

TWO THINGS THAT HURT THE EYES

A person has been known to say, "I have ruined my eyes by reading too much." Not so—the eyes were made to use. One sure way to permanently injure the eyes is

READING BY INTENSE LIGHT

The light should come through ground glass to soften it. Never use clear glass for either gas or electricity. Oil lamps give out a soft light, therefore clear glass chimneys.

READING BY DIM LIGHT

Take our advice—do not read or sew by a dim light—it will be a direct strain upon the sight centres of the brain. On these two things hang the fundamental laws of sight economy. Never use cheap or pick-up glasses—come to us for advice about things optical.

Everything needful here.

Take good care of your vision!

Carl A. Class
Jeweler and Optician

Watford Ont., April 10, 1923

Mr. C. M. Fitzgerald,

Dear Sir:

"The Radio Set that I purchased from you has given me splendid service. During the winter months, with sickness in the house, it was a constant source of pleasure and profit. I think perhaps I am the only one in this locality who has distinctly heard Havana, Cuba, 1400 miles. Stations in Georgia, Texas, Oklahoma, Nebraska, Iowa, Dakota and Minnesota are often heard. Sunday services in Detroit, Schenectady and Pittsburgh come very plainly. I would not like to be without the radio now. The quality of programs is such a high class generally."

Yours sincerely,
Thos. Martin.

This is only one of the many sets I have installed, all of which are giving pleasure to their enthusiastic owners. Why neglect getting your set any longer.—Chas. M. Fitzgerald, Watford.

J. W. McConkey

IS THIS WEEK OPENING A

DRY CLEANING and PRESSING

ESTABLISHMENT IN L. R. KINNELL'S OLD STAND, SOUTH END, AND SOLICITS THE PATRONAGE OF THE PEOPLE OF WATFORD AND VICINITY.

WHERE LITTLE PIGS GO

Too Many Young Pigs Are Eaten by Their Mothers.

How Bill Smith Overcame the Trouble—Give the Sow a Balanced Ration—Just Practice Intelligent Feeding—Rationing the Sow.

(Contributed by Ontario Department of Agriculture, Toronto.)

Tom was "blue." Having just returned from the swine-pen, where he had gone to inspect a new litter of pigs, he found that five had disappeared. The unnatural mother had eaten them. "The pig must be a strange animal," he reflected. "It must have been pure 'cussedness' that caused her to eat her offspring. She was well fed, too, on corn and wheat shorts; hunger could not be at the bottom of this infanticidal case."

Tom went about his work mumbling to himself as to what could be the matter. Nearly fifty little pigs had been lost by such cannibalism during the two preceding years.

Find Out the Weak Spot.

"Where is the weak spot in my system of feeding swine, anyway," he questioned himself. "I will go over and see Bill Smith, the most successful pig man in the district, and see if he can clear up this pig-eating business that is causing me so much loss."

"Good morning, Tom. What makes your face look so long and your nose so blue this morning," quoth Smith, as he looked at his visitor's glum countenance.

"I have had another experience with a pig-eating sow," said Tom. "Five more pigs gone this morning, and I can't make it out. The sow was liberally fed on corn and shorts. I want to get at the bottom of this trouble, so I have come over to ask you your experience, as I suppose you have had losses the same as I have."

How Smith Overcame the Trouble.

"Well, Tom, I would be glad to give you my experience in this case. I used to lose a lot of pigs in this same way up to about two years ago, when I suddenly tumbled to what the cause of it all was, and applied a remedy that has proven a success in stopping the sows eating their young pigs."

Tom brightened up and became very much interested. "What's the secret?" he asked.

"Well, you see, it's like this: Pigs in the wild state or running in the woods usually get what their systems demand, in the variety of food supplied by the great range of living things on which the pigs feed naturally. Pigs pounced up have to take what we give them, and if we neglect to supply a sufficient variety of food containing all the essentials necessary to satisfy the demands of the pig, trouble will follow. And that trouble is usually manifested in the eating of the young pigs to satisfy the craving for meat or protein food."

"That all seems reasonable enough," said Tom. "But tell me, how do you satisfy the pig's demand for meat or protein foods?"

Give the Sow a Balanced Feed.

"Simply this. Balance up the sow's feed from the start, using alfalfa hay, meat meal or digester tankage as the source of protein and phosphates. Feed alfalfa hay whatever the pigs will take. Feed tankage or meat meal, using one pound to each ten pounds of grain feed, either mixed with the grain or fed ad lib. from a self-feeder. If the sow eats her babies, Tom, it's your fault. Do as I have told you. Supply the demands of her body in the food you give her, and then she will be normal and the pigs safe."

Just Practice Intelligent Feeding.

"Thousands of young pigs are lost every spring through the neglect to feed intelligently. Nobody ever saw a slaughter-house fed sow destroy her young. Meat or protein in some form must be fed to mother pigs or there will be trouble."

