely by the young people. These were always glad to hail such efforts of the Association Meeting on Sabbath to be led by Mr. Weeks.

The meeting was very much enjoyed by all present, many of the audience for the first time getting an insight as to the real work and object of the Associations.

As an Association for Newcastle is now almost a certainty, we hope that the work, when entered upon will receive the countenance and hearty support, not only of persons in full connection with the churches, but also of all who take an interest in the spiritual, moral and intellectual condition of the young and rising generation.

Notes from Kent.

Richibucto, July 3.

The Bazaar and Picnic held here on July 1st and 2nd, in aid of the convent and school at Kouchibouguac, was brought to a close on Saturday evening by the drawing of the prizes in the several lotteries. The Bazaar itself was well patronized throughout the whole of Dominion Day, and was an especially attractive one. During the day the grounds around St. Patrick's Hall were thronged with visitors from all parts of Kent County, while many came from other counties, and also from Prince Edward Island. Dancing, foot-ball, and various games were engaged in by the crowd, who seemed to thoroughly enjoy themselves. In the evening a concert was given by the pupils of the convent school, which was thoroughly enjoyable. Bishop Rogers of Chatham, with several of his clergy, was in attendance, and at the close of the concert addressed the audience in his usual happy manner, complimenting the pupils on their proficiency, and congratulating the teachers on their success. Addresses were also made by other gentlemen. On Friday morning the chief interest centred in the procession to the fane of St. Louis, by the teachers and pupils of the schools there; and in the afternoon the Bazaar was again opened. So steady was the flow of visitors that the Bazaar was concluded the whole affair by the drawing of the lotteries. In this, everything was conducted in a most fair and impartial manner, under the immediate supervision of the Rev. Mr. Richard. The following are the names of the prize-winners:

Ed. Harnett, Richibucto, sofa-cushion. A. McMichael, St. John, bedroom set. Dr. Moody, Richibucto, Swiss clock. Mrs. Jas. Jardine, Richibucto, gold watch. R. McDonald, Kingston, motto.

Miss Francis Girouard, Richibucto, sofa cushion, very fine. Wm. White, Richibucto, handsomely worked chair.

M. Babinot, St. Louis, doll and bedstead. Geo. Conroy, Richibucto, gold studs. M. Flanagan, Richibucto, sofa cushion. Chas. Nicholson, Carleton Station, ornamental clock.

Miss Sadie Hannah, Richibucto, dressing gown and smoking cap. Dan. Chambers, Kouchibouguac, sofa cushion.

Mrs. Wm. Wheten, Richibucto, tidy. Miss Ella McDonald, Kingston, mat with dog.

At the concluding of the drawing Rev. Richard announced that the proceeds of the Bazaar, &c., were \$1,150.50.

SUDDEN DEATH.—A man named James Olson, who was engaged with others in loading a ship with grain at the public wharf this p.m., complained of feeling rather dull and unfit for work, and went to his room to rest himself. He was soon after aroused by some of his fellow workmen, and on attempting to move, fell down. An examination proved that he had died. Coroner Moody was sent for, and at once entered upon an investigation. The jury brought in a verdict of "Death by the visitation of God."

Wm. White, Richibucto, old, and leaves a wife and two children.

SHIP LAUNCH.—I accidentally omitted to notice in my last, the launching on Friday evening last, for the purpose of hearing the addresses of the Delegates from New York, in connection with the Y. M. C. A. work—the gentlemen referred to being Mr. Geo. A. Hall, State Secretary Y. M. C. A., New York, and Thos. R. Cune, Travelling Secretary for the International Committee. There was a good crowd present on the occasion, the singing being that could be desired—the various selections of songs, hymns being rendered with sweetness and spirit. After singing two selections, prayer was offered up by Mr. Grierson, Evangelist.

Mr. Cree gave a brief Bible reading, followed by earnest, practical remarks which must have made a deep impression on all present. He gave a brief history of these valuable organizations. He said the first Young Men's Christian Association was organized about thirty years ago; now they circled the globe. Christian Associations were found in such cities of sacred memory as Nazareth, Jerusalem and Damascus, commercial cities such as Hong Kong, Yokohama, Calcutta, and Cape Town, and in nearly all the cities of any commercial importance in the world. In the United States and the Dominion of Canada there are nearly one thousand Associations, having a membership of nearly one hundred thousand, owning property to the value of nearly three millions of dollars, and employing one hundred and sixty one general secretaries who give all their time to define work for young men. The object of the Young Men's Christian Association is not to evangelize the churches—but it is a mission of work by young men for young men. Mr. Cree spoke of the various religious agencies which the Associations used, such as young men's prayer meetings, cottage meetings, praise and promise meetings, song services, meetings in the jail and neglected districts, a systematic visitation of vessels at the wharf, and the inviting of young men to church, sabbath school and the association meetings, and closed with an appeal to young men to do personal Christian work for young men.

