MARCONI.

Guglielmo Marconi, born (1874), Italian electrical engineer, was born at
Griñone, near Bologna, his mother being an Irishwoman. His first experi-
ments in wireless telegraphy were made in Italy in 1895, then put to practical
use in England in 1896. In 1899 he established connection by the same means
across the English Channel; in 1901 between Cornwall and Newfoundland,
and in 1902 between Canada and Newfoundland. In 1904 he entered into an
agreement with the British Post Office for the commercial transmission of
wireless messages, and in the same year, through the same means, the first
ocean daily newspaper was started on the ships of the Cunard Line. His
system is in use in the British, Italian and other navies, and is at the present
time established throughout the world.
Among the many photographs on exhibition at CROSS & CO., is an
autograph picture of the great wizard.
At THE GRAND COLISEUM we invite inspection of our large and varied
stock of Men's warm Clothing, Coats, Pants, and Pants for little boys; Hosiery,
Gloves and Socks.