"I see it, Bill, and I'll do it, too, from now on, and save the youngsters for bacon," said the new thoroughly enlightened and delighted Tom.—L. Stevenson, Secy Ontario Department of Agriculture.

Rationing the Sow.

Rationing the sow is the surest way to forestall trouble. Overfeeding at farrowing time makes her feverish and nervous; more likely to trample her offspring and less able, often, to secrete milk properly.

Don't feed the sow at all during the twenty-four hours before farrowing, and during the week prior to that keep corn out of the ration. Corn is an especially heating feed. Instead, feed ground oats, barley or bran, any one or two of these, or all three if you like.

And don't feed the sow at all for from twelve to eighteen hours after farrowing. After that, even, go slow, taking from a week to ten days to get the animal back on full feed.

Scours in young pigs is one of the troublesome conditions which arise from faulty feeding of the mother. Next in importance to rationing comes condition of the pen. Clean, dry pens do much to prevent digestive disorders and rheumatism in both the sow and the pigs.

WEST ADELAIDE

Miss Myrtle Bennett is visiting her sister, Mrs. Wilbert Murray, Keyser. We are glad to know Mr. Joseph Keyser is improving after his accident.

Miss Zelma Conkey is visiting at the home of her sister, Mrs. J. L. Pennington, second line north.

Miss Marion Grogan, nurse-in-training at Strathroy Hospital spent last week at her home, Keyser.

Don't forget the date April 24th. You won't be disappointed in the play "An Old Fashioned Mother." Its good. Some home talent too, in West Adelaide Presbyterian church on Tuesday evening, April 24.

The W. M. S. met on Thursday, April 12th, in W. A. Presbyterian church. There were eighteen members and four visitors present. L. A. collection \$1.80 also an Easter offering. The meeting consisted of the usual devotional exercises, some business and a solo by Mrs. Chester Orr. The next meeting will be held on Thursday, May 3rd, at the home of Mrs. Robert Ball. The quilt blocks will be sewed together at this meeting.

ARKONA

Mr. Basil Cooper of Forest spent Saturday in the Ark.

Holeproof Hose, best values in Canada.—Brown Bros.

Mr. and Mrs. F. C. Eastman spent the weekend with relatives in Sarnia.

Mr. R. E. Wilson and Mr. Martin made a business trip to London last Thursday.

Messrs. Wilfred and Basil Fuller of Flint, Mich., spent the weekend at their home.

Mrs. Stanley Catt and son are visiting Mrs. Catt's parents, Mr. and Mrs. Brown, St. Thomas.

Mrs. Claire Porter and son Donald of Toronto are visiting her parents, Mr. and Mrs. Henry Rook.

For the young men, the correct styles in suits, caps, shirts, ties and oxfords. See them.—Brown Bros.

Mr. and Mrs. Henry Rivers and children of Clinton are visiting her former home, Mr. and Mrs. Geo. Huntley.

Reliable Seeds. Big stock of Red, Alsike, Lucerne Clovers, also some of the Peel County Lucerne in stock.—Brown Bros.

Having purchased the Butcher Business in Arkona, recently conducted by B. Morningstar, the best of service will be given. A light delivery van will be put on the road, for the convenience of the public. Your valued orders will receive my best personal attention at all times. Thanking you in anticipation. I am yours truly, ARTHUR WARREN.

A meeting of the Fruit Growers of this district was held in Arkona on April 18th. The speakers were J. P. Carey, on Imperial Show and British Markets. R. R. Waddle, on Pruning and Spraying. F. L. Gabel, on Co-operation, Markets and Fruit Marks Act. A demonstration was given in barrel and box packing. W. P. MacDonald, agricultural representative, had charge of the meeting.

The funeral of the late Mrs. Walter Woolvett was held Tuesday afternoon from the home of her parents, Mr. and Mrs. Chas. Zankay, to Arkona cemetery, a very large concourse of sorrowing friends and neighbors gathering to pay their last tokens of respect to a most worthy member of the community.

The large audience assembled in the Methodist church here on Tuesday evening, April 10th, enjoyed a rare treat when the drama "An Old Fashioned Mother" was presented by the young people of the Zion Methodist church, Warwick. The play itself is distinctly high-class, rich in pathos, intensely amusing in parts, clean and wholesome throughout, and these young people, as actors, are artists everyone, so that should they ever see fit to visit Arkona again on a like mission they may be assured of a good reception. An especially pleasing feature of the program was a fine vocal solo with encore, given by Mr. Gerald Robertson of Warwick.

THE LATE MRS. SAMSON OF BROOKE

On Thursday, March 22nd, death claimed an esteemed resident of Brooke, in the person of Mrs. Annie Goodwin Samson, relict of the late Benjamin Samson.