Mr. Hall followed with a most earnest address, commencing with a few remarks upon the Bible reading selected by the preceding speaker. In referring to the work of the Association he said it was two-fold, first, as Mr. Cree had fully explained, religious work for young men and by young men, and second, social, secular, intellectual and moral work for the young of any town. He stated how the States very largely the young people were given over to the Association to seek to organize the young people with Committees for intellectual and moral improvements. They had literary societies, gatherings, with music and readings, recitations, debates, &c., &c. Also familiar talks on travel and history, science,

astronomy, the fishing schooner P. L. Whitton, returning from St. John to the Grand Banks, fell in with the two boats' crews, all well, took them on board and brought them in safely to St. John last night. No trace however, of the money of the unfortunate Rees has been found.

UNSATISFACTORY EXPLANATIONS.

When Captain Lloyd was interrogated as to the reason of his not waiting for or attempting to rescue Rees, he replied that he was a very powerful man and he feared to board the ship lest he should fling him overboard. No two individuals from the ill-fated Titania reproduced the same or even a consistent account of the unhappy occurrence. It is not surprising, therefore, that a dark cloud of suspicion has settled on the whole affair, and that a challenge not to be ignored has been addressed to the judicial authorities of Newfoundland to probe the matter to the bottom.

Mid-Summer Public Examination of Chatham Grammar and High Schools.

The oral examination took place in this school on the 9th inst., lasting from half-past nine till half-past one. Classes were examined in French literature, arithmetic, geography, composition, and English literature. After several recitations, dialogues, readings, &c., by the scholars, the prizes were distributed by Mr. Crimmon, as follows: In the senior grade, Ernest A. McKay was awarded the Governor General's medal, with a general average of 88.5 out of 1,000; Thomas Maquis took the second prize, a set of mathematical instruments, given by the trustees, with an average of 86.7. The subjects the senior grade were examined in for the medal, were, Latin, Greek, French, English literature, geometry, algebra, arithmetic, geography, Roman history and grammar, and analysis.

In the junior grade, William Kerr carried off the Governor General's medals, a prize given by Mr. Snowball, his average being 91.1; Dickey Davidson won the second prize, with an average of 87.7.

E. A. McKay, T. G. Marquis, and Bessie E. Light, then received certificates of graduation, having passed highly satisfactory examinations in the full course of the school.

McKay read a valedictory address, and after speeches from gentlemen present the school was closed for summer vacation.

All the prizes were competed for by written examination, and the average daily standing for the term was taken into account.—Telegraph.

Reciprocity with Canada.

The special correspondent of the New York Herald writes under date of April 2nd:—There was an interesting and important session of the House Foreign Affairs Committee to-day, during which the former treaty was abrogated, and a new Canadian reciprocity treaty, subject of whose present being the members of the committee were Representatives Bowman of Massachusetts, Messrs. Bates and Powers of the Boston Board of Trade, and Mr. Hersey of Portland, member of the National Board of Trade. In introducing the gentlemen from Boston and Portland, Congressman Bowman made a brief recapitulation of the facts pertaining to our commercial relations with Canada. He referred to the treaty of the former reciprocity treaty, and commented on the unfortunate political complications during the rebellion, which induced politicians in a spirit of revenge, to abolish the treaty without rhyme or reason. He said that for fifteen years there had been quietly urged by many the argument that if the United States would refuse to make another commercial treaty Canada would be made to suffer and the cause of annexation would be thereby advanced. He regarded this as an unworthy political delusion, and as the former treaty was abrogated by us against the wishes of Great Britain, we are expected to take the initiative for the negotiation of a new treaty. He regarded the present as a peculiarly good time for taking the first step in this direction. Delay would be dangerous, and would put our commercial interests in jeopardy, inasmuch as the results of the new Canadian tariff will be to build up Canadian manufactures, and after large amounts of capital have been thus invested, opposition to a commercial treaty with the Canadian will be greatly increased. The cry of invested capital will be raised against it. Already large sugar refineries were being established in the Dominion, and our sugar trade of four millions per annum had been nearly wiped out. Our petroleum and coal trade was in like manner doomed by reason of the retaliatory features of the new tariff. Mr. Hersey, of the National Board of Trade, concurred in Bowman's statements. He thought that the longer a new treaty was postponed, the more unfortunate would become the conditions. Mr. Bates said he and his colleagues appeared before the committee as protectionists, or revenue reformers, or politicians, but as merchants, for the purpose of asking Congress simply to appoint a commission on what best a commercial treaty can be negotiated for the mutual benefit of the United States and Canada. He said that the Canadian tariff had been in amount next to our trade with England. It was now threatened with great decrease, owing to the new retaliatory tariff of Canada, which he said had been prepared by Dr. Edward Young, formerly Chief of our Bureau of Statistics. Mr. Bates presented many interesting facts to show the injury which must result to our trade unless we succeed in effecting some understanding with Canada whereby the mutual policy of both countries may be done away with. He occurred in Mr. Bowman's statement that we should take the initiative before the new Canadian tariff resulted in producing a hot-house growth of manufactures of all sorts, thus arraying large Canadian interests against the proposition to reciprocity. Mr. Bates read resolutions of the Buffalo Board of Trade endorsing the plan of appointing a commission. He also read a recent letter of like purport from the Philadelphia Board of Commerce, President National Board of Trade. Representatives of the New York Chamber of Commerce and the Produce Exchange will be heard to-morrow.

NORTHUMBERLAND BYE ROAD APP
