

cles, is now issued monthly, a new series. It is finely got up, on a superior paper, with pictorial illustrations, and the matter is well fitted to please and instruct youthful readers. One section, "The Visitor's Questions," is particularly profitable, if the schools are exercised upon it. It is the cheapest paper of the kind, being supplied in parcels at the rate of 10 cents a copy, yearly; when 50 copies and upwards are taken, they are 9 cents each; when 100 and more, 8 cents. Pre-payment for 12 or 6 months is required, and when the term is about to end, a printed notice is enclosed, stating that if the order is not renewed through the August, the paper will be discontinued. Parcels go per mail for 5 cents per lb. payable on delivery.

The books in the Sabbath School Library department now amount to 250 vols, and are constantly increasing. The whole, or a part selected, may be taken; and on the value of \$12 or upwards, a discount of 20 per cent. is allowed, making them very cheap. They give universal satisfaction. There is a variety of other requisites for Sabbath Schools and Bible Classes. Catalogues sent when requested.

The entire catalogue contains upwards of 600 vols of select works, together with an admirable series of tracts, now reaching to 250, or 11 vols. Altogether the publications furnish most valuable reading for the elucidation and defence of sound doctrine and Scriptural Church organization.

Orders for the publications received and carefully filled by the Subscriber. He can, also, procure, for cash, books of other publishers in the United States.

LITERARY NOTICE.—SCIENTIFIC AMERICAN

One of the most interesting and useful publications of the day is the SCIENTIFIC AMERICAN, a weekly publication, devoted to popular science, new inventions, and the whole range of mechanical and manufacturing arts. The SCIENTIFIC AMERICAN has been published for fifteen years, by the well-known Patent Solicitors, Messrs Munn, & Co. 37 Park Row, New York; and has yearly increased in interest and circulation, until it has attained, we understand, nearly 20,000 subscribers, which is the best of evidence that the publication is appreciated by the reading public.

To those of our readers who may not be familiar with the character of the paper, we will state some of the subjects of which it treats. Its illustrated descriptions of all the most important improvements in steam and agricultural machinery, will commend it to the Engineer and Farmer, while the new household inventions and shop tools which are illustrated by engravings and described in its columns, with the practical receipts contained in every number, render the work desirable to housekeepers, and almost indispensable to every mechanic who has a shop for manufacturing new work.

The SCIENTIFIC AMERICAN is universally regarded as the inventor's advocate and monitor; the repository of American inventions, and the great authority on law, and all business connected with Patents. The Official List of Claims, as issued weekly from the Patent Office, in Washington, are published regularly in its columns. All the most important patents issued by the United States Patent Office are illustrated and described on its pages, thus forming an unrivalled history of American inventions.

It is not only the best, but the largest and cheapest paper devoted to Science, Mechanics, Manufactures, and the Useful Arts, published in the world. Hon. JUBOR MASON, formerly Commissioner of Patents, is not only engaged with the publishers in their immense Patent Agency department, but as a writer on Patent Laws and Practice, his ability is forcibly portrayed in the columns of this paper.

The SCIENTIFIC AMERICAN is published once a week, (every Saturday,) each number containing 16 pages of Letter press, and from 10 to 12 original Engravings of New Inventions, consisting of the most improved Tools, Engines, Mills, Agricultural Machines, and Household Utensils, making 52 numbers in a year, comprising 182 pages, and over 500 Original Engravings, printed on heavy, fine paper, in a form expressly for binding, and all for \$2 per annum.

A New Volume commences on the 1st of July, and we hope a large number of our townsmen will avail themselves of the present opportunity to subscribe. By remitting \$2 by mail to the publishers, MUNN & Co. 37 Park Row, New York, they will send you their paper one year, at the end of which time you will have a volume which you would not part with for treble its cost. The publishers express their willingness to mail a single copy of the paper to such as may wish to see it without charge.

A NATION'S RIGHT TO WORSHIP GOD.

Reprinted from Princeton Review for October, 1859.
