S. MILLEY.

United States in connection with the Solling process. Wattle and Martin of Bay Roberts, are doing well, and "Arch" is just as much entitled to a picnic as the Morris's and the other elected members of the People's Party.

PICNIC No. 8. Hon. S. Blandford has been to Canada. He should have gone into the cause of the Potato Canker. "Syd" is also doing fine.

PICNIC No. 9. Mr. William Woodford is also at present in Canada. William will not sell the country. He is too straight and honorable a public man for that. Will William have a bill to present by and by?

PICNIC No. 10. James P. Howley also went to England this summer "to enlighten the Londoners on the rise and fall of the Beothucks, and the minerals they left behind them." Mr. Howley was more entitled after his many years of good service to a holiday, than either Mr. Seymour or Mr. Solling, of Denmark.

PICNIC No. 11. Mr. Joseph O'Reilly also had a picnic touring Canada on the Solling Process of putting Codfish in black envelopes and shipping them by express without any postage stamps. He also visited the British Isles and the Dutchman's land.

PICNIC No. 12. Mr. Solling, of Denmark, also had a trip at the Colony's expense.

PICNIC No. 13. The Hope of God's Poor, Mr. Seymour, has been touring in the Dominion of Canada and all over Newfoundland talking agriculture at the rate of say \$150.00 a month and expenses. It is said he is now looking for a permanency.

PICNIC No. 14. Richard Devereux is also touring, talking agriculture and examining bad potatoes at a salary say of \$150.00 a month and travelling expenses. He is not looking for an increase. He is looking for a permanency. Richard is anxious to get in out of the wet.

PICNIC No. 15. Dr. Laurence Eugene Keegan has also had a glorious time in Ireland, near "the bog of Allan." He is interested in a new boiler for the Hospital and also an incinerator to burn up noxious matter. We would suggest he try it on the manuscript of the article that he contributed during the last campaign.

PICNIC No. 16. P. T. McGrath also had a picnic this year in N. S. and Ottawa. P. T. negotiated the tax on Iron Ore, and was paid \$2,500 for the job. He paid his expenses out of the \$2,500. He is looking for the Cashiership of the Savings Bank; and report has it he will get it.

PICNIC No. 17. John R. Bennett visited Canada and the U. S. Whilst there he studied plans for a new Poor Asylum. John is not going to charge for his report, but his expenses, well—we shall see. John is also an applicant for the Savings Bank. But John is getting used to disappointment by this time. But we'll not anticipate trouble.

PICNIC No. 18. Joseph Downey, or more familiarly known as Joe, is having a grand time. He has been away studying dredges potatoes and flat Dutch seed. Latterly the Government have employed him to write Agricultural Notes for the Press. Joe probably gets as much out of the Government as Dick.

PICNIC No. 19. Captain Wm. Winsor, M. H. A. for Bonavista, is having the picnic of his life on Labrador. "Judge" Winsor's picnic will cost many Thousands of Dollars. He reports no COD.

PICNIC No. 20. Hon. John Crosbie is not taking a picnic abroad this summer. He is having a better "picnic" amidst the pickings here.

PICNIC No. 21. Professor Robertson, from Canada, had a real good time here telling us about Agriculture. What this will cost we don't know.

PICNIC No. 22. Professor McPhail, from Canada, was also having a jolly good time here telling us how to grow potatoes without canker.

PICNIC No. 23. Patrick O'Brien McManus was imported from Ireland to teach us how to cut peat. Patrick will get about \$1,000 a year and his picnic expenses.

PICNIC No. 24. Michael O'Donoghue O'Leary, from Antrim, was imported at the same time to assist MacManus in bog cutting; when last heard from he was at Fields singing: "The Green Fields of Ireland I left far behind." Michael will be paid say \$1,000 and expenses. Michael must feel convinced there is nothing in Ireland to equal a Government picnic in Newfoundland under a Morris Government.

PICNIC No. 25. We see by the English Press that the Government have entered into an agreement with two Geologists to look over and report on our Mineral areas.

NEW FURNITURE ODDMENTS THIS WEEK

The "Picnic" Government.

Fishermen Cry for Bread--Politicians and Government Officials Revel in Picnics.

