Nova Scotia Minerals.

I will send the following Minerals to any address, postpaid, for 50 cents:

ACADIALITE, ANHYDRITE, HEULANDITE, LEA-MONTITE, SATIN SPAR, SELENITE, STILBITE, (white). Do. (yellow).

These are not mere fragments, but fine, showy specimens, some of them being peculiar in beauty to this locality. They are suitable in size for School, Academy, or the private Cabinet, being as large and fine as those usually sold at from fifteen to twenty-five cents each. Every one who orders this collection will be pleased with it. Larger specimens for College Cabinet at proportional rates. Address—
