### Austria and Hungary at High Tension

Paris, July 10—High tension between the Austrian and Hungarian governments is indicated in despatches received here today from Vienna and Budapest. The Austrian Foreign Minister, Dr. Otto Bauer has demanded the recall from Vienna of the Hungarian Minister, Czobor.

Bela Kun, head of the Hungarian Soviet government, in return, has demanded that the campaign against the Hungarian legation at Vienna be stopped.

The despatches report that supporters of Bela Kun are entering Austrian territory.

### No Canadians in Celebration in London

London, July 9—Some disappointment is expressed that no Canadian troops are apparently to figure in the great peace celebrations here July 19. The Allies invited include three thousand Americans, also French, Italians, Belgians, Japanese and even Chinese. The Canadian official explanation to The Star's representative is that no Canadian unit is available for show.

Approximately 28,000 Canadian troops are now overseas, including 1,400 reconstructing Canadian canteens in France, 5,000 hospital patients several thousand on hospital stores, and administrative staffs, 51,000 returned to Canada in June. The program for July estimates return of all available men and dependents, a total of 35,000. Only the essential staffs and hospital patients will remain after July 31.

### Want Blockade Raised

Paris, July 10—The official text of the German National Assembly's repudiation of the peace treaty will arrive shortly, by a special courier from Weimar. Baron Kurt von Lersner, head of the German peace mission, announced today in a talk to Premier Clemenceau at the Peace Conference.

Baron von Lersner asked that the blockade against Germany be raised, and that prisoners of war be liberated as soon as possible.

### Warship Renown to Bring Prince

London, July 10—(Reuter's)—Reuter's learns that the warship Renown escorted by two cruisers, will probably take the Prince of Wales to Canada.

Those who will attend the Prince of Wales on his visit to Canada will be his private secretary Sir Godfrey Thomas; equerries, Captains Lord Claud Hamilton and Hon. P. W. Leigh. These are members of the Prince's household.

The following special appointments for the tour are approved by the King: Chief of Staff, Rear-Admiral Sir Lionel Halsey; Naval Aide; Commander Dudley North; military secretary Colonel E. W. Grim.

### Watering Farm Horses

Walter Moore, a well known writer, says:—"It is a common thing for farmers to work horses in the hayfield from morning to night, watering them only at noon. This is done even on days of excessive heat. The driver usually has two or more refreshing drinks in the middle of the morning, and again in the afternoon; but the horses, who are equally as thirsty, go without. This want of water is not only distressing, but it causes the horses to drink to excess at noon and again at night, which often results in colic, and always tends to produce a distended stomach, or what farmers call a 'hay belly.' Farmers who would treat their horses humanely should take water into the field for them in hot weather.

### Blackville School Standing

Grade IV. (a)—Christina Underhill, 1; Harry Pratt, 2; Alton Underhill, 3.

Grade IV. (b)—Emerson Smith

Grade III.—Millet Jardine, 1; Melvina Jardine, 2; Sevilla Jardine, 3.

Grade II. (a)—Elsie Coughlan, 1; Annie Warren, 2; Jennie Corney, 3.

Grade II. (b)—Verna Underhill, 1; Lottie Jardine and Dorothy Underhill, 2; Jessie Underhill, 3.

Grade I. (a)—Shirley Sturgeon, 1; Leslie Crawford, 2; Helen Smith, 3.

Grade I. (b)—Janie Vickers, 1; Greta Vickers, 2.

Grade I. (c)—Doris Underhill, 1; James Underhill, 2; Ward Corney, 3.

### COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco. Take a small pinch, for a quart, and put it between the lower lip and gum, in the centre. Afterwards you can increase the size of the pinch to suit the strength of the chewer you desire. Copenhagen is strong because the tobacco of which it is made is not like the usually concentrated plug but like one of the finest quality, being made of the best, the light, high-navigated tobacco.

### American Travellers Want Private Ownership

The Traffic Club of New York, with a membership of eleven hundred, of which the majority consists of users of the transportation systems of the country, has adopted the following resolution:

That Government ownership, management or operation of railroads is not conducive to economic efficiency, and that private initiative, enterprise and responsibility in the creation, extension, improvement and operation of the American railroads should as a matter of national policy be fostered and preserved.

That the extension of the present system of Federal control for a period of five years, or any extension beyond the limitation now prescribed by law of one year and nine months after the proclamation of peace, is earnestly opposed as prejudicial to the public interest.

That the recognized ineffectiveness of continuing the Government operation of the railroads for twenty-one months after peace under the present law is a conclusive reason why the proposition should be relinquished, and that in view of the termination of hostilities, it should be the policy of the Railroad Administration to restore the integrity of individual property and prepare for their return to the respective owners.

That the principle of reasonable, responsible and adequate Governmental regulation of transportation facilities is recognized and accepted; but that such regulation should provide for the encouragement, protection and development of the railroads.

That the Congress should promptly enact such revised legislation as will provide a uniform system of regulation in essential matters, safeguard the public interest, ensure adequate revenues to provide for equitable treatment of all questions affecting wages and working conditions of employees and attract sufficient capital to maintain and develop transportation facilities which shall meet the necessities of the commercial manufacturing and agricultural interests of the country.

That energetic efforts should be exerted to accomplish the early return of the transportation systems of the country to the control and management of their owners, and the enactment of suitable legislation for the protection of the shipping and traveling public, the carriers and their employees.

### For Your Convenience

THE saving of the extra steps and extra motions has been shown to be a big thing in the business world. Efficiency engineers at fancy salaries have been hired to study the most convenient ways of getting work done. The biggest industries have proved that convenience pays, and it is the same in the household.

**EDDY'S MATCHES & Indurated Fibreware**

enable the housewife to save many extra steps and extra motions which may be unnoticed at the time, but which require time and energy just the same.

Eddy's Washtubs and Pails are easier to lift, easier to move, and keep the water hot longer. Eddy's Matches are safe, reliable and non-poisonous. They have been standard in Canada since 1851.

Small things? Perhaps. But your end-of-the-day fatigue is the product of many such small things. And that is a big thing.
