

Let's reason together.

Here's a firm, one of the largest the country over, the world over; it has grown, step by step, through the years to greatness—and it sells patent medicines!—ugh!

"That's enough!"—*3/4/52*
Wait a little—

This firm pays the newspapers good money (expensive work, ~~this~~ advertising!) to tell the people that they have faith in what they sell, *so much faith* that if they can't benefit or cure they don't want your money. Their *guarantee* is not indefinite and relative, but *definite* and *absolute*—if the medicine doesn't help, your money is "on call."

Suppose every sick man and every feeble woman tried these medicines and found them worthless, who would be the loser, you or they?

The medicines are Doctor Pierce's "Golden Medical Discovery," for blood diseases, and his "Favorite Prescription," for woman's peculiar ills. If they help toward health, they cost \$1.00 a bottle each! If they don't, *they cost nothing!*

THE VERDICT!

The verdict of this Court (representing millions of intelligent women throughout the world) is, that "Sunlight" Soap is beyond all doubt the best in the world for Laundry and Household use, and that its many advantages over all other Soaps make it the cheapest to use; and that those who don't use it are standing in their own light.

WHAT IS THE RIGHT TIME?
