THE VALENTINE ACCIDENT.
Ald. Davies moved that the Grand Trunk railway company be requested to place gates at the Kingston road crossing. He said that such a provision was absolutely necessary, as there was a down grade all the way from Scarboro, and it was impossible to prevent engineers running at a high rate of speed. Ald. Denison in seconding the motion mentioned the recent accident at the crossing. Ald, Farley and Hallam thought the resolution should include all the employment of the Grand Trunk railway for live years, and as far as he knew he was a sober and careful driver. Mr. Whyte's evidence principally defined the rules which governed signals and lights on the railroad. The whistle should be blown 440 verds from a crossing a distance equal the railways of the western end of the city. After some further discussion the resolution was carried.
In reply to an enquiry the mayor said the police commission intended to increase the Toronto police force by fifteen or twesty men during the ensuing year, and to use the Dundas street police station.
Or motion of Ald. Denison and Boustead, Waiter S. Lee and John Macdonald were leaded to represent the city on the high school board.

ST. PETERSBURG, Jan. 8 .- The Russian expedition to the mouth of the Lena will pass a year on the coasts of the frozen ocean. The expedition is sent to fulfil an obligation of the Imperial society, contracted towards the international polar commission, in whose project the following states take part :-- Austria, England, Germany, take part :--Austria, England, Germany, Denmark, Norway, Russia, France, and the United States. Stations have been es-tablished at various places in the Arctic regions, and two stations in the Antarctic. It is expected that over two hundred per-sons will participate in the enterprise, which will cost altogether upwards of a million roubles. The Russian expedition will undertake the heaviest part of the work. It will have to traverse 6,6000 miles and establish itself in an exceptionally cold region at the mouths of the Lena, close to the place where the lowest temperature in the world has been noted. In January the average temperature is forty degrees below zero: helow zero.

How the Oable Was Employed in a spanne Lottery Scheme. NEW YORK, Jan, 3.—A partly successful attempt at swindling by means of adroitly contrived telegraphic despatches has just come to light in Havana. A telegram pur-porting to be forwarded from Madrid through Spencer's news agency, was printed on the morning of Dec. 24, announcing that the drawing of the national lottery at Madrid on the 23rd, the ticket 047045 had drawn the capital prize of \$500,000. In the afternoon the ticket was presented to the banking house of Borjes & Ce., who refused to negotiate it until the genuineness of the alleged telegram was ascertained. They forwarded a cable inquiry to Mairid correspondents, and a day later received what appeared to be a reply confirming the published despatch. Thereupon they negotiated the ticket in order to send the same to Madrid under notarial seal and insured. On arrival, here this morning he received telegrams informing him that the despatches establishing the genuineness of the report of the drawing were forged, and that the entire transaction was a frand. Subsequent despatches assured him that a large part of the money had been recovered in Havana, and he has every reason to believe that the million francs transfered to Paris has not yet passed into possession of the swindlers. The principal operator in the transaction at Havana has been jailed. The afair causes great excitement in the business community there. THAT KENTUCKY OUTEAGE New YORK, Jan. 3.- A partly successful Witness (hesitatingly)—Not without a history of the case. Scoville—I thought so. Guiteau—Your idea, doctor, that a man cannot be insane unless his brain is diseased is rather frivolous. You don't agree with the Saviour. You ought to study up spiritology. Witness did not believe in emotional in-sanity or moral insahity. Kleptomanea and pysimanea were simply conventional terms, invented to cover certain crimes. Insanity is never transmitted any more than cancer. Susceptibility to insanity is undoubtedly transmitted from parents to children but insanity does not necessarily follow except from profound physical dis-turbance. government. the Irish corporations. DUBLIN, Jan. 3.—Six thousand persons attended the landlord's meeting here to-day, which was the most influential ever held. All the principal representatives of the land interest were in attendance. Resolutions were adopted severely critizing the land court's decisios. The corporation conferred the freedom of the city upon Parnell and Dillion by a vote of 29 to 23. It was the general opinion at the meeting of landlords that until appeals from the decisions of sub-commissions are heard, a demand for compensation would be pre-mature.
