WORLD'S RECORD COW.

Notice Fine Udder Development of Daisy Grace de Kol.

The semi-official yearly record of Daisy Grace de Kol as a junior four-year-old is a world's record and exceeds by over 200 pounds of fat the former record for her class. It also exceeds by 130 pounds of fat the highest record ever made in the senior four-year-old class. It also exceeds all official or semi-official yearly records of full aged cows of other breeds. Her average per cent of fat for one year is 4.43, a showing that is wonderful.

In the eight months' division Daisy Grace de Kol broke the record for her class. During the verification test, when she was under constant watch day and night, she produced 48.8 pounds of milk which contained 2.39 pounds of fat.

Only two full aged cows besides her stable mates, Banostine Belle de Kol

UDDER OF DAISY GRACE DE KOL.

and High Lawn Hartog de Kol, have ever produced as much fat in one year as has Daisy Grace de Kol as a junior four-year-old.

Daisy Grace de Kol was bred, reared and developed at Maplecrest farm, owned by Dan Dimmick and brother, at East Claridon, O. She is more light than dark, beautifully marked and will weigh in the neighborhood of 1,350 or 1,400 pounds. She is very strong and vigorous, almost perfect in conformation, and if one were asked to name the one trait that predominates all others it would be that of giving milk that is very high in butter fat, her average per cent of fat for the year being 4.43. In this respect she resembles her dam, who is also high in butter fat. Daisy Grace de Kol was dry for about two months or ten weeks. She freshened at the age of four years, three months and thirteen days, this being the third time she had been fresh, showing that she is a good breeder.

PLANT TREES.

It pays in comfort and in looks to have a few trees about the farmyard. A treeless farm is a desolate looking place. There are trees adapted to every climate and soil as there are crops adapted to the different climatic and soil conditions. A few thrifty trees, trim and neat in their appearance, will make farm life more pleasant.—Kansas Farmer.

Feeding of Stallions.

A man reputed to be one of the best horse conditioners in the country gives stallions six pounds of oats in the morning, while the noon and evening meals are made up of five pounds of oats, eight quarts of bran and three quarts of chopped mixed hay. Carrots are fed at each meal, while mixed hay is kept before them nearly all the time.

Along the Garden Paths.

When watering plants do not force the water against the plant; let it fall in the form of a shower.

Cabbage and all other plants of the cabbage family require a very fertile and cool, moist soil for good growth.

Carrots are splendid for folks who need iron in their blood. One of the best ways to get it is to eat these nice roots.

Sunshine, rainfall and temperature are three important factors in cantaloupe culture beyond the control of the grower.

If your beet rows are too thick pull out some and boll them for greens. Nothing better in the world for this purpose.

Let no cucumbers go to seed or the productiveness of the vines will be stopped. Pick them often, whether you want them or not.

As fast as the boxes, frames and stakes have done their work take them out, so that no insects will make their homes about them.

If it is dry slip a can or two of water on the stone boat and let the horses draw it out to the garden for use on the celery and things that most need water. It will pay you when you come to gather in the harvest.

Sallow Complexion

Indicates indigestion, constipation or liver trouble. FIG PILLS will regulate your system and build up the nerve forces so that you can sleep and enjoy life.

At all dealers 25 and 50 cent boxes or mailed by The Fig Pill Co., St. Thomas, Ont.

Sold in Watford by J. W. McLaren, Druggist.

A Smile or Two.

"What you need, madam, is oxygen. Come every afternoon for the inhalations. They will cost you \$4 each."

"I knew that other doctor didn't understand my case," declared the fashionable patient. "He told me all I needed was plain fresh air."—Washington Herald.

"How can you tell the politics of a newspaper at a glance?"

"By noting whether the headlines refer to an important statement as a 'feeble defense' or a 'stunning rebuke.'"

A lawyer, annoyed at seeing a couple of Irishmen looking at a six-sided building, which he occupied, lifted up the window, put his head out, and addressed them thus:—"Why do you stand there like a couple of blockheads gazing at my office? Do you take it for a church?"

"Faith," answered one of them, "I was thinking' so till the devil poked his head out the windy."

Early the other week all was going merrily at a very interesting Scottish Border wedding until the bridegroom was called upon to produce the wedding ring. In vain he felt in his trousers' pocket for the missing trifle. Nothing could be found except a hole through which the ring had fallen into his boot. What was he to do? "Take off your boot," said the parson. The suspense and silence was painful. The young man shamefacedly gingerly removed his boot; the ring was found—also a big hole in the heel of his stocking, which led the worthy divine to remark, "Young man, it is time you were married!"

Railway Wreck Near Chatham.

Chatham, Sept. 26.—A score of persons were injured, one, Miss Lafferty of Chatham, fatally, when the Grand Trunk fast train, No. 16, from Detroit, was derailed about five miles west of Chatham about 5 o'clock this afternoon. The dining-car and the day coaches were rolled over into the ditch and telescoped, while the engine, baggage car and the two rearend day coaches, though they left the track, remained on the roadbed.

Among those injured are: Mrs. Mead, Kent Bridge, Ont.; Mrs. Robert Coyle, Chatham; Mr. and Mrs. J. E. Richards, Chatham; Miss S. T. Lewis, Detroit, Mich.; Miss Cox, Toronto; Miss Costello, Toronto; M. E. Gray, Brantford.

The dining-car was almost deserted, but the day coach was crowded with passengers, for the most part residents of Chatham. That the loss of life was not heavy is little short of miraculous, as it is stated by passengers that the train was travelling at the rate of about 50 miles an hour.

Recent figures show that there are 103,943 paupers in London—72,778 in the workhouses and 31,165 on the outdoor lists.

COAL

The annual car shortage, which is just beginning to be felt, will be more severe this winter, than ever before. With the increasing volume of traffic in all lines of business, which will directly follow a bumper harvest, and COAL SHIPMENTS sixty days behind time, the railroads anticipate that after October 1st conditions will be as acute as to seriously cripple business. The shortage will be 150,000 cars.
