TRADE IN CANADA.

The hotel was built by the advertiser three buring the Week.

Daily Bulletin.

The week has developed no special variation in the trade situation in Montreal. The bustle of exhibition time is now wanting, and there are not so many country buyers in town, but a pretty steady distribution, in moderate lots, is to be noted in drygoods, erate lots, is to be noted in drygoods.

BURDOCK

Burlon Rotel Was being the developed no Saturday.

Consols steady, closing to day at 107 3-4 for neconut. Canadian Pacific ligher, closing in London to day 462. St. Paul closed at 79, erie er at 13, Reading at 10 5-8 and N.Y. Contral that the profit is said there will be a shipment erate lots, is to be noted in drygoods, groceries, shelf hardware, paints, etc. In teas there has been some active trading between importers and jobbers. The decline in sugar has been arrested, and refiners are firm at 4c for granulated, with rather more business doing. Other lines in groceries subject to marked advance are French prunes and sardines. Glass is up a point, and cables from London advise of notably stronger prices in Australian and Cape wools at the sales now in progress. Cheese has picked up a little within the week, September makes' bringing slightly better figures, but this was only to be expected. The export movement is still behind last year, and shipments of butter have not been up to expectations. Country collection still on the slow side.

There is practically no change in the trade situation at Toronto this week. On the whole the reports of wholesale merchandise. In a few lines of hardware there has been an increased demand. The season's trade, however, is most satisfactory, and the general feeling is one of confidence in the future. Prices of staples rule firm at about the best prices. There is talk of further advances in some lines of cottons owing to the continued advance in the raw material. The refiners and wholesale trade have advanced the prices of refined sugars 1-16 to 1-8c, and the deamnd for them is brisker.

the prices of refined sugars 1-16 to 1-8c, and the deamnd for them is brisker. The note circulation of the banks in Canada show an increase of \$1,000.000 for the month of Canada show an increase of \$1,000,000 for the month of August, half a million more than the increase of August last year. The total is half a million greater than at the corresponding period of last year. In the face of this the mercantile discounts have decreased, showing apparently less speculation in general business. The increase of some \$3,000,000 in the balances due our banks in the United States would seem to indicate little demand for money at home, and it is rather surprising how domestic rates for money have been so well maintained. have been so well maintained

Water and Sewage.

Editor World: A tunnel or steel conduit will probably give us better water, but what about the sewage question? It is dumped into the bay at present and finds its way out of the western gap, as witness the slimy and offensive deposit all along the shore, and the intolerable stench from dredging the Western Channel this summer, when the work had to be stopped by the Board of Health. It is now proposed to empty the sewage into the lake near Victoria Park, where, owing to the current which sets westward, it will have a clearer run to the mouth of the intake pipe, a contingency we are not liable to at present, and which, when easterly storms prevail is a very serious one indeed. What Mr. Manserfly will be facts as to the strength and force of lake currents opposite the city collected by the Provincial Board of Machine for the integration of the provincial Board of Machine for Machine for the provincial Board of Machine for Ma the intake pipe, a contingency we are not liable to at present, and which, when easterly storms prevail is a very serious one indeed. What Mr. Mansergh will want is fact, not fancy, and he should be put in possession of all the facts as to the strength and force of lake currents opposite the city collected by the Provincial Board of Health from long and careful tests three or four years ago. He may be safely trusted to work with the forces of nature rather than against them. Facts, however, as I have said, he must have, not mere fancies, and this

of astute and deep-thinking minds, will advise that the Church should mind things spiritual. Seek first the Kingdom of Heaven and all other things will Raise the Wrecked Warship.

Madrid, Sept. 26.—Prime Minister Canovas Del Castillo, conversing on the appearance of united Italy, nd if the Citurch remains true to her traditions the Italian people will remain faithful to the dogmas of the one true church. There is growing a closer union between the Church of England and Rome, and if, as it is expected, an English Pope be elected, these two great bodies will be united, or, as the Apostle puts it, one Church, one Christ, and cne baptism.

May the day soon come when God will be worshiped in spirit and in truth.

I could say more, Mr. Editor, for we live in an electrical and fast age, the poor are increasing and the rich and the poor come closer together and acknowledge that God is the Maker of the completes the Wrecked Warship.

