Dear Mother:

Advice On Diphtheria And Scarlet Fever

The following special article dealing with diphtheria and scarlet fever, written by Dr. G. F. Melvin, chief health officer of the province, is timely and valuable: Scarlet fever is, perhaps, one of the most contagious diseases known, contractible by means of close personal contact. It may be also conveyed by clothing and, in rare instances, by household domestic animals (such as dogs and cats) especially the latter.

It is much more common in children and young people than in adults because, among other things, adults are less likely to contract it than the former class. Although usually the disease is not very dangerous to life yet occasionally cases occur which are rapidly fatal. In any case, moreover, no matter how apparently light, serious constitutional effects may result after the fever itself has passed away, if proper precautions be not taken. For this reason it is essential to safety that a physician be called whenever scarlet fever shows itself, or is suspected.

Germany To Sign Treaty January 6th

Paris, Dec. 30—Exchange of ratifications of the treaty of Versailles will take place January 6 at the Quai d'Orsay. Baron von Lerner, head of the German delegation and Paul Dutasta, secretary of the Peace Conference, tonight settled all points in connection with the signature, except that relating to naval material which it is expected will be solved shortly. The Germans will sign the protocol at the same time the Allies will hand a letter to them agreeing to reduce their demands to four hundred thousand tons if the total available tonnage has been over-estimated, or Germany's gravely menaced economically. In any case after the signature, the Allies will get 242,000 tons of material, and the balance based on the report of experts who are now checking up at Danzig, Hamburg and Bremen.

The British Prime Minister, David Lloyd George, will be present at the ceremony, which will be carried out without any display. Diplomatic relations with Germany will be resumed the following day, when the French Charge d'Affaires will go to Berlin and French consultants will resume their posts. Alien troops will proceed on January 12 to the territories which must be evacuated by the Germans or whose plebiscites are to be held. It is estimated that 100 trains will be needed for this purpose.

Flour Prices Receive Boost

Wholesale grocers were notified by milling companies that the price of flour has been advanced from date \$2.25 per barrel. This means an advance in the retail price of ordinary flour almost to fifteen dollars per barrel. The price is \$14.90. The increase follows immediately on the decision at the conference between the milling interest and the Wheat Board on Saturday at which the price of wheat was advanced from \$2.30 to \$2.80 per bushel and the millers were allowed to advance flour prices in proportion. The increase will place an added burden on the householders and all others who purchase flour.

Notice To Advertisers

The co-operation of advertising patrons is requested in the direction of getting "copy" into the office on or before 5.30 p. m. on Monday. Very often the receipt of a large advertisement or even regular changes after that hour serves to dislocate the regular work of getting the paper made up in time to catch the mails—and not infrequently such ads. are at the last moment left out. This situation is not of service to either the advertiser or our readers and we, therefore, request that copy be received in the office before 5.30 p. m. on Mondays.

A Female Henry VIII. "Be careful in dusting those portraits, Mary," said the mistress to her new help, "they are all old masters." A look of amazement came into the girl's face. "Gracious, ma'am! she gasped, "who'd ever thought you'd been married all them times."

OXO CUBES

A CUBE TO A CUP

TINE OF 4 10 50 AND 100 CUBES

Woodland Farm, Wednesday Morning

Dear Jane, At last I've found a moment to answer your very welcome letter. That's as far as I got, when I heard a terrible noise in the kitchen, and rushing in, found that Bobby had pulled a pan of boiling water off the stove and scalded himself badly. Just imagine!—and I ten miles from the nearest doctor and no one here to help! Thank goodness Tom has always insisted upon keeping Zam-Buk in the house. The poor little chap was in such awful pain it was all I could do to hold him while I plastered the Zam-Buk on his arm and leg. Then I bound them up with strips torn from an old sheet, and now he's actually asleep! Could you believe it? I always knew Zam-Buk was good stuff, but I'd no idea it was so wonderful for ending pain. Whatever should I have done without it! This started out to be a letter, but it sounds more like a testimonial for Zam-Buk! I'll send it off anyway, because I want to ask if you'll please send me half a dozen boxes of Zam-Buk as soon as you get this, as I have only enough for one more dressing. Yours in haste, Mary

Mother! Take the hint! Never be without a box of Zam-Buk on the shelf. Not only for scalds, burns and cuts, but for eczema, ringworm, ulcers, blood-poisoning, piles, cold sores, etc. It is without equal. And it costs no more than ordinary ointments. 50c. box, all dealers.
