

**THRASHING MACHINE.**LETTERS  PATENT.**Time and Labor Saved are Money Earned.**

**T**HE SUBSCRIBERS having secured to themselves the exclusive right of manufacturing and vending to others to use within the territory of Upper and Lower Canada,

**SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE** one of the most valuable time and labour saving Machines ever devised by human ingenuity, respectfully inform the public that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them more than double the accommodation they had in the old shops, which will hereafter, they trust, enable them to supply the whole farming community of the United Provinces with a Machine that will thrash and clean more grain in a day, with less expense and with greater cleanliness, than any other known invention—only requiring two horses.

We beg leave to say to our customers and friends, that we are again prepared to furnish those in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.

Our long experience in making and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to excel all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying, that for durability, neatness of work, and amount of it they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean and none of it broken or wasted, it is at the same time perfectly cleaned, fit for the mill or any market.

All orders addressed to us or our Agent, **WM. JOHNSON**, will be promptly attended to.

Machines shipped to any port in Canada, and every one warranted to be as good as recommended.

Liberal terms of payment allowed.

**B. P. PAIGE & CO.**

Whereas, Letters Patent were obtained, bearing date March 5, 1849, on said Machine, the public are cautioned against purchasing, using or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by **B. P. PAIGE**, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed no person will be safe in purchasing or using said Machines.

**B. P. PAIGE.**

Agent at Hamilton, Mr. Raswell Wilson.

Toronto, July 15th, 1851.

**IMPORTANT TO FARMERS AND GARDENERS!**

**T**HE Subscriber is prepared to supply in any quantities to suit purchasers,

**GROUND BONE FOR**

**MANURE.**

It is quite unnecessary to state here the superior qualities of Ground Bone over any other kind of Manure, especially for turnips, as it is well known to all practical agriculturists.

**PETER R. LAMB,**

*Near the Toronto News-Office, East of Parliament Street*

N.B. All Orders or Communications sent to Mr. T. Laitey's Clothing Store, King Street, or through the Post Office, will be punctually attended to.

April, 1851.

**CHEAP OIL FOR KITCHEN LAMPS.**—Let all scraps of fat, (including even whatever bits are left on the dinner plates) and all drippings be carefully saved and put into an earthen crock, covered, and set in a cold place. When the crock is full, transfer the fat to an iron pot, filling it up half-way with fat; and pour in sufficient cold water to reach the top. Set it over the fire, and boil and skim it till all the impurities are removed. Next, pour the melted fat in a large, broad pan of cold water, and set it away to cool. It will harden into a cake. Then take out the cake and put it away in a cool place. When wanted for use, cut off a sufficient quantity—melt it by the fire till it becomes liquid, and then fill the lamp with it as with lard. It will give a clear, bright light, quite equal to that of lard and better than whale oil; and it costs nothing but the trouble of preparing the fat. We highly recommend this piece of domestic economy.

**PRESERVING EGGS.**—A patent for the following has been granted in England:—One bush. quick lime, 32 oz. salt, 8 oz. cream of tartar. These ingredients mix with as much water as will reduce them to the consistency of an egg, when put in, will swim. By this method, eggs have been preserved in a condition perfectly sweet for two years. So says the newspaper account. It may be well to try it.

**The Canadian Agriculturist.**

*Published Monthly, at Toronto, C. W.*

**TERMS:**

**ONE DOLLAR A-YEAR IN ADVANCE.**

Twelve Copies, for one year . . . . . 3s. 9d.  
To Clubs and Societies.
