Kennett, Hopkins & Co.-to R. Cochrau. There was a panicky opening infconsequence of a bearigh Government report, not because the indicated yield of 590,500,000 bushels was larger than the trade had figured, but because Chicago operators are bearish and assumed that foreigners would give the report a bearish construction and be influenced accordingly. Cable advices hardly bear out this view, for aithough prices abroad were somewhat easier, if foreign markets present a firm front to-morrow the bears may abandon, for the present, their efforts to break the market, but any marked show of weakness algroad would be pretty sure to encourage fresh bearish demonstrations here. Clearances were fair, considerable export enquiry. Renewed rains in the northwest and good charters here.

Henry Allen to J. J. Dixon & Co.: Notwithstanding every effert was made to keep up the price of stocks to day they sagged downward, some of them losing a point or more. The market is gradually assuming the position it occupied before the recent boom and interest in it seems to diminish rather than increase, while railroad earnings recently reported show increases, yet the increases are not extrey uniform and do not encourage the belief in the prophecies put forth before the crop movement began.