May the day soon come when God will be worshiped in spirit and in truth.

I could say more, Mr. Editor, for we live in an electrical and fast age, the poor are increasing and the rich and the poor come closer together and acknowledge that God is the Maker of the completed the Maker of the Saturday night and embark at Rimouski on Sunday about Foronto 'to Liverpool less than nine Toronto 'to Liverpool

force of lake currents opposite the city collected by the Provincial Board of Health from long and careful tests three or four years ago. He may be safely trusted to work with the forces of nature rather thân against them. Facts, however, as I have said, he must have, not mere fancies, and this fact of Lake ontario corrents is a most important one. Yours, M.

The Proposed Purchase of Rome.

Editor World: You give space in your paper this morning about the purchase of Rome by the Vatican. Such a consummation is impossible. Rome is indeed and in truth, the capital of Italy, and the heroic sacrifices of Garboaldi and his patriot soldiers would have suffered in vain if such a bargain was possible.

The Pope, as head of the Church, Prows that his knigdom is not of this world, and his princely cardinals, men of astute and deep-thinking minds, will divise that the Church should mind.

Will Raise the Wrecked Warship.

They Never Fail.—Mr. S. M. Boughner, Langton, writes: "For about two years I was troubled with Inward Piles, but by using Parmelee's Pills I was completely cured, and although four years have elapsed since then, they have not returned." Parmelee's Pills are anti-bilious and a specific for the cure of Liver and Kidney Complaints, Dyspepsia, Costiveness, Hendache, Piles, etc., and will regulate the secretions and remove all bilious matter.

Central Prison Twine Contract.

Mr. P. L. Connor of Brantford has signed the Central Prison binder twine signed the Central Prison binder twine contract with the Ontario Government. The contract goes into force on Oct. 1, The contractors and is for five years. The contractor makes a deposit of

of the contract and the Government have the privilege of terminating the agreement on the 1st of November in any year after giving three months' notice of their intention to do so.

Sir H. Murray's Appointment Popular.

St. John's, Nfid., Sept. 25.—Sir Herbert Murray, who has just been appointed Governor of Newfoundland, was here last winter as British Relief Commissioner, and it is believed that the practical knowledge he then acquired of the condition of the colony was the chief reason for his appointment, which meets with general apportant, which meets with general apportant of the conditions of all shades of politics endorse his apointment.

BORROWERS WANTING LOANS AT LOWEST RATES SHOULD APPLY TO JOHN STARK & CO 26 Toronto-street,

THE FARMERS' MARKETS.
Receipts of produce at St. Lawrence market to-day were small owing to wet morning.

Wheat is steady, 150 bushels selling at 32c to 64c for white and red and 55 1-2c for goose. Barley quiet, 100 bushels selling at 33c to 41c. Oats steady, 300 bushels selling at 33c to 41c. Oats steady, 300 bushels selling at 33c.

To-day's market was the reverse of yes terday's. The early weakness was fol lowed by a very strong closing at the top price of the day. The trade is largely confined to local operators. The good de mand for winter whear and the high price asked for it causes some apprehension for the reason that while the premium exist there is very little likelihood of any of it being delivered on contracts. Seaboar their is very little likelihood of any of it being delivered on contracts. Seaboard clearances were about 200,000 bushels. Cables weak and in some cases lower. Cash business was confined to gar lots. No charters were made and no export de-mand was reported from the seaboard. There is some talk about dry weather de-laying seeding in the winter wheat sec-tion, but very little attention was paid to it.

laying seeding in the winter wheat section, but very little attention was paid to it.

Corn was dull up to the last hour, then it felt the strength of wneat. There was a slight increase in the anxiety of Sept. and Oct. shorts to cover. The cash demand was poor. Seaboard clearances were only 88,000 bushels. Cables nearly steady. Charters 185,000 bushels. Provisions more active and ruled firm and a little higher. Shorts in October pork and ribs were covering because the offerings were smaller. The strength in the grain markets caught outside buying orders in January deliveries. For the remainder of the month the course of the market will depend largely on the liquidation in long Oct. deliveries unless this liquidation is larger than it was to-day prices will work higher.