Editor Evening Telegram: Dear Mr. Editor,—The failure of the Labrador fishery and its effect on our people prompt me to write a few words on the political situation in Harbor Grace. This town was always a Liberal stronghold, but many of us foolishly went into the fold of the People's Party, because we honestly believed that Sir Edward Morris and his candidates intended doing something for this District. In his speech he promised almost everything under the sun. The sealers were to get current bounties on the icebergs. "Elect me," he shouted, "and I will force the merchants to give the men peas, beans, and a bill of fare equal to a good hotel." Oh, Sir Edward, how you fooled us Baymen, but you won't be able to do it always. I can almost kick myself every morning for being such a fool as to believe you. Then, again, we were told by Sir Edward that we were to have a grand Dry Dock. Mr. Seymour was bobbing up and down in every corner of the District, telling us about this new Dock; he is now laying low, looking after "God's Poor" and the Potato rot, etc., at a salary of, it is said, \$150.00 a month and travelling expenses. Sir Edward also told us that we were to have a new public building in place of the "shack" that Sir Robert Bond built; we have no new building, and Sir Edward invited the representa-

tive of the Crown to come here and open a building that he characterized as a "shack." Oh! "consistency thou art a Jewel." We were also promised by Mr. Seymour that we were to have a Steamer Ferry to cross the harbor, call at "the feathers" to bring the Island Cove men with their berries to the harbor. We are still going in the old black punt of a generation ago. Now we want to know why Sir Edward Morris has given a grand ferry boat to his brother Frank in Placentia, while he makes a fool of the men and women of Harbor Grace; then, again, we were to have a Blanket Factory. Sir Edward could not see why all the blankets used in Newfoundland could not be manufactured in Harbor Grace. This true he has provided a warm Government blanket for Piccott, Parsons and Seymour, but our people are leaving Harbor Grace in hundreds, pitying themselves for being fooled by Sir Edward Morris. Seymour's share in this farce is greater than Sir Edward's, because he said publicly that he would resign within twelve months if those pledges were not fulfilled.

Now, Mr. Editor, I have mentioned these promises by which Sir Edward guiled the people of Harbor Grace to show him that we are not as green as he takes us, and although we are Baymen we can see and note the antics of the People's Party. Does Sir Edward imagine that the sufferings that followed last winter as a result of last year's failure of the Labrador fishery is not made doubly bitter by the recollection of the "whack bag" and by the extravagance of the People's Party? The fishermen here have now Christened them the Picnic Party. Let us calmly review the grounds on which the "Picnic Party" have earned their title.

PICNIC No. 1. The Premier of the Picnic Party spent most of the summer watching and assisting Sir J. S. Winter pleading the case for the Colony at the Hague.

He never opened his lips. His fees and expenses will probably not be less than from \$7,000 to \$8,000.

PICNIC No. 2. Hon. Donald Morrison also spent some months at the Hague listening to and assisting and watching Sir J. S. Winter pleading the case for the Colony; he never opened his lips. His fees and expenses will probably not be less than from \$7,000 to \$8,000.

PICNIC No. 3. Hon. M. P. Cashin enjoyed a visit to the West Indies. The case for the Colony was prepared by H. W. LeMessurier and G. C. Fearn. Instead of posting the document for 18c. worth of stamps, the Hon. M. P. got his trip, which will probably cost a couple of Thousand Dollars.

PICNIC No. 4. Mr. Watson had a picnic to England last fall. Robert is saving the Empire by boosting the Royal Colonial Infantry. The public accounts will tell the exact amount, if any, of his "little bill."

PICNIC No. 5. Mr. Frank Morris is now in England on the Labrador boundary question. It is said. The genial Frank has not yet forwarded his account. It is rumored that it will not be much less than \$2,000.

PICNIC No. 6. Hon. Charles Emerson is now in England also looking up, so it is believed, documentary evidence on the Labrador boundary question. It is said that Charlie claims that he is entitled to a share of patronage as well as Frank Morris, and he is determined to have it.

PICNIC No. 7. Mr. Piccott went to Canada and the

Sciatic Rheumatism Unable to work or sleep—Six years of suffering—Cured by DR. A. W. CHASE'S NERVE FOOD.

