The principal features of the game were Mr. Hughes' score for the bankers of 29 not out and Mr. Butler's 12, and Mr. Gammon's 15. Pte. Dunlevey, of the military team, was the only one to get the double figures for the I. S. C. Too much cannot be said of the bowling of Mr. Butler and Lieut. Lozier, both of whom played havoc with wickets. Rain considerably interfered with the match, and the military team are fully satisfied that Jupiter Pluvius caused them to lose it.

THE HOLY COAT OF TRIER.

Expectations That Two Millions of Pil-grims Will Go to See It.

TRIER, Aug. 3 .- The Holy Coat of Trie frier, Aug. 3.—The Holy Coat of Irlei (or Treves), supposed to have been worn by the Saviour, will be exhibited at the cathedral here for six weeks, commencing on Aug. 18. Fully 2,000,000 of pilgrims are expected to visit Trier during that time. An earnest and long controversy has been waged regarding the genuiness of the relic.

Chaplain Dasbach, member of the Prussian Diet, and one of the committee for the exhibition of the holy robe, thinks that there can be no possible doubt as to its genuineness. It has been exhibited only twice dur-

ness. It has been exhibited only twice during this century—in 1810 and 1844.

The robe is a tunic about five feet long,
cut narrow at the shoulders and gradually
widening toward the knees. It is woven in
one piece, without any seam whatever.
The material is supposed to have been
linen, but its great age prevents any exact
examination. It is inclosed in an outer

The Montreal correspondent of a Toronto newspaper reports that in the course of an interview anent the alleged amalgamation of the Canadian Pacific and the Grand Trunk, Mr. McIntyre did not hesitate to say that it was all without foundation. "It would not be possible for such a fusion of interests to be consummated, though changes were contemplated in the management of the G. T. R."

probably be the finest on the American continent, the sum of \$1,000,000 will have been expended.

The president of the Canadian Pacific had been in London three days before Mr. McIntyre left, and the former's views respecting the policy of the two roads are known to be the same as when he left Montreal, viz., to work in harmony for through freight in competition with American lines.

The 186 miles of double track between Montreal and Toronto and other superior facilities are enabling the Grand Trunk to make very fast time with stock and freight trains. A special with imported horses which left Montreal on the night of the 28th made the run to Point Edward, 502 miles, in 28 hours and 5 minutes. A special with imported sheep which left Montreal on the afternoon of the 30th did still better, covering the distance in exactly 26 hours. A daily freight train from Chicago to Boston, recently put on, makes the run from Point Edward to St. John, 526 miles, in 36 hours and 40 minutes, which included iceing of cars at the Don and Montreal and changing of engines and crews at five locomotive stations. An additional eighteen miles of double track will be opened for traffic on Aug. 9.

Montreal Aug. 3.—Among those who took passage on board the steamship Polynesian last week at Liverpool for this city were an elderly couple on their way to Chicago to live with a married daughter. On going aboard the steamer the husband fell dead. The widow continued on her way, but showed signs of deep melancholy throughout the voyage. When she arrived here and stepped aboard a barge lying in the St. Louis Basin she threw herself deliberately into the water. The captain immediately jumped in after her and Mr. George Hayden, guardian of the immigrants' shed, went to his assistance. She was taken from the water alive, but she died while being taken into the sheds.
