YARNS, SHIRTINGS, FLANNELS, BLANKETING, RUGGING, HOME-SPUNS, TWEEDS, OVERCOATINGS, AND DRESS GOODS.

These goeds need no introduction to you as for the past ten years I have called upon you. You have seen that great improvements have been made each year in the style, coloring and finish and this year is no exception. I am confident that I can offer you goods not excelled by any mill in the maritime provinces, and as this will be the last season I will call on you in this century I trust you will continue to give me the patronage you have so generously bestowed in the pat and as sist me to make my sales the largest of any year I have had the pleasure of dealing with you. I am,

Yours very truly,

An Ohio Man's Ideal Cow Stable.

I want my stable above ground. No cellar for me, as I do not believe cows relish being confined in a dungeon any more than a man does. Give them all the sunlight possible. I never saw a stable with the wound and bring the edges of the wound and bring the edges of the wound and bring the volument the wound and bring the edges of the wound and bring the wound and set with spall the wound and bring the wound and bring the wound and set with spall the wound and bring the wound and bring the wound and bring the spall the wound and bring the wound and bring the spall the wound and bring the spall the wound and bring th

CAMBRIDGE, April . h, 1899.

A Rare Chance for Business.

Owing to ill health I have decided to sell my interest in the Mill at Gagetown Wharf. The building was intended for a grist mill in the upper story. The Rotary and Belts are the best. A 48 inch-inserted tooth Saw. Only a few feet from the Public Wharf.

There is also in position for work a Maple Leaf Grinder which has only been used a few weeks.

For further particulars inquire or write to R. DEB. SCOTT. Gagetown, N. B.

up for next year. From this land he se-

of trimming sheep on the ground that it is an attempt to deceive, says Professor Thomas Shaw in The Northwestern Farmer. There is only one way of looking at it. The aim of the average man who trims sheep is not so much to deceive as to improve the appearance of his wares. To that end a horse is groomed. It is to improve her appearance that a maiden decorates her hair. It improves the appearance of a sheep to have him the centre through which the probang passes. Oil the probang and let one man take hold of the animal's horns of ears, while another passes the probang through the hole in the gag and back into the gullet. Press gently until the object is felt; the stomach, too masheep, the attempt/the hide its weakons sheep, the attempt/the hide its weakons sheep it is allowed the pressed down the gullet, as it is almost sure to supplie the hide its weakons sheep it is allowed the pressed down the gullet, as it is almost sure to supplie the hide its weakons in the first of the end and tie a piece of string around it to form a soft knot, grease this and it, also they cannot hold their own a little of the end and tie a piece of string around it to form a soft knot, grease this and it, also they cannot hold their own a little of the end and tie a piece of string around it to form a soft knot, grease this and it

stand it, else they cannot hold their own in the fierce competition of today. In this we have a powerful argument for teaching agriculture in our colleges and in giving every attention to the short course in on the rullet with an knife, making an on the rullet with an knife, making an these colleges. Young men of the farm, look into the short course at our agricultural colleges. It can do you much good. You ought to take it when it is not possible for you to take the longer and fuller

too many windows to suit me. If you are building, by all means, look well to your water supply. If possible to do so, build where you can have the advantage of running water in your stables. If you cannot do this, be sure you get a supply of well water, at all times in the year at a reasonable depth. After you have fitted up your stable with modern devices for
