WELL-TRIED STERLING SEED NOVELTIES

New Early Pea "The Pilot"

A First Early Cropper, producing deep green pods of the well-known Gradus type. It is a hardy, vigorous, branching plant, growing 3 feet in height, and bears throughout the length of the haulm a large proportion of pods in pairs, which contain five deep green peas of exquisite flavor. The Pilot is in every respect the first and best of all Early Round-seeded varieties. An award of merit has been granted by the Royal Horticultural Society to this valuable variety. Package, 15c, ½ pint 40c, pint 80c, post paid. To Newfoundland and United States add 10c pint.

New Potato "Noroton Beauty"

It is a lineal descendant of the famous Peach-Blow, being a seedling from a seedling of that variety. We may summarize its merits as follows: It is the earliest potato ever grown. It is by far the most productive extra early, yielding as heavily as any of the medium early sorts. It is handsomer in appearance and more uniform in size and shape than any other variety. Its table quality is superb, and it keeps longer than any other sort, early or late. It is the best all-round potato in existence. Price, 1 lb., 20c; 5 lbs., \$1; post paid. To Newfoundland and United States add 10c lb.

FREE.—Our new Catalogue, 66 pages of Seeds, Implements, Plants, Poultry Supplies, and Sprayers, will be mailed free to applicants.