The late Mrs. Samson was in her 72nd year, and came from England to Canada at the age of ten years, with her uncle and aunt, the late Rev. and Mrs. James Goodwin, who held circuit at Wardville, Leamington, and other places.

She was married in 1879, to the late Benjamin Samson, who predeceased her fifteen years, residing in Brooke the past eighteen years, coming from Glencoe. She was a lifelong Methodist and had firm faith in the Lord. Of her it may be truly said, she fought a good fight, she finished her course, she kept the faith.

She leaves to mourn her loss: two sons and four daughters: Gladstone, of Hazen More, Sask.; John at home;

Mrs. R. J. McNeill, Mrs. T. N. Galbraith and Miss Hattie, all of Swift Current, Sask.; and Miss Ella of Glencoe.

The funeral was held on Saturday March 24th, from her late residence lot 13, con. 2, Brooke, service being conducted by Rev. Snell of Alvinston. Interment was made in Oakland cemetery.

ALVINSTON

Mr. Geo. R. Whitton was a London visitor last week.

Mrs. M. A. Temple is visiting with relatives in Detroit.

Mr. Frank Pavey spent a few days last week in Mt. Brydges.

Mrs. Wm. Code of Windsor is visiting with relatives in town.

Mr. Tom Park has purchased a new Gray car from Mr. Harry Grooms, agent.

Miss Nellie Farrel spent the week end as the guest of her parents in Glencoe.

Mrs. Gordon Luckham and children spent the weekend with friends in Sarnia.

Mrs. Peter Growder spent a few days last week with friends in Wyoming.

Mrs. Wm. McNally is spending a few days as the guest of her daughter in Sparta.

Mrs. Stanley Weld spent a few days last week as the guest of Miss Olive Tedford.

Mr. and Mrs. John Chambers spent a few days last week as the guest of relatives in London.

Miss Majorie McEachern, of Glencoe, is visiting at the home of her grandmother, Mrs. Susan Genge.

Mr. and Mrs. Hugh McAlpine and son Jack, spent a few days last week as the guests of Mr. and Mrs. Fred Benner.

Mr. and Mrs. Walter Brownlee moved their household effects and farm stock to Mt. Brydges last week where they have rented a farm.

Miss Eugenia Benube returned to her home in St. Thomas after visiting at the home of her cousin, Miss Mary Gibson.

Mrs. Susan Genge has returned home after spending the winter months at the home of her daughter, Mrs. Sam Howard, of Kitchener.

The many friends of Mr. John Hudson will be glad to know that he is improving after his recent illness at the home of his sister, Mrs. Jacob Risk.

Mr. Harry Grooms is moving into the house recently vacated by his father and Mrs. Duncan Livingston and family will occupy the house recently occupied by Harry Grooms.

Mr. and Mrs. Joseph Grooms have moved their household effects to Aylmer where they intend making their new home. Mr. Grooms will be manager of that branch of the Dominion Canners.

Work has begun on the ground recently purchased for a cemetery, staking of the lots, and as soon as the weather will permit seeding operations will begin and the lots offered for sale.

Mr. and Mrs. Joseph McTaggart moved into the house of Mr. H. L. Bindner and recently occupied by Leslie Duffy, after spending two years on the farm of Mr. Frank Lovell.

Mr. and Mrs. H. E. Paul left on Saturday for their new home in Morrisburg. Mr. D. H. Dredge, of London, will succeed Mr. Paul as manager of the local branch of the Molson's Bank.

The remains of the infant son of Mr. and Mrs. Frank Evans of Detroit was brought from that place to the home of Mr. and Mrs. White, Euphemia, where funeral services were held, interment taking place in Alvinston cemetery.

Word was received this week that Alvinston is to have a new flax mill in the near future to replace the one destroyed by fire a year ago and the local manager is soliciting acreage for the flax now. The new mill will employ many men both summer and winter which will relieve the unemployment situation to some extent.

The Y. P. A. of St. James' Anglican church held a very successful mock trial entitled "The Henpeck Chicken Case" in the Parish Hall on Thursday evening. The hall was filled to capacity and a very pleasant evening was spent. The players took their parts exceptionally well and D. T. Appleton as judge and E. E. Showler and Wm. McClung as lawyers carried out their parts in a very able manner and deserve special credit for their work.

Warts on Horses.

Warts are very difficult to eradicate, especially situated near the mouth or eyes. The exact cause of such growths is unknown, but no doubt indicates abnormal nutrition of the affected skin. Irritation of the skin may be a contributory cause. The warts with small necks can be twisted off or hauled with a silk thread, when they will drop off. Masses of small warts will disappear in time if smothered daily with a thick paste of equal quantities of cold-pressed castor oil, salt and flowers of sulphur.
