E. H. Knowles and family are at Granilland, of Roston, spent Monday last at the Revere House in this town. Mr. Chase's time is spent wholly in inventing. He is the inventor of Chase's Cold Blast Refrigerator Cars, of which there are some 4000 in use carrying meat, etc. from Texas and other Western States to the Atlantic seaboard. He is also the inventor of a machine for distilling water, and has one in operation at the present time in Boston which distills some 2500 gallons per day. He expresses himself as more than pleased with our beautiful valley, and promises next summer to arrange his business so as to be able to spend some three or four weeks in Nova Scotia.

E. H. Knowles and family are at Granille valle, of Lynn, Mass., and Mr. Chase's french and daughter, of New York, are visiting friends at the Ferry.

The Middleton Junior base-ball club played a match game with the Paradis Juniors on the grounds of the former club on Saturday afternoon last. The result was an easy victory for the Middleton Juniors, the two clubs not being sufficiently well matched to make the game interesting. At the close of the play the score stood, Middleton 63; Paradise 17. A week ago the team beat the Melvern Square Juniors with a score of 59 to 15. Though the boys are all under 18 years of age they are getting conceited enough to think they can beat any club in the county of the same age Master Lorne Gullivan the would be glad to hear from any club wishing a friendly match.

We are sorry to announce that Capt. J. H. Chute of this place, has been very seriously ill for the past fee days, however, he has been improving, and at present strong hopes are entertained of his zecovery. Capt. Beautiful Hard-Burnt Brick,

Our selected stock brick will look as well in the front of a building as some of the so-called face or repress brick, nor are they liable to chip or split with the frost. So far as tested they have not shown any of the WHITE SUBSTANCE, which so disfigures some brick buildings, and we believe them to be entirely free from this ingredient. We aim to keep on hand a large quantity, so that the trade can always rely upon being supplied with good brick.

Having a good wharf on our property and a siding of the W. & A. Railway, we can ship either by vessel or rail.

For the information of builders we publish herewith a certificate from a well-known architect.