Mr. Alex. Ehler, Jr., Clarence Creek, Russell Co., Ont., writes:—My nervous system was run down to such an extent that I suffered a great deal from weakness of the nerves and sciatic rheumatism, and at times was like one paralyzed. I could not work, was unable to sleep, and had no appetite. "Nothing seemed to build up my nerves until I made use of Dr. Chase's Nerve Food. After having used about \$12.00 worth of this medicine I feel like a new man. I can walk all right, do a great deal of work, have a good appetite and sleep well every night." When you have tried of experiments you can turn to Dr. A. W. Chase's Nerve Food knowing that persistent treatment is bound to be rewarded with lasting beneficial results. But you must get the genuine, bearing portrait and signature of A. W. Chase, M. D. 50c. etc. at all dealers or Edmondson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

Bishop of Quebec

Wants Missionary for Canadian Labrador.

Editor Evening Telegram: Dear Sir,—I should be glad if you could insert in the correspondence column of the next issue of your paper the following letter. I may say I have the authorization of the Lord Bishop of Quebec to use his name in this particular. The letter is as follows:—

"The Lord Bishop of Quebec (Church of England) is in great need of a clergyman, in Deacon's or Priest's orders, to work as assistant missionary in St. Clement's Mission, Canadian Labrador. The stipend offered is seven hundred dollars per year. St. Clement's Mission ministers to the spiritual needs of some twelve hundred fisherfolk scattered along the north shore of the Gulf of St. Lawrence, from Natashquan to Blanc Sablon, on the Straits of Belle Isle. The s.s. Home, from Bay of Islands, makes weekly calls at Blanc Sablon, Bradore, Salmon Bay and Bonne Esperance, all within the Mission. The staff of the Mission, when complete, consists of two clergymen and two catechists. The work involves a good deal of travelling—by boat in summer, by komatik and dogs in winter. For the summer travel the Mission owns a tolerably spacious and comfortable barge. The assistant missionary will, during the early part of the year, be stationed at Bonne

Esperance, which can be reached in a few hours from Bay of Islands, Newfoundland. The second part of the year he will be stationed at Harrington Harbor, where Dr. Grenfell has built a well-equipped hospital. Here is an opportunity for a young clergyman possessed of energy, earnestness, spirituality, and a fondness for adventure, to do a great work for God. If any who read this feel called to the work, the Lord-Bishop of Quebec would be glad if they would communicate at once with him at Bishopstrobe, 69 Esplanade, Quebec City, or with the Rev. H. H. Corey, Kingscroft, Que. He is anxious that applications be made early, as the missionary must be on the Labrador coast before the close of navigation."

HOLLIS H. COREY, Priest-in-Charge, St. Clement's Mission, Canadian Labrador. Mount Forest, Ont., September 24th, 1910.

The schooner Garnet, Skipper Paul Ezekiel, of Harbor Main, had her foremost carried away, just above the deck, coming across the Straits from Labrador last week. The schooner managed to get into Paquet, on the French Shore, next morning where the broken spar was "fished" and repaired in such a way as to enable Capt Ezekiel to proceed on his way to Harbor Main. The Garnet has 260 qtls. of fish caught at Griffin's Harbor. All the Harbor Main fleet are now home and they are poorly fished.

Women Will Remember!

It is a good thing for a Woman to remember that she can get

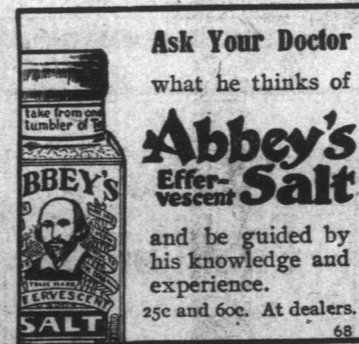

Ladies' Underwear,

for Fall wear, at

30 cents per garment from

P. F. COLLINS,

THE MAIL ORDER MAN, 340 and 342 Water Street.

Ask Your Doctor what he thinks of Abbey's Effervescent Salt and be guided by his knowledge and experience. 25c and 50c. At dealers.

Strange Case of Kentucky Boy Whose Hair Looks Like a Grandfather's.

Bowling Green, Ky., Sept. 18.—Walter Hunter Covington, aged seven, son of James C. Covington, a farmer living near Bowling Green, has hair whiter than that of many a man of fifty. His father says his hair began to turn grey when he was a little past three years old, and that since that time it has grown whiter every year.

The elder Covington says he cannot account for the fact, because the family has never had serious trouble, and none of the child's relatives have become grey.

The boy's hair is very white on the top and well down the sides, but at the bottom it still retains its ebony hue. The boy says he is so ashamed of his hair at times that he won't mix with anyone but relatives.
